The State Water Resources Control Board, Division of Drinking Water, (hereinafter Division) hereby issues a citation to the Glenview Mobile Park (hereinafter GMP) for the following violation:

COURT PAPER
STATE OF CALIFORNIA
STD. 113 (REV. 3-95)
OSP 98 10924

1. Section 64423, Title 22, CCR. Specifically, the GMP failed to collect and/or report a routine distribution coliform sample for the month of May 2015.

BACKGROUND

The GMP is a community water system as it serves approximately 100 people through 26 service connections. The system water supply is obtained from one active well (Well No. 02), which is 550 feet deep and has an 8-inch diameter steel casing. The perforations begin at 400 feet. The well has an annular cement seal depth of 370 feet. The water is pumped to a storage tank of 4,500 gallons and then boosted to the distribution system. The well is chlorinated prior to storage.

The Total Coliform Rule requires the GMP to collect one routine coliform sample every month from the system. During the month of May 2015, the GMP failed to collect and/or report the required routine coliform sample, which resulted in non-compliance with Section 64423, Title 22, CCR.
