CERTIFIED MAIL:
7007 3020 0001 0921 1670

CEASE AND DESIST ORDER NO. R6T-2009-PROPOSED

REQUIRING HEGSTAD, MILES K, APN NO. 077-354-17-11 TO CEASE AND DESIST FROM DISCHARGING OR THREATENING TO DISCHARGE WASTE IN VIOLATION OF A DISCHARGE PROHIBITION SPECIFIED BY THE *WATER QUALITY CONTROL PLAN FOR THE LAHONTAN REGION*; SPALDING TRACT SUBDIVISION, EAGLE LAKE BASIN, LASSEN COUNTY

Enclosed is the above-referenced proposed Cease and Desist Order. The Cease and Desist Order is being issued in response to evidence that HEGSTAD, MILES K is, at a minimum, threatening to discharge waste in violation of a discharge prohibition specified by the *Water Quality Control Plan for the Lahontan Region* (Basin Plan). The enclosed proposed Cease and Desist Order is being provided for your review and comment.

To ensure the Lahontan Water Board has the opportunity to fully consider written comments, all comments must be submitted in accordance with the deadlines identified in the hearing procedures that will be sent to you in the next few days under separate cover. Written objections and materials submitted after the deadlines specified in the hearing procedures will not be accepted, except at the discretion of the Lahontan Water Board Chair. Untimely written material or objections will not be accepted or incorporated into the record if doing so would prejudice the Water Board or any Designated Party. The Chair may choose to modify this rule upon a showing of severe hardship. (Cal Code Regs., title 23, sections 648.1 and 648.4.) Any person seeking to submit late written materials must justify why the materials could not have been submitted earlier.

Contact Taylor Zentner at (530) 542-5469 or me at (530) 542-5432 if you have any questions regarding this matter.

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
LAHONTAN REGION

CEASE AND DESIST ORDER NO. R6T-2009-PROPOSED

REQUIRING HEGSTAD, MILES K, APN NO. 077-354-17-11TO CEASE AND DESIST FROM DISCHARGING OR THREATENING TO DISCHARGE WASTE IN VIOLATION OF DISCHARGE PROHIBITION SPECIFIED BY THE *WATER QUALITY CONTROL PLAN FOR THE LAHONTAN REGION*; SPALDING TRACT SUBDIVISION, EAGLE LAKE BASIN

Lassen County

The California Regional Water Quality Control Board, Lahontan Region (Water Board) finds:

1. HEGSTAD, MILES K, (hereafter "Discharger") own(s) Assessor Parcel No. 077-354-17-11 in the Spalding Tract subdivision located on the west shore of Eagle Lake, approximately 20 miles northwest of Susanville, California. See Attachment A – Vicinity Map, which is made a part of this Order.

2. The Discharger owns and/or operate(s) an on-site wastewater disposal system located at the above-referenced parcel. The existence of an on-site wastewater disposal system that has not been properly abandoned at this location permits waste to be discharged, and/or threatens a discharge of waste, to waters within the Eagle Lake Basin.

3. In September 1984, the Water Board amended the Water Quality Control Plan for the Lahontan Region (Basin Plan) to prohibit the discharge of sewage to on-site wastewater disposal systems in the Spalding Tract after September 14, 1989. In pertinent part, the Basin Plan prohibition states:

   > "The discharge of waste from the Spaulding [sic] or Stones-Bengard subdivisions with other than a zero discharge of nutrients to any surface waters or ground waters in the Eagle Lake basin is prohibited after September 14, 1989." (Basin Plan, Chapter 4, *Implementation*, Unit/Area-Specific Prohibitions for the Eagle Drainage Hydrologic Area at p. 4.1-4.)

4. In 1991, the Water Board issued Cease and Desist Orders to the Spalding Tract property owners requiring that they cease and desist from discharging wastes in violation of the Basin Plan prohibition.

5. The Water Board did not pursue enforcement of the Cease and Desist Orders issued in 1991 because there was no readily available means by which the Spalding Tract property owners could comply with the Basin Plan prohibition.

6. On October 22, 2007, the District's community wastewater system (system) became operational. As a result, there is now an available method for the Spalding Tract property owners to comply with the Basin Plan prohibition.

7. On June 25, 2008, the Water Board issued the Spalding Tract property owners[9] an Order to Submit a Technical Report pursuant to California Water Code section 13267 (13267 Order). The 13267 Order required the property owners to provide, by August 29, 2008, information demonstrating that the owner:

   a. planned to connect to the District's system;
   b. had already connected to the District's system;
   c. planned to abandon their on-site wastewater disposal system; or
   d. did not have an on-site wastewater disposal system.

   The 13267 Order also informed property owners that the Water Board would consider them in compliance with the 13267 Order and the Basin Plan prohibition if by November 15, 2008, the property owners had connected to the District's system, properly abandoned their on-site wastewater disposal system, or demonstrated that there was no on-site wastewater disposal system on their parcel(s).

8. Based upon a review of Lassen County records (Attachment B of this Order), the Discharger has an on-site wastewater disposal system located on the parcel referenced in Finding No. 1, above. Additionally, based upon a review of District records (Attachment C of this Order), the Discharger has not connected to the District system. The Water Board has also not received information from Lassen County indicating that the Discharger has properly abandoned its on-site wastewater disposal system. Therefore, the Water Board finds that, at a minimum, the Discharger is threatening to discharge waste in violation of the Basin Plan prohibition described in Finding No. 3, above.

9. Water Code section 13301 states, in part:

   "When a Regional Board finds that a discharge of waste is taking place, or threatening to take place, in violation of requirements or discharge prohibitions prescribed by the regional board or the state board, the [regional] board may issue an order to cease and desist and direct that those persons not complying

[9] Orders for a Technical Report were sent to property owners where Lassen County Assessor records documented that the property owners' parcels had improvements that may include on-site wastewater disposal systems, and the parcel was not connected to the community wastewater system.

with the requirements or discharge prohibitions (a) comply forthwith, (b) comply in accordance with a time schedule set by the [regional] board, or (c) in the event of a threatened violation, take appropriate remedial or preventative action."

10. As noted in Finding No. 8, above, the Discharger, at a minimum, is threatening to discharge waste in violation of the Basin Plan prohibition described in Finding No. 3, above. Therefore, the Water Board is authorized to issue a Cease and Desist Order for the threatened discharge pursuant to Water Code section 13301.

11. The Water Board is issuing new Cease and Desist Orders to all Spalding Tract property owners that have an on-site wastewater disposal system and have not either connected to the District's system or properly abandoned their on-site wastewater disposal system. The Discharger is such a property owner as identified in Finding No. 8, above. The new Cease and Desist Orders reflect current property ownership and the availability of the District's system as a means of compliance, and establish a new compliance schedule.

12. The Water Board has already rescinded many of the 1991 Cease and Desist Orders, based upon compliance with the Basin Plan prohibition and change in ownership that has occurred since issuing the 1991 Cease and Desist Orders. Even though the Discharger has not complied with its 1991 Cease and Desist Order, this Cease and Desist Order rescinds the 1991 Cease and Desist Order issued to the Discharger. The purpose of rescinding the 1991 Cease and Desist Order and issuing a new one is to establish a new compliance schedule consistent with the schedule being established for all other Spalding Tract property owners that continue to have an on-site wastewater disposal system, and have not either connected to the District's system or properly abandoned their on-site wastewater disposal system.

13. Water Code section 13267, subdivision (b) states:

"In conducting an investigation specified in subdivision (a), the regional board may require that any person who has discharged, discharges, or is suspected of having discharged or discharging, or who proposes to discharge waste within its region, or any citizen or domiciliary, or political agency or entity of this state who has discharged, discharges, or is suspected of having discharged or discharging, or who proposes to discharge, waste outside of its region that could affect the quality of the waters within its region shall furnish, under penalty of perjury, technical or monitoring program reports which the regional board requires. The burden, including costs, of these reports shall bear a reasonable relationship to the need for the report and the benefits to be obtained from the reports. In requiring these reports, the regional board shall provide the person with a written explanation with regard to the need for the reports, and shall identify the evidence that supports requiring that person to provide the reports."

14. The technical reports required by this Order are necessary to ensure compliance with the discharge prohibition described in Finding No. 3, above, and this Cease and Desist Order, as well as to ensure protection of waters of the state, and to protect public health and the environment. The burden, including costs, of the reports required by this Order bear a reasonable relationship to the need for the reports and the benefits to be obtained therefrom.

15. The Water Board notified the Discharger and interested persons of its intent to consider adoption of this Cease and Desist Order, and provided an opportunity to submit written comments and appear at a public hearing. The Water Board, in a public hearing, heard and considered all comments.

16. Issuance of this Order is exempt from the provisions of the California Environmental Quality Act (Public Resources Code, Section 21000, et seq.), in accordance with Section 15321(a)(2), Title 14, California Code of Regulations.

17. Any person aggrieved by this action of the Regional Water Board may petition the State Water Board to review the action in accordance with Water Code section 13320 and California Code of Regulations, title 23, sections 2050 and following. The State Water Board must *receive* the petition by 5:00 p.m., 30 days after the date of this Order, except that if the thirtieth day following the date of this Order falls on a Saturday, Sunday, or state holiday, the petition must be received by the State Water Board by 5:00 p.m. on the next business day. Copies of the law and regulations applicable to filing petitions may be found on the Internet at: http://www.waterboards.ca.gov/public_notices/petitions/water_quality or will be provided upon request.

THEREFORE, IT IS HEREBY ORDERED that, pursuant to Water Code sections 13301 and 13267, the Discharger shall cease and desist from discharging wastes or threatening to discharge wastes, in violation of the Basin Plan prohibition and shall comply with the other provisions of this Order:

1. Cease and Desist Order Number 6-91-484 is hereby rescinded.

2. By **December 31, 2009**, the Discharger must complete one of the following:

   a. Connect to the District's system.

   b. Abandon the on-site wastewater disposal system on the Discharger's property, Assessor Parcel No. 077-354-17-11

3. By **January 15, 2010**, the Discharger must complete one of the following:

a. If the Discharger has connected to the District's system, pursuant to option 2.a., above, the Discharger must request, both orally and in writing, that the District include its property on the list of properties connected to the District's system. The District's contact information is as follows:

Spalding Community Services District
502-907 Mahogany Way
Susanville, CA 96130
(530) 825-3258

The Water Board must be copied on the written request, attention Taylor Zentner. Compliance with this provision will be determined by the Water Board through a review of the District's list.

b. If the Discharger has abandoned the on-site waste disposal system, pursuant to option 2.b., above, the Discharger must request, both orally and in writing, that the Lassen County Environmental Health Department (County) inspect the Discharger's property to verify that the on-site waste disposal system has been abandoned. The County's contact information is as follows:

Lassen County Environmental Health
1445 Paul Bunyan Road
Susanville, CA 96130
(530) 251-8528

The Water Board must be copied on the written request, attention Taylor Zentner. Additionally, the Discharger shall provide the Water Board with a "Certification of Abandonment" provided by the County.

c. Provide a technical report (form included as Attachment D of this Order) documenting that the Discharger's property does not have an on-site wastewater disposal system. The report must include all information necessary to assist the Water Board in verifying the parcel number, street address, and the exact location of the Discharger's property, and any improvements to the property. The Discharger must provide written consent to allow Water Board staff to enter the Discharger's property for the purpose of verifying the absence of on-site wastewater disposal systems. If the Discharger wishes to be present during the inspection, the Discharger is requested to provide their contact information or the contact information of the person they wish to be present during the inspection. Contact information must include: name, mailing address, physical address of Spalding Tract property, phone number(s), and email address, if any.

4. The information required in paragraphs 3.a. through 3.c., above, is required to be provided pursuant to Water Code section 13267 (see Attachment E – Water Code

section 13267 Fact Sheet), and is necessary to ensure that the person or persons to whom this Order is issued have taken appropriate action to abate the discharge, and/or threatened discharge, of waste in violation of the Basin Plan prohibition.

Failure to comply with the terms or conditions of this Cease and Desist Order will result in additional enforcement action, which may include the imposition of administrative civil liability pursuant to Water Code sections 13350 and/or 13268, or referral to the Attorney General of the State of California for such legal action as he may deem appropriate.

I, Harold J. Singer, Executive Officer, do hereby certify that the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, Lahontan Region on September 9, 2009.

ATTACHMENT B

S. Bland

The object in conducting percolation tests of soil in which a drainfield or seepage pit is to be installed, is to determine the length of time required for the soil to absorb one inch of water when the ground has been saturated. The information obtained from these tests, together with a knowledge of the approximate amount and type of sewage to be discharged, makes it possible to determine the size of the drainfield necessary for a trouble free system.

Holes approximately 4 to 6 inches in diameter have been found to be the most convenient. However, this diameter is not critical and, particularly in very loose soils, it may be easier to dig larger holes. Sides of the holes should be vertical and the depth should be approximately that of the proposed drainfield (36"). The holes (2 or more) should be approximately 30 feet apart and in the area where the drainfield will be installed.

1. The sides should be roughed up to eliminate packing caused by the shovel or post hole digger, which would reduce the percolation rate. Two inches of fine gravel should be placed in the hole to prevent bottom scoring.

2. Fill the hole with clear water, being careful to avoid washing down the sides of the hole. By refilling if necessary, keep at least 24 inches of water in the hole for at least 24 hours. After the above saturation, start with 6 inches of water above the gravel (add water if necessary) and begin the measurements.

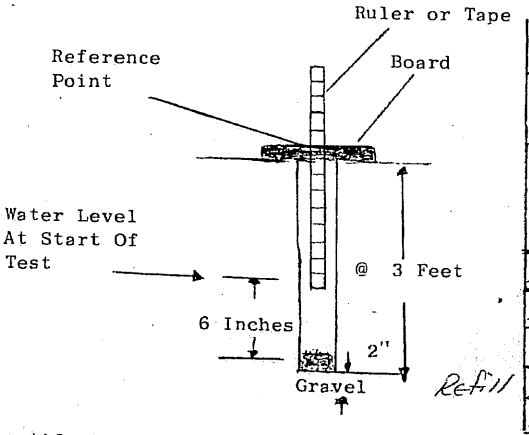
3. Select a reference point from which to measure (a board laid across the mouth of the hole is satisfactory) and measure the distance from the reference point to the level of the water. Enter the time and distance measured on the chart below.

4. Repeat the measurement at the end of 30 minutes. Continue making measurements at 30 minute intervals for 4 hours.

5. If the water level drops too low for further readings, refill to the 6 inch level at the end of a 30 minute period, measure, and proceed as before.

6. If the hole consistently drains in less than 30 minutes, make readings at 10 minute intervals for 1 hour.

The California State Housing Law requires that the proposed installation will absorb a quantity of clear water in a twenty-four (24) hour period equal to at least five (5) times the liquid capacity of the septic tank.



PERCOLATION TESTS RESULTS

Technical Report Form
No On-site Waste Disposal Certification

Property Owner Name (print)	
Assessor's Parcel Number	
Street Address	

Please list any improvements to the above-listed property, including but not limited to, any structures, wells, utilities, or septic tanks located on the property. Use additional paper if necessary.

Improvements:

For the purpose of verifying the absence of on-site waste disposal systems, the Discharger must provide written consent to allow Water Board staff to enter the Discharger's property. Please complete the following sections.

Permission to allow inspection.

I, _____(print property owner's name), do hereby provide consent to allow Water Board staff to enter my property for the purpose of verifying the absence of on-site waste disposal systems.

Would you like to be present during the inspection?

I, _____ (print property owner's name),

☐ Would like to be present during the inspection

☐ Would like someone other than myself to be present during the inspection

☐ Do not wish to be present during the inspection

If you would like to be present during the inspection, provide your contact information or the contact information of the person you wish to be present during the inspection.

Name of person to be present	
Phone number	
Mailing address	
Cell phone number (if available)	
E-Mail Address (if available)	

I hereby certify that the above information is true and correct. I understand that failure to provide complete and accurate information may result in the imposition of administrative or judicial civil liability.

Fact Sheet – Requirements for Submitting Technical Reports Under Section 13267 of the California Water Code

October 8, 2008

What does it mean when the regional water board requires a technical report?

Section 13267[1] of the California Water Code provides that "...the regional board may require that any person who has discharged, discharges, or who is suspected of having discharged...waste that could affect the quality of waters...shall furnish, under penalty of perjury, technical or monitoring program reports which the regional board requires".

This requirement for a technical report seems to mean that I am guilty of something, or at least responsible for cleaning something up. What if that is not so?

Providing the required information in a technical report is not an admission of guilt or responsibility. However, the information provided can be used by the regional water board to clarify whether a given party has responsibility.

Are there limits to what the regional water board can ask for?

Yes. The information required must relate to an actual or suspected discharge of waste, and the burden of compliance must bear a reasonable relationship to the need for the report and the benefits obtained. The regional water board is required to explain the reasons for its request.

What if I can provide the information, but not by the date specified?

A time extension can be given for good cause. Your request should be submitted in writing, giving reasons. A request for a time extension should be made as soon as it is apparent that additional time will be needed and preferably before the due date for the information.

Are there penalties if I don't comply?

Depending on the situation, the regional water board can impose a fine of up to $1,000 per day, and a court can impose fines of up to $25,000 per day as well as criminal penalties. A person who submits false information is guilty of a misdemeanor and may be fined as well.

What if I disagree with the 13267 requirement and the regional water board staff will not change the requirement and/or date to comply?

Any person aggrieved by this action of the Regional Water Board may petition the State Water Board to review the action in accordance with Water Code section 13320 and California Code of Regulations, title 23, sections 2050 and following. The State Water Board must *receive* the petition by 5:00 p.m., 30 days after the date of the Order, except that if the thirtieth day following the date of this Order falls on a Saturday, Sunday, or state holiday, the petition must be received by the State Water Board by 5:00 p.m. on the next business day. Copies of the law and regulations applicable to filing petitions may be found on the Internet at: http://www.waterboards.ca.gov/public_notices/petitions/water_quality or will be provided upon request.

Claim of Copyright or other Protection

Any and all reports and other documents submitted to the Regional Board pursuant to this request will need to be copied for some or all of the following reasons: 1) normal internal use of the document, including staff copies, record copies, copies for Board members and agenda packets, 2) any further proceedings of the Regional Board and the State Water Resources Control Board, 3) any court proceeding that may involve the document, and 4) any copies requested by members of the public pursuant to the Public Records Act or other legal proceeding.

If the discharger or its contractor claims any copyright or other protection, the submittal must include a notice, and the notice will accompany all documents copied for the reasons stated above. If copyright protection for a submitted document is claimed, failure to expressly grant permission for the copying stated above will render the document unusable for the Regional Board's purposes, and will result in the document being returned to the discharger as if the task had not been completed.

If I have more questions, who do I ask?

Requirements for technical reports normally indicate the name, telephone number, and email address of the regional water board staff person involved at the end of the letter.

[1] All code sections referenced herein can be found by going to www.leginfo.ca.gov . Copies of the regulations cited are available from the Regional Board upon request.
