Mr. Bruce Wolfe
Executive Officer
Regional Water Quality Control Board
1515 Clay Street; Suite 1400
Oakland, CA 94612

RE: Annual Deliverables Report (July 2011 – June 2012)
Order R2-2009-0074 - NPDES Permit No. CAS612008

Dear Mr. Wolfe,

Enclosed please find the City of Oakland's Annual Deliverables Report (July 2011 – June 2012) for the fiscal year 2011/2012 as required by the California Regional Water Quality Control Board, San Francisco Bay Region Municipal Regional Stormwater National Pollutant Discharge Elimination System (NPDES) Permit.

I certify under penalty of law that these documents and all attachments were prepared under my direction or supervision in accordance with a system designed to ensure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Sincerely,

Vitaly B. Troyan, P.E.
Director, Public Works Agency

Section 1 – Permittee Information

Background Information					
Permittee Name:	City of Oakland				
Population:	390,724 (based on 2010 Census)				
NPDES Permit No.:	CAS612008				
Order Number:	R2-2009-0074R				
Reporting Time Period (month/year):	July 2011 through June 2012				
Name of the Responsible Authority:	Lesley Estes			Title:	Watershed Program Supervisor
Mailing Address:	250 Frank H. Ogawa, Suite 4313				
City:	Oakland	Zip Code:	94612	County:	Alameda
Telephone Number:	(510) 238-7431		Fax Number:		(510) 238-2233
E-mail Address:	lestes@oaklandnet.com				
Name of the Designated Stormwater Management Program Contact (if different from above):	SAME AS ABOVE			Title:	
Department:					
Mailing Address:					
City:		Zip Code:		County:	
Telephone Number:			Fax Number:		
E-mail Address:					

Section 2 - Provision C.2 Reporting Municipal Operations

Program Highlights and Evaluation

Highlight/summarize activities for reporting year:

Summary:

City staff conducting daily municipal operations implement Best Management Practices (BMPs) available from the Alameda Countywide Clean Water Program (ACCWP), the California Stormwater Quality Association (CASQA), the Bay Area Stormwater Management Agencies Association (BASMAA), the California Regional Water Quality Control Board (RWQCB), and other entities.

During FY 2011-2012, City staff participated in the Municipal Maintenance/Operations Subcommittee and associated workgroups and trainings.

See Provision C.2 Municipal Operations section of the ACCWP FY 2011-2012 Annual Report for a description of activities implemented at the countywide and/or regional level.

C.2.a. ►Street and Road Repair and Maintenance

Place an **X** in the boxes next to implemented BMPs to indicate that these BMPs were implemented in applicable instances. If not applicable, type **NA** in the box. If one or more of these BMPs were not adequately implemented during the reporting fiscal year then indicate so and provide explanation in the comments section below:

X	Control of debris and waste materials during road and parking lot installation, repaving or repair maintenance activities from polluting stormwater
X	Control of concrete slurry and wastewater, asphalt, pavement cutting, and other street and road maintenance materials and wastewater from discharging to storm drains from work sites.
X	Sweeping and/or vacuuming and other dry methods to remove debris, concrete, or sediment residues from work sites upon completion of work.

Comments:

The City's Street & Sidewalk Maintenance Division of the Public Works Agency (PWA) conducts limited work on streets and sidewalks. Operations include minor asphalt and pothole repairs. The Streets and Sidewalks Division recently added minor street repairs to its responsibility. Minor street repair includes street milling and placement of new asphalt in the area of repair. Storm drain protection and scheduling work to avoid rainy weather is a standard BMP for work.

Street milling involves the removal of approximately 2-4" of the surficial layers of the roadway using an asphalt grinder/milling machine. The milling machine is a self contained piece of equipment with a holding box that loads the ground asphalt onto a conveyer belt that loads materials into a waiting dump truck. Work crews use a guide person to avoid spillage from the milling machine to the conveyor belt, and truck. Additionally, a skip loader follows behind the equipment to ensure remnant pieces of asphalt are picked up. Final cleanup prior to the placement of new asphalt using a box hopper includes the use of a mechanical broom sweeper vehicles and manual sweeping by City staff.

C.2.b. ►Sidewalk/Plaza Maintenance and Pavement Washing

Place an **X** in the boxes next to implemented BMPs to indicate that these BMPs were implemented in applicable instances. If not applicable, type **NA** in the box. If one or more of these BMPs were not adequately implemented during the reporting fiscal year then indicate so and explain in the comments section below:

X	Control of wash water from pavement washing, mobile cleaning, pressure wash operations at parking lots, garages, trash areas, gas station fueling areas, and sidewalk and plaza cleaning activities from polluting stormwater
X	Implementation of the BASMAA Mobile Surface Cleaner Program BMPs

Comments:

City staff that conduct sidewalk/plaza maintenance and pavement washing receive both an initial training and continuous on the job training.

Bi-weekly safety meetings are also conducted with staff. These tailgate meetings may include discussion regarding stormwater issues that may arise on the job or from complaints.

C.2.c. ►Bridge and Structure Maintenance and Graffiti Removal

Place an **X** in the boxes next to implemented BMPs to indicate that these BMPs were implemented in applicable instances. If not applicable, type **NA** in the box. If one or more of these BMPs were not adequately implemented during the reporting fiscal year then indicate so and explain in the comments section below:

See Comment 1	Control of discharges from bridge and structural maintenance activities directly over water or into storm drains
X	Control of discharges from graffiti removal activities
X	Proper disposal for wastes generated from bridge and structure maintenance and graffiti removal activities
X	Implementation of the BASMAA Mobile Surface Cleaner Program BMPs for graffiti removal
X	Employee training on proper capture and disposal methods for wastes generated from bridge and structural maintenance and graffiti removal activities.
X	Contract specifications requiring proper capture and disposal methods for wastes generated from bridge and structural maintenance and graffiti removal activities.

Comments:

1. **City staff does not conduct bridge and/or structural maintenance activities directly over water. Bridge work is limited to graffiti removal activities only.**

Staff in the City PWA – Keep Oakland Clean and Beautiful (KOCB), Graffiti Abatement use the following methods to abate graffiti:

1. **Paint over (spray on or roll over)**
2. **Chemical removal of graffiti (wipe on)**

If needed, power washing using a pressure washer is used to remove graffiti from structures. The City has two reclamation units that are used as a BMPs during pressure washing activities.

Additionally, many structures (such as electrical boxes and signs) and bridge structures located within the Oakland boundaries may not be City responsibility or jurisdiction. Some structures belong to utility companies (such as EBMUD, PG&E, etc.) and the bridge structures may fall under the responsibilities of CalTrans. These cases are referred by City staff to the responsible agency for response.

C.2.d. ►Stormwater Pump Stations

Does your municipality own stormwater pump stations:	X	**Yes**		**No**

If your answer is **No** then skip to **C.2.e.**

Complete the following table for dry weather DO monitoring and inspection data for pump stations[1] (add more rows for additional pump stations). If a pump station is exempt from DO monitoring, explain why it is exempt.

Pump Station Name and Location	**First inspection Dry Weather DO Data**		**Second inspection Dry Weather DO Data**	
	Date	**mg/L**	**Date**	**mg/L**
7th Street (@ Interstate 880)	**Not Applicable**	**Not Applicable**	**Not Applicable**	**Not Applicable**
73rd Avenue (@ San Leandro Street)	**Not Applicable**	**Not Applicable**	**Not Applicable**	**Not Applicable**
105th Avenue (@ San Leandro Street)	**Not Applicable**	**Not Applicable**	**Not Applicable**	**Not Applicable**

Summarize corrective actions as needed for DO monitoring at or below 3 mg/L. Attach inspection records of additional DO monitoring for corrective actions: not corrective action required. This is only a wet weather facility and stays dry.

Summary:

DO Monitoring and Data Collection at the City of Oakland Stormwater Pump Stations is not required. As stated in Section C.2.d.ii.(2) of the MRP, "DO monitoring is exempted where all discharge from a pump station remains in the stormwater collection system or infiltrates into a dry creek immediately downstream. "

Attachments:

Not Applicable

[1] DO monitoring is exempted where all discharge from a pump station remains in a stormwater collection system or infiltrates into a dry creek immediately downstream.

Complete the following table for wet weather inspection data for pump stations (add more rows for additional pump stations):

Pump Station Name and Location	**Date** (2x/year required)	**Presence of Trash** (Cubic Yards)	**Presence of Odor** (Yes or No)	**Presence of Color** (Yes or No)	**Presence of Turbidity** (Yes or No)	**Presence of Floating Hydrocarbons** (Yes or No)
7th Street (@ Interstate 880)	**9/22/2011**	**Yes <0.5 cubic yards**	**No**	**No**	**No**	**No**
	4/23/2011	**Yes <0.5 cubic yards**	**No**	**No**	**No**	**No**
73rd Avenue (@ San Leandro Street)	**9/22/2012**	**Yes <0.5 cubic yards**	**No**	**No**	**No**	**No**
	4/23/2012	**Yes <0.5 cubic yards**	**No**	**No**	**No**	**No**
105th Avenue (@ San Leandro Street)	**9/22/2011**	**Yes <0.5 cubic yards**	**No**	**No**	**No**	**No**
	4/23/2012	**Yes <0.5 cubic yards**	**No**	**No**	**No**	**No**

Summary:

The City conducts inspections of the three stormwater pump stations located at the roadway underpasses listed above on a bi-weekly schedule. Accumulated trash removed, presence of odor, presence of color, presence of color, presence of turbidity, and presence of floating hydrocarbons observed in the respective pump station sumps are noted on the Public Works Agency – Drainage Maintenance Storm / Drainage Department Pump Stations field log forms.

Trash and debris accumulation is limited to the volume that can be collected in the specific underpass storm drain inlets located at the roadway surface.

C.2.e. ►Rural Public Works Construction and Maintenance

Does your municipality own/maintain rural[2] roads:		**Yes**	X	**No**
If your answer is **No** then skip to **C.2.f**.				
Place an **X** in the boxes next to implemented BMPs to indicate that these BMPs were implemented in applicable instances. If one or more of the BMPs were not adequately implemented during the reporting fiscal year then indicate so and explain in the comments section below:				
	Control of road-related erosion and sediment transport from road design, construction, maintenance, and repairs in rural areas			
	Identification and prioritization of rural road maintenance based on soil erosion potential, slope steepness, and stream habitat resources			
	No impact to creek functions including migratory fish passage during construction of roads and culverts			
	Inspection of rural roads for structural integrity and prevention of impact on water quality			
	Maintenance of rural roads adjacent to streams and riparian habitat to reduce erosion, replace damaging shotgun culverts and excessive erosion			
	Re-grading of unpaved rural roads to slope outward where consistent with road engineering safety standards, and installation of water bars as appropriate			
	Inclusion of measures to reduce erosion, provide fish passage, and maintain natural stream geomorphology when replacing culverts or design of new culverts or bridge crossings			
Comments including listing increased maintenance in priority areas:				

[2] Rural means any watershed or portion thereof that is developed with large lot home-sites, such as one acre or larger, or with primarily agricultural, grazing or open space uses.

C.2.f. ►Corporation Yard BMP Implementation

Place an **X** in the boxes below that apply to your corporations yard(s):

	We do not have a corporation yard
	Our corporation yard is a filed NOI facility and regulated by the California State Industrial Stormwater NPDES General Permit
X	We have a current **Stormwater Pollution Prevention Plan (SWPPP)** for the Corporation Yard(s)

Place an **X** in the boxes below next to implemented SWPPP BMPs to indicate that these BMPs were implemented in applicable instances. If not applicable, type **NA** in the box. If one or more of the BMPs were not adequately implemented during the reporting fiscal year then indicate so and explain in the comments section below:

X	Control of pollutant discharges to storm drains such as wash waters from cleaning vehicles and equipment
X	Routine inspection prior to the rainy seasons of corporation yard(s) to ensure non-stormwater discharges have not entered the storm drain system
X	Containment of all vehicle and equipment wash areas through plumbing to sanitary or another collection method
X	Use of dry cleanup methods when cleaning debris and spills from corporation yard(s) or collection of all wash water and disposing of wash water to sanitary or other location where it does not impact surface or groundwater when wet cleanup methods are used
X SEE COMMENT 1	Cover and/or berm outdoor storage areas containing waste pollutants

Comments:

1. **The City is in the process of installing a covered roof for the area containing soil stockpiles at the City's Municipal Service Center (MSC) located at 7101 Edgewater Drive, Oakland, CA At the time of submittal of this report, the City's Contractor had completed the construction of the foundation for the soil stockpile building. The building canopy and cover were scheduled for installation in the beginning of September 2012 and the construction is scheduled for completion by the end of September 2012.**

   Currently, the City continues to use its existing soil stockpile bins and implements BMPs such as routine monitoring and maintenance of the area in an effort to prevent stormwater impacts.

If you have a corporation yard(s) that is not an NOI facility, complete the following table for inspection results for your corporation yard(s) or attach a summary including the following information:

Corporation Yard Name	**Inspection Date** (1x/year required)	**Inspection Findings/Results**	**Follow-up Actions**
7101 Edgewater Boulevard Municipal Service Center (MSC)	**6/29/2012**	**General Housekeeping issues. Trash pickup, trash enclosures maintenance, and corporation yard cleanup needed.**	**Conduct routine cleanup of Corporation Yard.**

750 50th Avenue / 5050 Coliseum Way	6/29/2012	General Housekeeping issues. Miscellaneous items stored haphazardly (e.g. tires, empty chemical drums, and unused product/materials) along NE fenceline. Drive and parking areas of corporation yard need to be swept.	Conduct routine cleanup of Corporation Yard. Corporation Yard Cleanup (including vegetation management and sweeping) occurs the last Wednesday of each month
Shepherd Canyon	6/27/2012	General Housekeeping issues. Trash enclosures require maintenance.	Conduct routine cleanup of Corporation Yard. Corporation Yard cleanups are conducted on a weekly basis. 2 larger scale Corporation Yard cleanups are conducted prior to and following the rainy season.

Section 3 - Provision C.3 Reporting New Development and Redevelopment

C.3.b. ►Green Streets Status Report

(All projects to be completed by December 1, 2014)

On an annual basis (if applicable), report on the status of any pilot green street projects within your jurisdiction. For each completed project, report the capital costs, operation and maintenance costs, legal and procedural arrangements in place to address operation and maintenance and its associated costs, and the sustainable landscape measures incorporated in the project including, if relevant, the score from the Bay-Friendly Landscape Scorecard.

Summary:

The C.3 New Development and Redevelopment section of the Alameda Countywide Clean Water Program's FY 2011-2012 Annual Report includes a description of activities conducted at the countywide or regional level.

C.3.b.v.(1) ►Regulated Projects Reporting Table

Fill in attached table **C.3.b.v.(1)** or attach your own table including the same information.

No Regulated Projects were approved during FY 2011-2012.

C.3.iii(3)Low Impact Development Reporting

(For FY 11-12 Annual Report only) Report the method(s) of implementation of Provision C.3.c.i in the 2012 Annual Report. For specific tasks listed in Provision C.3.c.i. that are reported using the reporting tables required for Provision C.3.b.v, a reference to those tables is adequate.

The City has modified its Stormwater Supplemental Form to implement the LID requirements of Provision C.3.c.i. The Stormwater Supplemental Form is completed and submitted by project applicants when development applications are submitted to the City. The form captures information related to impervious surface calculations, site design measures, source control measures, treatment measures, special projects, LID feasibility/infeasibility, and hydromodification management. The form is based on information contained in the Countywide Program's C.3 Technical Guidance manual and BASMAA's Harvesting and Use, Infiltration and Evapotranspiration Feasibility/Infeasibility Criteria Report. In addition, City staff has been trained on implementing LID requirements and utilizes BASMAA's soil specifications and green roof specifications during project review.

C.3.e.v. ► Alternative or In-Lieu Compliance with Provision C.3.c.

(For FY 11-12 Annual Report only) Did your agency make any ordinance/legal authority and procedural changes to implement Provision C.3.e.?		**Yes.**	X	**No**
If yes, attach a copy of the ordinance/legal authority changes or provide a link to the document(s). Discuss any procedural changes made.				
(For FY 11-12 Annual Report and each Annual Report thereafter) Is your agency choosing to require 100% LID treatment onsite for all Regulated Projects and not allow alternative compliance under Provision C.3.e.?		**Yes**	X	**No**
Comments (optional):				

C.3.e.vi ► Special Projects Reporting

1. Has your agency received, but not yet granted final discretionary approval of, a development permit application for a project that has been identified as a potential Special Project based on criteria listed in MRP Provision C.3.e.ii(2) for any of the three categories of Special Projects (Categories A, B or C)?	X	**Yes**		**No**
2. Has your agency granted final discretionary approval of a project identified as a Special Project in the March 15, 2012 report? If yes, include the project in both the C.3.b.v.(1) Table, and the C.3.e.vi. Table.		**Yes**	X	**No**

If you answered "Yes" to either question,

1) Complete Table C.3.e.vi . below.
2) Attach narrative discussion of 100% LID Feasibility or Infeasibility for each project.

Comment: 100% LID on-site treatment is feasible for the Special Projects listed in Table C.3.e.vi.

C.3.h.iv. ► Installed Stormwater Treatment Systems Operation and Maintenance Verification Inspection Program Reporting

(1) Fill in attached table **C.3.h.iv.(1)** or attach your own table including the same information.

(2) On an annual basis, provide a discussion of the inspection findings for the year and any common problems encountered with various types of treatment systems and/or HM controls. This discussion should include a general comparison to the inspection findings from the previous year.

Summary:

No violations were found during inspections; no enforcement actions were required. As noted in Table C.3.h.iv., during one inspection an inspector removed one piece of trash from a vegetated swale and during another inspection the inspector noted to check sediment level in a hydro-dynamic separator during the next inspection to confirm that the sediment level remains acceptable.

The results from this year, aside from the observed and removed trash discussed above, matched the results from the previous year; all treatment systems were functioning properly, there were no violations, and no enforcement actions were required.

(3) On an annual basis, provide a discussion of the effectiveness of the O&M Program and any proposed changes to improve the O&M Program (e.g., changes in prioritization plan or frequency of O&M inspections, other changes to improve effectiveness program).

Summary:

The O&M Program is currently operating effectively. The City is enhancing the effectiveness of its O&M Program by implementing the following changes:

(a) The City is now using new O&M inspection checklists developed by the Alameda Countywide Clean Water Program.

(b) The City has created a new inspection type in its computerized Permit Tracking System to correspond with C.3-related inspections in order to improve inspection scheduling, tracking, and reporting.

(c) The City is developing a new computerized tracking system for City permits and C.3 inspections are being built into the system to further improve inspection scheduling, tracking, and reporting.

(d) Responsibility for O&M inspections is being transferred from the Planning and Zoning Division to the Inspections section of the Building Services Division. This change will enhance the O&M Program because the inspectors in the Building Services Division have more experience conducting inspections and C.3 inspections can be better coordinated with other constructed-related inspections.

(4) During the reporting year, did your agency:

• Inspect all newly installed stormwater treatment systems and HM controls within 45 days of installation?	X	**Yes**		**No**
• Inspect at least 20 percent of the total number of installed stormwater treatment systems or HM controls?	X	**Yes**		**No**
• Inspect at least 20 percent of the total number of installed vault-based systems?	X	**Yes**		**No**
If you answered "No" to any of the questions above, please explain:				

C.3.b.v.(1) ►Regulated Projects Reporting Table (part 1) – Projects Approved During the Fiscal Year Reporting Period											
Project Name Project No.	**Project Location[9], Street Address**	**Name of Developer**	**Project Phase No.[10]**	**Project Type & Description[11]**	**Project Watershed[12]**	**Total Site Area** (Acres)	**Total Area of Land Disturbed** (Acres)	**Total New Impervious Surface Area** (ft^2)[13]	**Total Replaced Impervious Surface Area** (ft^2)[14]	**Total Pre-Project Impervious Surface Area[15]** (ft^2)	**Total Post-Project Impervious Surface Area[16]** (ft^2)
Private Projects											
Not Applicable											
Public Projects											
Not Applicable											
Comments: **No Regulated Projects were approved during FY 2011-2012.**											

[9] Include cross streets
[10] If a project is being constructed in phases, indicate the phase number and use a separate row entry for each phase. If not, enter "NA".
[11] Project Type is the type of development (i.e., new and/or redevelopment). Example descriptions of development are: 5-story office building, residential with 160 single-family homes with five 4-story buildings to contain 200 condominiums, 100 unit 2-story shopping mall, mixed use retail and residential development (apartments), industrial warehouse.
[12] State the watershed(s) in which the Regulated Project is located. Optional but recommended: Also state the downstream watershed(s).
[13] All impervious surfaces added to any area of the site that was previously existing pervious surface.
[14] All impervious surfaces added to any area of the site that was previously existing impervious surface.
[15] For redevelopment projects, state the pre-project impervious surface area.
[16] For redevelopment projects, state the post-project impervious surface area.

C.3.b.v.(1) ►Regulated Projects Reporting Table (part 2) – Projects Approved During the Fiscal Year Reporting Period										
Project Name Project No.	**Application Deemed Complete Date[17]**	**Application Final Approval Date[17]**	**Source Control Measures[18]**	**Site Design Measures[19]**	**Treatment Systems Approved[20]**	**Operation & Maintenance Responsibility Mechanism[21]**	**Hydraulic Sizing Criteria[22]**	**Alternative Compliance Measures[23/24]**	**Alternative Certification[25]**	**HM Controls[26/27]**
Private Projects										
Not Applicable										
Comments: **No Regulated Projects were approved during FY 2011-2012.**										

[17] For private projects, state project application deemed complete date and final discretionary approval date. If the project did not go through discretionary review, report the building permit issuance date.
[18] List source control measures approved for the project. Examples include: properly designed trash storage areas; storm drain stenciling or signage; efficient landscape irrigation systems; etc.
[19] List site design measures approved for the project. Examples include: minimize impervious surfaces; conserve natural areas, including existing trees or other vegetation, and soils; construct sidewalks, walkways, and/or patios with permeable surfaces, etc.
[20] List all approved stormwater treatment system(s) to be installed onsite or at a joint stormwater treatment facility (e.g., flow through planter, bioretention facility, infiltration basin, etc.).
[21] List the legal mechanism(s) (e.g., O&M agreement with private landowner; O&M agreement with homeowners' association; O&M by public entity, etc…) that have been or will be used to assign responsibility for the maintenance of the post-construction stormwater treatment systems.
[22] See Provision C.3.d.i. "Numeric Sizing Criteria for Stormwater Treatment Systems" for list of hydraulic sizing design criteria. Enter the corresponding provision number of the appropriate criterion (i.e., 1.a., 1.b., 2.a., 2.b., 2.c., or 3).
[23] For Alternative Compliance at an offsite location in accordance with Provision C.3.e.i.(1), on a separate page, give a discussion of the alternative compliance site including the information specified in Provision C.3.b.v.(1)(m)(i) for the offsite project.
[24] For Alternative Compliance by paying in-lieu fees in accordance with Provision C.3.e.i.(2), on a separate page, provide the information specified in Provision C.3.b.v.(1)(m)(ii) for the Regional Project.
[25] Note whether a third party was used to certify the project design complies with Provision C.3.d.
[26] If HM control is not required, state why not.
[27] If HM control is required, state control method used (e.g., method to design and size device(s) or method(s) used to meet the HM Standard, and description of device(s) or method(s) used, such as detention basin(s), biodetention unit(s), regional detention basin, or in-stream control).

C.3.b.v.(1) ►Regulated Projects Reporting Table (part 2) – Projects Approved During the Fiscal Year Reporting Period										
Project Name Project No.	**Approval Date[28]**	**Date Construction Scheduled to Begin**	**Source Control Measures[29]**	**Site Design Measures[30]**	**Treatment Systems Approved[31]**	**Operation & Maintenance Responsibility Mechanism[32]**	**Hydraulic Sizing Criteria[33]**	**Alternative Compliance Measures[34/35]**	**Alternative Certification[36]**	**HM Controls[37/38]**
Public Projects										
Not Applicable										
Comments: **No Regulated Projects were approved during FY 2011-2012.**										

[28] For public projects, enter the plans and specifications approval date.
[29] List source control measures approved for the project. Examples include: properly designed trash storage areas; storm drain stenciling or signage; efficient landscape irrigation systems; etc.
[30] List site design measures approved for the project. Examples include: minimize impervious surfaces; conserve natural areas, including existing trees or other vegetation, and soils; construct sidewalks, walkways, and/or patios with permeable surfaces, etc.
[31] List all approved stormwater treatment system(s) to be installed onsite or at a joint stormwater treatment facility (e.g., flow through planter, bioretention facility, infiltration basin, etc.).
[32] List the legal mechanism(s) (e.g., O&M agreement with private landowner; O&M agreement with homeowners' association; O&M by public entity, etc…) that have been or will be used to assign responsibility for the maintenance of the post-construction stormwater treatment systems.
[33] See Provision C.3.d.i. "Numeric Sizing Criteria for Stormwater Treatment Systems" for list of hydraulic sizing design criteria. Enter the corresponding provision number of the appropriate criterion (i.e., 1.a., 1.b., 2.a., 2.b., 2.c., or 3).
[34] For Alternative Compliance at an offsite location in accordance with Provision C.3.e.i.(1), on a separate page, give a discussion of the alternative compliance site including the information specified in Provision C.3.b.v.(1)(m)(i) for the offsite project.
[35] For Alternative Compliance by paying in-lieu fees in accordance with Provision C.3.e.i.(2), on a separate page, provide the information specified in Provision C.3.b.v.(1)(m)(ii) for the Regional Project.
[36] Note whether a third party was used to certify the project design complies with Provision C.3.d.
[37] If HM control is not required, state why not.
[38] If HM control is required, state control method used (e.g., method to design and size device(s) or method(s) used to meet the HM Standard, and description of device(s) or method(s) used, such as detention basin(s), biodetention unit(s), regional detention basin, or in-stream control).

C.3.h.iv. ►Installed Stormwater Treatment Systems Operation and Maintenance Verification Inspection Program Reporting

Fill in table below or attach your own table including the same information.

Name of Facility/Site Inspected	Address of Facility/Site Inspected	Newly Installed? (YES/NO)[39]	Party Responsible[40] For Maintenance	Date of Inspection	Type of Inspection [41]	Type of Treatment/HM Control(s) Inspected[42]	Inspection Findings or Results[43]	Enforcement Action Taken[44]	Comments/Follow-up
Habitat for Humanity (Edes B)	10800 Edes Avenue	No	Homeowners' association	8/17/11	Routine O&M	Bio-retention area (on-site)	Proper O&M	No violation; no enforcement required.	
Tassafaronga Village (Oakland Housing Authority)	84th Avenue @ G Street	No	Property owner	8/17/11	Routine O&M	Vegetated swales, permeable gutter (on-site)	Proper O&M	No violation; no enforcement required.	
Kaiser Medical Office Building	3701 Broadway	No	Property owner	8/19/11	Routine O&M	Vegetated swales (on-site)	Proper O&M (see comment)	No violation; no enforcement required.	Inspector removed one piece of trash from swale.
Mills College, Graduate School of Business	5000 MacArthur Blvd.	No	Property owner	9/1/11	Routine O&M	Vegetated swales; cistern collection; catchment feature (on-site)	Proper O&M	No violation; no enforcement required.	
1982 Pleasant Valley Ave.	1982 Pleasant Valley Ave.	No	Property owner	5/22/12	Routine O&M	Media filter (on-site)	Proper O&M	No violation; no enforcement required.	
Arcadia Park	98th Ave. @ San Leandro St.	No	Homeowners' association	5/30/12	Routine O&M	Hydro-dynamic separators (2) (on-site)	Proper O&M (see comment)	No violation; no enforcement required.	Inspection coincided with operator's routine inspection; operator's inspector removed trash from units; check sediment level during next inspection.
College Preparatory School	6100 Broad way	Yes	Property Owner	10/19/11	45-day	Underground vault (on-site)	Proper Installation	No violation; no enforcement required.	
Lion's Creek Crossing	6920 Snell St.	Yes	Property Owner	6/26/12	45-day	Flow-through planters; media filters.	Proper Installation	No violation; no enforcement required.	
609 Oak St.	609 Oak St.	Yes	Property Owner	5/29/12	45-day	Vegetated swale; flow-through planters	Proper Installation	No violation; no enforcement required.	

[39] Indicate "YES" if the facility was installed within the reporting period, or "NO" if installed during a previous fiscal year.
[40] State the responsible operator for installed stormwater treatment systems and HM controls.
[41] State the type of inspection (e.g., 45-day, routine or scheduled, follow-up, etc.).
[42] State the type(s) of treatment systems inspected (e.g., bioretention facility, flow-through planter, infiltration basin, etc…) and the type(s) of HM controls inspected, and indicate whether the treatment system is an onsite, joint, or offsite system.
[43] State the inspection findings or results (e.g., proper installation, improper installation, proper O&M, immediate maintenance needed, etc.).
[44] State the enforcement action(s) taken, if any, as appropriate and consistent with your municipality's Enforcement Response Plan.

C.3.e.vi.Special Projects Reporting Table

Reporting Period – December 1, 2011 – June 30, 2012

Project Name & No.	Permittee	Address	Application Submittal Date[45]	Status[46]	Description[47]	Site Total Acreage	Density DU/Acre	Density FAR	Special Project Category[48]	LID Treatment Reduction Credit Available[49]	List of LID Stormwater Treatment Systems[50]	List of Non-LID Stormwater Treatment Systems[51]
High & MacArthur	City of Oakland	4311-4317 MacArthur Boulevard at High Street	12/3/2010	Final discretionary approval pending	Residential new development: five stories; 115 units; ground-floor covered parking garage	0.94 acres	122 du/ac	N/A (Residential project)	Category A N/A Category B Location: Neighborhood business district Density: 122 du/ac Parking: Structured Category C N/A	Category A N/A Category B Density: >100 du/ac = 100% Category C N/A	Flow-through planters (100%)	None (Only LID treatment proposed)
1800 San Pablo Avenue	City of Oakland	1800 San Pablo Avenue	7/13/2011	Final discretionary approval pending	Commercial redevelopment: three stories; 120,000 sq. ft. of floor area; underground parking	1.02 acres	N/A (Commercial project)	2.7 FAR	Category A N/A Category B Location: Central business district Density: 2.7 FAR Parking: Underground Category C Location: Within ¼ mile transit hub; within PDA Density: 2.7 FAR Parking: Underground	Category A N/A Category B Density: >2.0 FAR = 50% Category C Location: Within ¼ mile transit hub = 50% Density: >2.0 FAR = 10% Parking: No surface parking = 20% Total = 80%	Flow-through planters (100%)	None (Only LID treatment proposed)

[45] Date that a planning application for the Special Project was submitted. If a planning application has not been submitted, include a projected application date.
[46] Indicate whether final discretionary approval is still pending or has been granted, and provide the date or version of the project plans upon which reporting is based.
[47] Type of project (commercial, mixed-use, residential), number of floors, number of units, type of parking, and other relevant information.
[48] For each applicable Special Project Category, list the specific criteria applied to determine applicability. For each non-applicable Special Project Category, indicate n/a.
[49] For each applicable Special Project Category, state the maximum total LID Treatment Reduction Credit available. For Category C Special Projects also list the individual Location, Density, and Minimized Surface Parking Credits available.
[50]: List all LID stormwater treatment systems proposed. For each type, indicate the percentage of the total amount of runoff identified in Provision C.3.d. for the Special Project's drainage area.
[51] List all non-LID stormwater treatment systems proposed. For each type of non-LID treatment system, indicate: (1) the percentage of the total amount of runoff identified in Provision C.3.d. for the Special Project's drainage area, and (2) whether the treatment system either meets minimum design criteria published by a government agency or received certification issued by a government agency, and reference the applicable criteria or certification.

Section 4 – Provision C.4 Industrial and Commercial Site Controls

Program Highlights

Provide background information, highlights, trends, etc.

The City's estimated goal for total industrial and Commercial Business Stormwater inspections conducted for FY 2011-2012 was 1,000 inspections. During the FY 2011 - 2012 reporting period, the City exceeded its goals by conducting a total of 1, 028 Industrial and Commercial Inspections.

Small automotive repair facilities continue to be the most prevalent business type commonly in violation of local state and/or federal stormwater regulations. Illegal car painting and car washing operations continue to be on the rise in the City. Some operations which have been successfully closed at one site are, unfortunately, relocated by the same operators to another site location. These operations contribute significantly to stormwater pollution.

The standard procedure followed by the City staff for performing industrial and commercial facility stormwater inspections includes the following:

1. **Review of Storm water Pollution Protection Plan (SWPPP) if applicable**
2. **Review and compare stormwater monitoring results to stormwater benchmarks set forth in the SWPPP**
3. **Evaluate current Best Management Practices (BMPs) in use and determining whether they are appropriate and /or adequate for the facilities operation.**

Recommend/require additional or upgrades to the existing BMPs and provide examples and potential options/upgrades to be implemented.

See Provision C.4. Industrial and Commercial Site Controls section of the Alameda Countywide Clean Water Program (ACCWP) FY 2011-2012 Annual Report for a description of activities of the countywide program and/or the Bay Area Stormwater Management Agencies Association (BASMAA) Municipal Operations Committee.

C.4.b.i. ► Business Inspection Plan

Do you have a Business Inspection Plan?	X	Yes		No

If No, explain:

C.4.b.iii.(1) ► Potential Facilities List

List below or attach your list of industrial and commercial facilities in your Inspection Plan to inspect that could reasonably be considered to cause or contribute to pollution of stormwater runoff.

Please see Attachment C.4-1 for the City of Oakland's Potential Facilities List.

The City's Potential Facilities List will only be provided to the CA Regional Water Quality Control Board (RWQCB) in the electronic submittal due to

the large size of the *Potential Facilities List* (194 pages).

C.4.b.iii.(2) ►Facilities Scheduled for Inspection

List below or attach your list of facilities scheduled for inspection during the current fiscal year.

Please see Attachment C.4-2 for a list of Facilities Scheduled for Inspection during FY 2012-2013.

C.4.c.iii.(1) ►Facility Inspections

Fill out the following table or attach a summary of the following information. Indicate your violation reporting methodology below.

	X	Permittee reports multiple discrete violations on a site as one violation.
		Permittee reports the total number of discrete violations on each site.

	Number	Percent
Number of businesses inspected	1,000	
Total number of inspections conducted	1,028	
Number of violations (excluding verbal warnings)	50	
Sites inspected in violation	50	5%
Violations resolved within 10 working days or otherwise deemed resolved in a longer but still timely manner	49	98%

Comments:

A summary of the violations documented during inspections conducted in FY 2011-2012 that was not resolved with 10 working days or longer is summarized below:

- **Standard Iron and Metals-4525 San Leandro Street, Oakland, CA**

  This facility is an active Notice of Intent (NOI) facility covered by the CA State Water Resource Control Board (SWRCB) Industrial Stormwater General Permit and regulated by the RWQCB. A review of stormwater monitoring analytical results during a 2012 inspection show that results were significantly lower than previous years but were still above benchmarks. Standard Iron and Metals is in the process of installing a stormwater collection system which will completely contain onsite stormwater. The effectiveness of this BMP will be evaluated during the site's annual inspection in FY 2012-2013.

- **Asbestos Management Group of California, 3438 Helen Street, Oakland, CA**

  This company conducts abatement of old buildings which contain asbestos and lead. The potential for stormwater contamination is extremely high due to storage of building material containing lead and asbestos, improper storage of old paint, and Polychlorinated Biphenyl (PCB) containing equipment. This site was requested to prepare a SWPPP and apply for NOI coverage under the SWRCB Industrial General Permit.

C.4.c.iii.(2) ►Frequency and Types/Categories of Violations Observed

Fill out the following table or attach a summary of the following information.

Type/Category of Violations Observed	Number of Violations
Actual discharge (e.g. active non-stormwater discharge or clear evidence of a recent discharge)	0
Potential discharge and other	50
Comments:	

C.4.c.iii.(2) ►Frequency and Type of Enforcement Conducted

Fill out the following table or attach a summary of the following information.

	Enforcement Action (as listed in ERP)[46]	Number of Enforcement Actions Taken	% of Enforcement Actions Taken[47]
Level 1	Written Warnings	50	100%
Level 2	Show Cause Letters	0	0%
Level 3	Administrative Enforcement Order	0	0%
Level 4	City Attorney / County District Attorney	0	0%
Total		50	100%

C.4.c.iii.(3) ►Types of Violations Noted by Business Category

Fill out the following table or attach a summary of the following information.

Business Category[48]	Number of Actual Discharge Violations	Number of Potential/Other Discharge Violations
Animal Care/Boarding	0	0
Auto Gas/Fueling Stations	0	7
Auto Repair and Service	0	10
Automotive Miscellaneous	0	10
Boat/Marinas	0	1

[46] Agencies to list specific enforcement actions as defined in their ERPs.
[47] Percentage calculated as number of each type of enforcement action divided by the total number of enforcement actions.
[48] List your Program's standard business categories.

Construction/Contractor	0	4
Dental Offices	0	0
Dry Cleaners	0	0
Industrial	0	0
Laboratory	0	0
Machine Shop	0	0
Manufacturing	0	2
Miscellaneous	0	7
Mobile Cleaners	0	0
Municipal/Schools	0	0
NOI Facilities	0	3
Other Permits	0	0
Parking Lots, Plazas	0	0
Photo Developing/Processing	0	0
Printing	0	0
Recycling	0	0
Restaurants	0	6
Retail Food Services	0	0
Retail/Wholesale	0	0
Transportation/Corporation Yards	0	0
Utility	0	0
Waste Related	0	0

C.4.c.iii.(4) ►Non-Filers

List below or attach a list of the facilities required to have coverage under the Industrial General Permit but have not filed for coverage:

- **Asbestos Management Group of California, 3438 Helen Street, Oakland, CA**

C.4.d.iii ►Staff Training Summary

Training Name	Training Dates	Topics Covered	No. of Inspectors in Attendance	Percent of Inspectors in Attendance
ACCWP Industrial and Illicit Discharge Committee (IIDC) Annual Inspector Workshop	Scheduled for October 11, 2012 ACCWP conducts its Annual Training Workshop on an Annual Calendar Basis	Participants will receive updates on: • Revised California Stormwater Quality Association (CASQA) Industrial BMPs Handbook • New Statewide Industrial General Permit Illicit Discharge Follow-up Procedures • Pollutants of Concern	Not Available	Not Available
Inspecting Industrial / Commercial Facilities for Pollutants of Concern (POCs) Copper (Cu), Mercury (Hg), and PCBs	Required Power-Point Self Training module/session to be completed by inspection staff annually	Inspection Tools for POCs Cu, Hg, and PCBs) encountered when conducting industrial / commercial business stormwater inspections.	4	100%

Section 5 – Provision C.5 Illicit Discharge Detection and Elimination

Program Highlights

Provide background information, highlights, trends, etc.

Illicit Discharge staff performs inspections and enforcement for incidents identified by complaints and field identified issues. Resources such as aerial maps, sewer sheets, and Geographic Information System (GIS) are readily available, and enable staff to quickly and accurately locate the source of the illicit discharge.

City staff in the Public Works Agency (PWA) – Drainage Maintenance conducts inspection, monitoring, and maintenance of the storm collection system. The City also conducts inspections of survey/screening point locations (creeks and flood control channels) to enhance the storm collection system screening program. City staff participate in the Industrial and Illicit Discharge Control Subcommittee (I&IDC) and the Municipal Maintenance Subcommittee and associated work groups of the Alameda Countywide Clean Water Program (ACCWP).

In addition, see Provision C.5 Illicit Discharge Detection and Elimination section of the ACCWP FY 2011-2012 Annual Report for a description of activities at the countywide or regional level.

C.5.c.iii ►Complaint and Spill Response Phone Number and Spill Contact List

List below or attach your complaint and spill response phone number and spill contact list.

Contact	Description	Phone Number
Oakland Fire Department – Hazardous Materials	Hazardous Materials Spill/Release	(510) 444-3322 or "911"
Public Works Agency Hotline	Illicit Discharges	(510) 615-5566

C.5.d.iii ►Evaluation of Mobile Business Program

Describe implementation of minimum standards and BMPs for mobile businesses and your enforcement strategy. This may include participation in the BASMAA Mobile Surface Cleaners regional program or local activities.

Description:

The City continues to conduct enforcement for mobile businesses in the manner described in the past. Typically, the City conducts enforcement against the property owner where the mobile business is working, and enforcement actions are directed to the property owner which is commonly passed on to the Contractor. Additionally, the City has the authority to issue enforcement actions against mobile businesses and may work with the County District Attorney's Office, the City Attorney's Office or the City's Business Tax department to obtain compliance. Stormwater violations that are observed during inspections caused by mobile business are immediately addressed with the Contractor. City staff provides mobile business operators with the Bay Area Stormwater Management Agencies Association (BASMAA) Mobile Surface Cleaner Program and ACCWP Best Management Practices (BMPs) when applicable.

The City continues to implement the enforcement protocols developed in recent years by the I&IDC of the ACCWP to obtain compliance with the mobile food vendors. These protocols include working in collaboration with the Alameda County Department of Environmental Health (ACDEH), who has jurisdiction over mobile food vendors in Alameda County, to obtain stormwater compliance. As part of the mobile food vendor permitting with the ACDEH, mobile food vendors receive BMPs and information on stormwater regulations, and agree to comply with local, state, and federal stormwater regulations in the process of acquiring their permit to operate within Alameda County from the ACDEH.

See Provision C.5 Illicit Discharge Detection and Elimination section of the ACCWP FY 2011-2012 Annual Report for a description of efforts by countywide committees/work group and the BASMAA Municipal Operations Committee to address mobile businesses.

C.5.e.iii ►Evaluation of Collection System Screening Program

Provide a summary or attach a summary of your collection screening program, a summary of problems found during collection system screening and any changes to the screening program this FY.

Description:

City of Oakland continues to maintain a variety of stormwater infrastructure (including weirs, storm drain inlets, culvert and storm pipe, manholes, "V" ditches, pump stations, and continuous deflective separation (CDS) trash collection units) on a routine basis. The main function of the stormwater infrastructure is to convey stormwater to enhance drainage and prevent flooding, but it an indirect function of the City's stormwater infrastructure includes the improvement of water quality by collecting and removing trash, organic material, and other types of debris from nearby waterbodies (creeks, estuary and lakes), storm drain infrastructure, Lake Merritt, and the San Francisco Bay.

The City's storm drain infrastructure maintenance goals and accomplishments for FY 2011-2012 are listed below.

Task	Goal	Accomplishment
Maintain/Service Storm Drain Inlets	7,578 Storm Drain Inlets (Annually)	11,969 Storm Drain Inlets
Inspect/Service Pump Stations	3 Pump Stations (Bi-Weekly)	Pump Stations were Inspected/Serviced 79 times throughout FY 2011-2012
Inspect/Maintain/Service Stormwater Infrastructure	500 Stormwater Structures	533 Stormwater Structures

C.5.f.iii.(1), (2), (3) ►Spill and Discharge Complaint Tracking

Spill and Discharge Complaint Tracking (fill out the following table or include an attachment of the following information)

	Number	Percentage
Discharges reported (C.5.f.iii.(1))	83	
Discharges reaching storm drains and/or receiving waters (C.5.f.iii.(2))	61	73%
Discharges resolved in a timely manner (C.5.f.iii.(3))	82	98%
Comments:		

Reported illicit discharges are received through the City's PWA Hotline Call Center, and distributed to the appropriate department(s) through a reporting/tracking/referral database called City Works. Response from individual or multiple City departments may include, but are not limited to PWA Watershed and Stormwater Management, PWA Storm Drain Maintenance, Planning, Building, and Neighborhood Services (PBNS) Code Enforcement, PBNS Construction Inspection, and the Oakland Fire Department – Fire Prevention Bureau (OFD-FPB) staff. Additionally, City staff worked with local agencies and utility companies (such as the East Bay Municipal Utility District [EBMUD], the East Bay Regional Parks District [EBRPD], and the Alameda County Flood Control District [ACFCD]) to maximize efficiency, streamline efforts, and work together as a cohesive group to increase response and reduce the time for obtaining compliance.

During FY 2011-2012, 83 illicit discharges were reported to the City. Of the 83 reported illicit discharge cases, 61 (or 73%) of the reported cases reached the City Storm Drain System or nearby receiving waters. 75 of the 83 cases were resolved within 10 working days or otherwise deemed resolved in a longer but still timely manner.

The illicit discharges listed above do not include Hazardous Materials responses conducted the Oakland Fire Department (OFD) Hazardous Materials (Haz Mat) Response Teams or Sanitary Sewer Overflow (SSO) responses conducted by PWA Sanitary Sewer Maintenance. During FY 2011-2012, OFD-Haz Mat Response Teams responded to 539 hazardous materials complaint calls. Of the 539 hazardous materials complaint calls received by OFD – Haz Mat, the majority of the complaint calls involved hazardous materials (such as paint and automotive fluids) that were illegally dumped in various locations around the City. Of the 539 hazardous materials complaint calls received by OFD – Haz Mat Response Teams, 59 number of the cases were leaking containers and/or chemical spills resulting in an illicit discharge that required additional attention and/or abatement.

The OFD-Haz Mat operates under standard operating procedures (SOP) that indicates that staff responds to reported discharges within 24-48 hours from the time the incident is reported. Response to reported discharges are prioritized by the type / volume of material discharged and the location of the discharge (e.g. discharges close to highly sensitive areas). Discharges to storm drains and/or receiving waters are prioritized as a top priority for immediate response.

C.5.f.iii.(4) ►Summary of major types of discharges and complaints

Provide a narrative or attach a table and/or graph.

The major types of complaints and reported illicit discharges in the City of Oakland during FY 2011-2012 consists of automotive industry and construction industry related (paint, concrete, and sediment) discharges.

In addition to the prevalent types of discharges and complaints listed above, the City obtains numerous incident and complaint calls regarding illegal dumping of hazardous materials (commonly discarded left over paint and automotive fluids). Complaint calls for illegal dumping of hazardous materials are fielded and handled by the OFD and through a hazardous materials disposal Contractor. Most of these cases involving illegal dumping of hazardous materials result in the pickup and disposal of contained hazardous materials. On occasion, these containers are turned over and spilled into the street gutter and storm drains. OFD Haz Mat responds to these illicit discharges and abates the situation by applying absorbent to the spilled material.

Section 6 – Provision C.6 Construction Site Controls

C.6.e.iii.1.a, b, c ►Site/Inspection Totals		
Number of sites disturbing < 1 acre of soil requiring storm water runoff quality inspection (i.e. High Priority) (C.6.e.iii.1.a)	**Number of sites disturbing ≥ 1 acre of soil** (C.6.e.iii.1.b)	**Total number of storm water runoff quality inspections conducted** (C.6.e.iii.1.c)
2	**4**	**99**
Comments: **See Attachment C.6-1 for Summary of Construction Site Control Inspections - Public Projects – FY 2011-2012: Capital Improvement Projects for the City of Oakland are inspected on a regular basis by staff. These daily or periodic inspections also include observations related to storm water runoff issues, as appropriate.**		

C.6.e.iii.1.d ►Construction Activities Storm Water Violations

BMP Category	Number of Violations[49]	% of Total Violations[50]
Erosion Control	2	9%
Run-on and Run-off Control	0	0%
Sediment Control	2	9%
Active Treatment Systems	0	0%
Good Site Management	18	82%
Non Stormwater Management	0	0%
Total	22	100%

C.6.e.iii.1.e ►Construction Related Storm Water Enforcement Actions

	Enforcement Action (as listed in ERP)[51]	Number Enforcement Actions Taken	% Enforcement Actions Taken[52]
Level 1	Field Order	11	58%
Level 2	Notice of Non-Compliance	8	42%
Level 3	Withhold Payment / Penalties	0	0%
Level 4	Termination of Contract	0	0%
Total		19	100%

C.6.e.iii.1.f, g ►Illicit Discharges

	Number
Number of illicit discharges, actual and those inferred through evidence (C.6.e.iii.1.f)	1
Number of sites with discharges, actual and those inferred through evidence (C.6.e.iii.1.g)	1

[49] Count one violation in a category for each site and inspection regardless of how many violations/problems occurred in the BMP category.
[50] Percentage calculated as number of violations in each category divided by total number of violations in all six categories.
[51] Agencies should list the specific enforcement actions as defined in their ERPs.
[52] Percentage calculated as number of each type of enforcement action divided by the total number of enforcement actions.

C.6.e.iii.1.h, i ►Violation Correction Times

	Number	Percent
Violations fully corrected within 10 business days after violations are discovered or otherwise considered corrected in a timely period (C.6.e.iii.1.h)	21	95%[53]
Violations not fully corrected within 30 days after violations are discovered (C.6.e.iii.1.i)	1	5%[54]
Total number of violations for the reporting year[55]	22	100%

Comments:

City construction managers and/or resident engineers are on site daily for all public projects. The City monitors compliance then immediately notifies the general contractor of a violation. The City's General Contractor's have a contractual obligation to resolve issues within a short timeframe.

The total number of violations does not match the total number of enforcement actions because for some inspections, there were violations in more than one BMP Category, but only one enforcement action was taken for multiple violations at one inspection.

See Attachment C.6-1 for Summary of Construction Site Control Inspections - Public Projects – FY 2011-2012.

C.6.e.iii.(2) ►Evaluation of Inspection Data

Describe your evaluation of the tracking data and data summaries and provide information on the evaluation results (e.g., data trends, typical BMP performance issues, comparisons to previous years, etc.).

Description:

City of Oakland staff performs daily inspections on Capital Improvement projects that include stormwater management related issues and construction site controls. Appropriate stormwater consultants are also periodically utilized to evaluate and oversee the Stormwater Pollution Prevention Plan (SWPPP) and construction site controls, and make recommendations for construction site controls and Best Management Practices (BMPs) improvements for large or sensitive projects.

The most common violations are related to good site management and maintaining site measures. These violations, with the daily staff presence, are typically quickly addressed.

The total number of violations does not match the total number of enforcement actions because for some inspections, there were violations in more than one BMP Category, but only one enforcement action was taken for multiple violations at one inspection.

[53] Calculated as number of violations fully corrected in a timely period after the violations are discovered divided by the total number of violations for the reporting year.
[54] Calculated as number of violations not fully corrected within 30 days after the violations are discovered divided by the total number of violations for the reporting year.
[55] Total number of violations equals the number of initial enforcement actions (i.e. one violation issued for several problems during an inspection at a site). It does not equal the total number of enforcement actions because one violation issued at a site may have a second enforcement action for the same violation at the next inspection if it is not corrected.

See Attachment C.6-1 for Summary of Construction Site Control Inspections - Public Projects – FY 2011-2012.

C.6.e.iii.(2) ►Evaluation of Inspection Program Effectiveness

Describe what appear to be your program's strengths and weaknesses, and identify needed improvements, including education and outreach.

Description:

The use of consultants to perform the required periodic inspections on large or sensitive area projects provides the City's resident engineer staff additional field training/learning opportunities. The City is working to improve communication between consultants, resident engineers, construction managers, and general contractors in order to more promptly and consistently implement stormwater protection measures on capital projects so that violations will be addressed.

C.6.e.iii.1.a, b, c ►Site/Inspection Totals		
Number of sites disturbing < 1 acre of soil requiring storm water runoff quality inspection (i.e. High Priority) (C.6.e.iii.1.a)	**Number of sites disturbing ≥ 1 acre of soil** (C.6.e.iii.1.b)	**Total number of storm water runoff quality inspections conducted** (C.6.e.iii.1.c)
1	**8**	**79**

Comments:

- **There were fewer sites and inspections conducted in FY 2011-2012 due to:**
  1. **a downturn in the economy resulting in a reduction in development/redevelopment**
  2. **an adjustment in reporting methodology was made for this Annual Report as requested by the CA Regional Water Quality Control Board (RWQCB) to consolidate to one site for multiple addresses and permits.**
- **City of Oakland Building Services Inspection staff conducted inspections on a regular basis on privately funded public infrastructure and grading permits. '**

See Attachment C.6-2 for Summary of Construction Site Control Inspections - Private Projects – FY 2011-2012.

C.6.e.iii.1.d ►Construction Activities Storm Water Violations

BMP Category	Number of Violations[56]	% of Total Violations[57]
Erosion Control	2	9.5%
Run-on and Run-off Control	1	5%
Sediment Control	7	38%
Active Treatment Systems	2	9.5%
Good Site Management	7	33%
Non Stormwater Management	1	5%
Total	20	100%

C.6.e.iii.1.e ►Construction Related Storm Water Enforcement Actions

	Enforcement Action (as listed in ERP)[58]	Number Enforcement Actions Taken	% Enforcement Actions Taken[59]
Level 1	Verbal Notice	8	80%
Level 2	Notice to Abate / Correction Notice	2	20%
Level 3	Stop Work Order	0	0%
Level 4	Legal Action	0	0%
Total		10	100%

C.6.e.iii.1.f, g ►Illicit Discharges

	Number
Number of illicit discharges, actual and those inferred through evidence (C.6.e.iii.1.f)	1
Number of sites with discharges, actual and those inferred through evidence (C.6.e.iii.1.g)	1

[56] Count one violation in a category for each site and inspection regardless of how many violations/problems occurred in the BMP category.
[57] Percentage calculated as number of violations in each category divided by total number of violations in all six categories.
[58] Agencies should list the specific enforcement actions as defined in their ERPs.
[59] Percentage calculated as number of each type of enforcement action divided by the total number of enforcement actions.

C.6.e.iii.1.h, i ►Violation Correction Times

	Number	Percent
Violations fully corrected within 10 business days after violations are discovered or otherwise considered corrected in a timely period (C.6.e.iii.1.h)	**21**	**100%**[60]
Violations not fully corrected within 30 days after violations are discovered (C.6.e.iii.1.i)	**0**	**0%**[61]
Total number of violations for the reporting year[62]	**21**	**100%**

Comments:

As reflected on the Summary of Construction Site Control Inspections attachment, most of the violations observed were corrected within the same day. Many of the corrections were made while the inspector was on site or upon his return at the end of the same day.

The total number of violations does not match the total number of enforcement actions because for some inspections, there were violations in more than one BMP Category, but only one enforcement action was taken for multiple violations at one inspection.

See Attachment C.6-2 for Summary of Construction Site Control Inspections - Private Projects – FY 2011-2012.

C.6.e.iii.(2) ►Evaluation of Inspection Data

Describe your evaluation of the tracking data and data summaries and provide information on the evaluation results (e.g., data trends, typical BMP performance issues, comparisons to previous years, etc.).

Description:

The City has noticed a significant improvement on sites with State Water Resource Control (SWRCB) General Construction Permits (CGPs). These sites have a dedicated staff or a third party Qualified SWPPP Designers (QSD) and Qualified SWPPP Practitioners (QSP).

Most of the violations are addressed within the same day, and Contractors are held accountable for knowing stormwater regulations, understanding BMP requirements, and implementing the applicable resolution in a quick and timely manner.

The total number of violations does not match the total number of enforcement actions because for some inspections, there were violations in more than one BMP Category, but only one enforcement action was taken for multiple violations at one inspection.

See Attachment C.6-2 for Summary of Construction Site Control Inspections - Private Projects – FY 2011-2012.

[60] Calculated as number of violations fully corrected in a timely period after the violations are discovered divided by the total number of violations for the reporting year.
[61] Calculated as number of violations not fully corrected within 30 days after the violations are discovered divided by the total number of violations for the reporting year.
[62] Total number of violations equals the number of initial enforcement actions (i.e. one violation issued for several problems during an inspection at a site). It does not equal the total number of enforcement actions because one violation issued at a site may have a second enforcement action for the same violation at the next inspection if it is not corrected.

C.6.e.iii.(2) ►Evaluation of Inspection Program Effectiveness

Describe what appear to be your program's strengths and weaknesses, and identify needed improvements, including education and outreach.

Description:

- **The City's Building Services staff are currently working with the City's Building Official, Inspections Manager and Information Technology staff in an effort to develop a more comprehensive plan for scheduling C.6 inspections.**
- **The City's Building Services Division is currently developing a new permit tracking system. The new permit tracking system (scheduled to be online within the next 18 months) will have greater depth and granular programming capabilities. To date, City staff has dedicated hundreds of hours into developing and fine tuning the new permit tracking system to assure that C.6 inspections are automatically scheduled and tracked.**

C.6.f ►Staff Training Summary

Training Name	Training Date(s)	Topics Covered	No. of Inspectors in Attendance	Percent of Inspectors in Attendance
City of Oakland Stormwater Construction Inspection Training	February 15, 2012	• Overview of non-point source pollution and the use of Stormwater Plans and BMPs • Overview of the new SWRCB CGP requirements • Overview of basic stormwater requirements to help construction inspectors meet the RWQCB's Municipal Regional Permit Requirements for Stormwater. • Tools to plan and conduct inspections • Overseeing implementation of a SWPPP and what to look for in the field.	23	77%

Section 7 – Provision C.7. Public Information and Outreach

C.7.b.ii.1 ►Advertising Campaign

Summarize advertising efforts. Include details such as messages, creative developed, and outreach media used. The detailed advertising report may be included as an attachment. If advertising is being done by participation in a countywide or regional program, refer to the separate countywide or regional Annual Report.

Summary:

See the Bay Area Stormwater Management Agencies Association (BASMAA) Youth Litter Campaign Report for a summary of litter-related advertising campaign activities.

See Provision C.7 Public Outreach and Participation section of the Alameda Countywide Clean Water Program (ACCWP) FY 2011-2012 Annual Report for a summary of pesticide-related advertising campaign activities.

C.7.b.iii.1 ►Pre-Campaign Survey

(For the Annual Report following the pre-campaign survey) Summarize survey information such as sample size, type of survey (telephone survey, interviews etc.). Attach a survey report that includes the following information. If survey was done regionally, refer to a regional submittal that contains the fo**llowing information:**

The following separate report developed by BASMAA summarizes the pre-campaign survey conducted in FY 2011-2012:

• **See BASMAA Youth Litter Campaign Report**

Place an **X** in the appropriate box below:

	Survey report attached
X	Reference to regional submittal:

C.7.c ►Media Relations

Summarize the media relations effort. Include the following details for each media pitch in the space below, AND/OR refer to a regional report that includes these details:

- Topic and content of pitch
- Medium (TV, radio, print, online)
- Date of publication/broadcast

Summary:

See the BASMAA Media Relations Final Report FY 2011-2012 for a summary of media-relations efforts conducted during FY 2011-2012. This report and any other media relations efforts conducted countywide is included in Provision C.7 Public Information and Outreach section of the ACCWP FY 2011-2012 Annual Report.

C.7.d ►Stormwater Point of Contact

No change was made

C.7.e ►Public Outreach Events

Describe general approach to event selection. Provide a list of outreach materials and giveaways distributed.
Use the following table for reporting and evaluating public outreach events

Event Details	Description (messages, audience)	Evaluation of Effectiveness
ACCWP exhibit at the Alameda County Fair (countywide event) See the ACCWP FY 2011-2012 Annual Report	See the ACCWP FY 2011-2012 Annual Report.	See the ACCWP FY 2011-2012 Annual Report.
ACCWP exhibit at the Alameda County Fair; Oakland staff shift	Event type: County Fair Audience: primarily Alameda County residents Outreach Message: promoting the reduction of pesticide use, choosing less-toxic products for pest-control needs, and the impacts of pesticides on creeks, water quality, and creek life. This year the booth added an interactive scavenger hunt game, a new storm drain model, and new stormwater pollution prevention materials.	Attendance: 534,577 over course of fair Booth Visitors: Approximately 70 during 4 hour shift. Giveaways/literature distributed: Approximately 150.
National Night Out, 7/21/2011; 500 neighborhood locations throughout Oakland	Event Type: neighborhood building parties Audience: Oakland residents Outreach Message: stormwater/pollution prevention awareness and watershed volunteerism materials distributed	Attendance: 6,000 Giveaways/literature distributed: 2,500
Art & Soul Festival, 8/20/2011, 8/21/2011; downtown Oakland	Event Type: art & music festival Audience: Primarily Oakland residents Outreach Message: alternatives to pesticides, native plants, stormwater pollution prevention awareness, Oakland's rain barrel program, stormwater detention, and watershed volunteerism materials	Attendance: 12,000 Booth Visitors: 4,000 Giveaways/literature distributed: 1,200

	distributed; watershed awareness quiz game	
Oakland Earth Day, 4/21/2012; 100 locations throughout Oakland	Event type: environmental volunteer event Audience: Oakland residents Outreach Message: pesticide alternative, native plant, stormwater awareness, rain barrel and rain garden materials distributed	Attendance: 2,800 Giveaways/literature distributed: 500 & 3 tri-fold educational displays at larger sites
National Public Works Week, May 20-25, 2012	Event type: week-long recognition event Audience: City employees &Oakland residents Outreach Message: pesticide alternative, native plants, stormwater/pollution prevention awareness & watershed volunteerism materials distributed. Special display on Oakland "Watershed Markers" art project raising awareness of locations of Oakland's buried creeks and the impacts on stormwater.	Attendance: unknown (open displays with table of materials in City facilities including City Hall, 250 Frank Ogawa Plaza, and Planning and Zoning lobby) Giveaways/literature distributed: 200 & 2 tri-fold educational displays at larger sites

C.7.f. ►Watershed Stewardship Collaborative Efforts

Summarize watershed stewardship collaborative efforts and/or refer to a regional report that provides details. Describe the level of effort and support given (e.g., funding only, active participation etc.). State efforts undertaken and the results of these efforts. If this activity is done regionally refer to a regional report.

Summary:

Program Efforts

- **See Provision C.7 Public Information and Outreach section of the ACCWP FY 2011-2012 Annual Report for a summary of the *Bringing Back the Natives* and the *Bay Friendly* garden tours.**

Local Efforts

- **Oakland hosted a meeting of the Alameda County Watershed Forum on November 9, 2011 at the Joaquin Miller Park Community Center. The event brought together local native plant experts, agencies, and watershed stewardship groups for a roundtable discussion of raising local natives for restoration projects, and provided a tour of the Friends of Sausal Creek Native Plant Nursery in Joaquin Miller Park. The Friends of Sausal Creek (FOSC) nursery is supported by the City of Oakland.**
- **Provided support to the restoration, watershed and stormwater protection, and native plant nursery efforts of the FOSC.**
- **Facilitated bi-monthly Lake Merritt Water Quality Technical Committee to develop and implement programs and capital projects to improve Lake Merritt water quality. In addition to City staff, participants include the Lake Merritt Institute, Alameda County, and Regional**

Water Quality Control Board staff.

- **Participated in the BASMAA Clean Water for a Clean Bay (CW4CB) Project Management Team to develop projects to address pesticides in waterways.**
- **Conducted 3 community stormwater workshops teaching participants how to use rain barrels and rain gardens to detain stormwater and improve water quality.**
- **Implemented discounted Rain Barrel sales program for Oakland residents. Funded through an American Reinvestment and Recovery Act (ARRA) grant, the City subsidized the sale of 935 rain barrels to residents in FY 2011-2012, resulting in the detention of up to 153,495 gallons (20,519 cubic feet) of stormwater runoff per storm event.**

C.7.g. ►Citizen Involvement Events

List the types of events conducted (e.g., creek clean up, storm drain inlet marking, native gardening etc.). Use the following table for reporting and evaluating citizen involvement events.

Event Details	Description	Evaluation of effectiveness
Community Stewardship Grants Program	**See Provision C.7 the Public Information and Outreach section of the ACCWP FY 2011-2012 Annual Report for a summary of Community Stewardship Grants events.** **Oakland staff conducted outreach to encourage Oakland-based groups to apply for the grants. Of the 5 grants awarded for FY 2011-2012, 4 of them were for projects and programs taking place in Oakland.**	**See Provision C.7 Public Information and Outreach section of the ACCWP FY 2011-2012 Annual Report for a summary of Community Stewardship Grants events**
Community Clean Up and Restoration Events	**Oakland hosted and supported a total of 993 Community Cleanup and Restoration, Citizen Involvement Events during FY 2011-2012. The events were attended by a total of 23,048 participants and resulted in 73,507 hours of volunteer cleanup, restoration, and beautification activities at creeks, parks, and public lands throughout Oakland. See Attachment C.7-1 for details.**	**See Attachment C.7-1 for Citizen Involvement Events – FY 2011-2012.**

C.7.h. ►School-Age Children Outreach

Summarize school-age children outreach programs implemented. A detailed report may be included as an attachment.
Use the following table for reporting school-age children outreach efforts.

Program Details	Focus & Short Description	Number of Students/Teachers reached	Evaluation of Effectiveness
See Provision C.7 Public Information and Outreach section of the ACCWP FY 2011-2012 Annual Report for a summary of the School-Age Children Outreach	See Provision C.7 Public Information and Outreach section of the ACCWP FY 2011-2012 Annual Report for a summary of the School-Age Children Outreach	See Provision C.7 Public Information and Outreach section of the ACCWP FY 2011-2012 Annual Report for a summary of the School-Age Children Outreach	See Provision C.7 Public Information and Outreach section of the ACCWP FY 2011-2012 Annual Report for a summary of the School-Age Children Outreach
Watershed Awareness Presentations	Programs supported by the City of Oakland offered 19 Watershed Awareness Presentations to K-12 aged youth and college students between July 1, 2011 – June 30, 2012. See Attachment C.7-2 for list of School-Aged Outreach detail.	680 students and teachers were reached through the school –aged outreach.	See Attachment C.7-2 for list of School-Aged Outreach in FY 2011/2012.

Section 8 - Provision C.8 Water Quality Monitoring

C.8 ►Water Quality Monitoring

State below if information is reported in a separate regional report. Municipalities can also describe below any Water Quality Monitoring activities in which they participate directly, e.g. participation in RMP workgroups, fieldwork within their jurisdictions, etc.

Summary

During FY 2011-2012, the City contributed through the Alameda Countywide Clean Water Program (ACCWP) to the Bay Area Stormwater Management Agencies Association (BASMAA) Regional Monitoring Coalition (RMC). In addition, the City contributed financially to the Regional Monitoring Program for Water Quality in the San Francisco Estuary (RMP) and was represented at RMP committees and work groups. For additional information on monitoring activities conducted by the ACCWP, BASMAA RMC and the RMP, see Provision C.8 Water Quality Monitoring section of the ACCWP FY 2011-2012 Annual Report.

Section 9 – Provision C.9 Pesticides Toxicity Controls

C.9.b ►Implement IPM Policy or Ordinance

Report implementation of IPM BMPs by showing trends in quantities and types of pesticides used, and suggest reasons for increases in use of pesticides that threaten water quality, specifically organophosphates, pyrethroids, carbaryl, and fipronil. A separate report can be attached as evidence of your implementation.

Trends in Quantities and Types of Pesticides Used[63]

Pesticide Category and Specific Pesticide Used	Amount[64]				
	FY 09-10	FY 10-11	FY 11-12	FY 12-13	FY 13-14
Organophosphates	0	0	0		
Pyrethroids	0	0	0		
Carbaryl	0	0	0		
Fipronil	0	0	0		

C.9.c ►Train Municipal Employees

Enter the number of employees that applied or used pesticides (including herbicides) within the scope of their duties this reporting year.	44
Enter the number of these employees who received training on your IPM policy and IPM standard operating procedures within the last 3 years.	44
Enter the percentage of municipal employees who apply pesticides who have received training in the IPM policy and IPM standard operating procedures within the last three years.	100%

C.9.d ►Require Contractors to Implement IPM

Did your municipality contract with any pesticide service provider in the reporting year?		Yes	X	No

If yes, attach one of the following:

- [ ] Contract specifications that require adherence to your IPM policy and standard operating procedures, OR
- [ ] Copy(ies) of the contractors' IPM certification(s) or equivalent, OR
- [ ] Equivalent documentation.

If **Not attached**, explain:

[63] Includes all municipal structural and landscape pesticide usage by employees and contractors.
[64] Weight or volume of the product or preferably its active ingredient, using same units for the product each year.

C.9.e ►Track and Participate in Relevant Regulatory Processes

Summarize participation efforts, information submitted, and how regulatory actions were affected **OR** reference a regional report that summarizes regional participation efforts, information submitted, and how regulatory actions were affected.

Summary:

During FY 2011-2012, the City participated in regulatory processes related to pesticides through contributions to the Alameda Countywide Clean Water Program (ACCWP), Bay Area Stormwater Management Agencies Association (BASMAA) and the California Stormwater Quality Association (CASQA). For additional information, see the Regional Pollutants of Concern Report submitted by BASMAA on behalf of all Municipal Regional Permit (MRP) Permittees.

C.9.f ►Interface with County Agricultural Commissioners

Did your municipal staff observe any improper pesticide usage or evidence of improper usage (e.g., pesticides in storm drain systems, along street curbs, or in receiving waters) during this fiscal year?	X	**Yes**		**No**

If yes, provide a summary of improper pesticide usage reported to the County Agricultural Commissioner and follow-up actions taken to correct any violations. A separate report can be attached as your summary.

City of Oakland pesticide application staff and application protocols are inspected by County Agricultural Commissioner's at a minimum of one inspection per year. Inspections are conducted on a routine and on a random / "surprise" basis.

An inspection was conducted on March 28, 2012

No spills or improper pesticide applications were reported during FY 2011-2012.

See Provision C.9 Pesticide Toxicity Control section of the ACCWP FY 2011-2012 Annual Report for a summary of the Program's outreach to the Alameda County Agricultural Commission.

C.9.h.ii ►Public Outreach: Point of Purchase

Provide a summary of public outreach at point of purchase, and any measurable awareness and behavior changes resulting from outreach (here or in a separate report); **OR** reference a report of a regional effort for public outreach in which your agency participates.

Summary:

See Provision C.9 Pesticides Toxicity Control section of the ACCWP FY 2011-2012 Annual Report for information on point of purchase public outreach conducted countywide and regionally.

Additionally, Oakland conducted targeted outreach encouraging less-toxic pest control and distributing outreach materials promoting this message at several events throughout the year. See Provision C.7e Public Outreach Events section of this annual report for details.

C.9.h.vi ►Public Outreach: Pest Control Operators

Provide a summary of public outreach to pest control operators and landscapers and reduced pesticide use (here or in a separate report); **OR** reference a report of a regional effort for outreach to pest control operators and landscapers in which your agency participates.

Summary:

See Provision C.9 Pesticides Toxicity Control section of ACCWP FY 2011-2012 Annual Report for a summary of the City's participation in and contributions towards countywide and regional public outreach to pest control operators and landscapers to reduce pesticide use.

Response to Water Board Staff Comments on Section 9, Provision C.9, of FY 10-11 Annual Report

Not Applicable

Section 10 - Provision C.10 Trash Load Reduction

C.10.a.i ►Short-Term Trash Loading Reduction Plan

(For FY 10-11 Annual Report only) Provide description of actions/tasks initiated/conducted/completed in developing a Short-Term Trash Loading Reduction Plan (due February 1, 2012).

Description*:*

Oakland submitted its Short –Term Trash Loading Reduction Plan to the Water Board on February 1, 2012. The specific activities from the Plan that Oakland committed to implementing this year are described in Section C.10, below. Additionally, countywide and regional activities that have been conducted on behalf of co-permittees are identified below or referenced.

Oakland intends to update its Short-Term Trash Loading Reduction Plan to incorporate new activities and minor load calculation changes. The revised draft plan will be submitted in FY 2012/13. The proposed changes to Oakland's plan include the following:

1. **Street Sweeping: a) undertake a route effectiveness analysis to ensure that the route collects maximum amount of litter; b) modify performance plans of the drivers to include measurement of the speed of the sweeper; c) Provide a one-time assessment of street sweeping collection amount to verify proposed load reduction from this activity.**
2. **Outreach and Education: a) Clarify efforts in Oakland provided through the community stewardship grants; b) Develop a behavior change questionnaire for pre- and post- school educational events; c) add litter topic to interpretive signage in high litter areas; d)Include discussion of recent EPA grant to promote litter reduction in food vendors.**
3. **Bag Ban: a) Clarify the elements of the intended enforcement approach for Bag Ban.**
4. **Full Capture Units: a) Modify load reduction amounts to remove 100% of litter in these full capture watersheds; b) Correct discussion of full –capture units to include additional Contech Hydrodynamic Separator Units (CDS) units in Lake Merritt watershed, full capture screens at various inlets in City and proposed installation of a trash net in the Glen Echo outfall to Lake Merritt.**
5. **Polystyrene Ban: a) Modify load reduction amount to 0.5% to reflect that Oakland's City-sponsored events are proportionally not as large as other cities; b) Provide more education and outreach for the ban including reporting hotline for non-compliant businesses.**
6. **Shoreline and On-Land Clean-up: a) Explain and clarify how the volunteer hours for each clean-up event are documented and tabulated.**

Please Note: Any corrections or additional information that has become available after the submittal of the February 2012 Short Term Trash Loading Reduction Plan will be discussed in this Annual Report. Proposed changes that have not yet been made are not included below.

C.10.a.ii ►Baseline Trash Load and Trash Load Reduction Tracking Method

(For FY 10-11 Annual Report only) Provide description of actions/tasks initiated/conducted/completed to gather trash loading data and in developing a Baseline Trash Load and Trash Load Reduction Tracking Method (due February 1, 2012).

Description:

Oakland's trash loading data is based on the *Baseline Trash Load and Trash Load Reduction Tracking Method* prepared for BASMAA by EOA, Inc. This methodology was submitted to the Water Board on February 1, 2012.

C.10.a.iii ►Minimum Full Trash Capture

(For FY 10-11 Annual Report and Each Annual Report Thereafter) Provide description of actions/tasks initiated/conducted/completed in implementing Minimum Full Trash Capture Devices (due July 1, 2014) within individual jurisdictions. Include information on Full Trash Capture Devices installed under the Bay-area Wide Trash Capture Demonstration Project administered by San Francisco Estuary Partnership and an estimate of the total land area that is planned for treatment by July 1, 2014.

Description:

The existing full capture devices and those planned for installation described below. Oakland estimates a total land area planned for treatment by July 1, 2014 to be: 1080.3 acres

FULL CAPTURE DEVICES	LAND AREA TREATED (acres)
Existing	
CDS Units (5):	**459.0**
Installed in FY 11/12	
CDS Units (2) ***(Preliminary Estimates)***	***4.6****
Inlet Screens (3)	***11.3*****
Pipe Connector Screens (3)	***5.8******
In-Line Gross Solid Separators (2) ***(Preliminary Estimates)***	***21.6****
Planned for FY 2012/2013	
CDS Units (3)	***578***
TOTAL PLANNED TREATMENT AREA 2014:	**1080.3 acres**

Per Minimum Full Trash Capture Requirement (MRP C.10.a.iii), cities are required to treat runoff from an area equivalent to 30% of retail/wholesale

land that drains to MS4s within their jurisdiction. Oakland's minimum acreage to receive full capture (per Attachment J of the MRP) is 228 acres. Currently, Oakland is treating 502.3 acres with full capture and has implementation underway that will result in the treatment total of 1080.3 acres by 2013. As such, Oakland has fulfilled and surpassed its Full Trash Capture Requirement.

As part of the Bay Area Wide Trash Capture Demonstration Project administered by SFEP Oakland purchased and has on order a CDS Unit Device planned for future installation at 73rd and International. This unit will be installed by November 2012 and accounts for as one of the three CDS units planned for FY 2012/2013, and will be one of the largest CDS units west of the Mississippi.

**These figures differ from the February 2012 Short-Term Load Reduction Plan due to corrected information on the four full capture units (including two CDS units and two In-line Gross Solid Separators) installed in the Lake Merritt watershed as part of the 12th Street Channel Widening.*

***These figures differ from the February 2012 Short-Term Load Reduction Plan because the inlet screens were mistakenly listed as partial capture but have been corrected to reflect that they offer full capture.*

**** These figures differ from the February 2012 Short-Term Load Reduction Plan because the Pipe Connector Screens were mistakenly omitted. These screens were installed in January 2012 as part of a collection and assessment effort for BASMAA's trash loading analysis.*

C.10.b.iii ►Trash Hot Spot Assessment

(For FY 10-11 Annual Report and Each Annual Report Thereafter) Provide volume of material removed from each Trash Hot Spot cleanup, and the dominant types of trash (e.g., glass, plastics, paper) removed and their sources to the extent possible.

Fill out the following table or attach a summary of the following information.

Trash Hot Spot	Cleanup Date	Volume of Material Removed	Dominant Type of Trash	Trash Sources (where possible)
Arroyo Viejo Creek (at Rec Center)	9/17/2011 4/21/2012	563 lbs. 266 lbs.	Litter & illegal dumping including items such as: mattresses, appliances, tires, shopping carts. Small items such as plastic bags, aluminum cans, bottles, plastic wrappers, and clothing, etc.	Trash sources include recreational land use, upstream transport, adjacent homeless encampments, and illegal dumping.
Courtland Creek (Brookdale to Fairfax)	9/17/2011 4/21/2012	1,600 lbs. 760 lbs.	Large illegally dumped items such as mattresses, appliances tires, shopping carts.	Trash sources include: Illegal Dumping, and trash transported by wind and runoff from nearby commercial corridors and high traffic areas.
Arroyo Viejo/Lion - Damon Slough (Site 1)	Damon Slough was voted as a trash hot	Poundage data of litter collected was	Large illegally dumped items such as mattresses, appliances tires, shopping	Trash sources include: Illegally dumped materials (on-site and

(Line K)	spot by Save the Bay. As a result, Save the Bay sponsored regular clean-up events at this site throughout the year. Per the city's request, the Coliseum staff conduct regular clean-up of the property and nearby creek after events. In addition, Alameda County Flood Control District provides periodic clean-up and maintenance of this area.	not tracked separately for this site.	carts. Small items such as plastic bags, aluminum cans, bottles, plastic wrappers, and clothing, etc.	in upstream locations), homeless encampments, trash from events held at the Alameda County-Oakland Coliseum, nearby commercial and industrial businesses, nearby high traffic areas, and material transported by the tides and runoff from upstream locations.
Arroyo Viejo/ Lion - Damon Slough (Site 2)	Damon Slough was voted as a trash hot spot by Save the Bay. As a result, Save the Bay sponsored regular clean-up events at this site throughout the year. Peralta Creek – Cesar Chavez Park	9/17/2011 This site also had four local adopt-a-creek events (10/8/2011, 11/12/2011. 1/14/2012, 2/11/2012) and received a total of 190 volunteer hours of clean up	2,225 lbs.	Illegally dumped items such as construction materials, mattresses, appliances, tires and shopping carts. Small items such as plastic bags, aluminum cans, bottles, plastic wrappers and clothing, etc.	Trash sources include recreational land use, transport from upstream locations, homeless encampments and illegal dumping.

Sausal Creek – Fruitvale Bridge	9/17/2011 4/21/2012 This site also had one local adopt-a-creek clean up event on 10/22/11 and received a total of 27 volunteer hours of clean up. Visit http://www.sausalcreek.org/photos/videos.html for a video of a clean-up event in 2011	600 lbs. 2,090 lbs.	Illegally dumped items such as construction materials, mattresses, appliances, tires and shopping carts. Small items such as plastic bags, aluminum cans, bottles, plastic wrappers and clothing, etc.	Trash sources include homeless encampments, upstream watershed, illegal dumping and litter from adjacent freeway.
Sausal Creek Barry Place	12/17/2011 This clean up was a local adopt-a-creek event with two volunteers working for 3 hours each. Visit http://www.sausalcreek.org/photos/videos.html for a video of a clean-up event in 2011	Poundage data of litter collected was not tracked separately for this site.	Illegally dumped items such as construction materials, mattresses, appliances, tires and shopping carts. Small items such as plastic bags, aluminum cans, bottles, plastic wrappers and clothing, etc.	Trash sources include park and recreation center users, trash from high traffic streets and illegal dumping.

C.10.d ►Summary of Trash Reduction Actions and Loads Reduced

Provide a summary of trash load reduction actions (i.e., control measures and best management practices) implemented within your jurisdictional boundaries during the reporting period to achieve a 40% trash load reduction goal by July 1, 2014. For those actions implemented in FY 2011-12, include brief descriptions of levels of implementation and the total trash loads and dominant types of trash removed from each action.

New or Enhanced Trash Load Reduction Action	Description of New or Enhanced Action Implemented in FY 11-12	Estimated Trash Load Removed in FY 11-12 (Gallons)[65]	Estimated Percent Reduction as of FY 11-12[58]	Estimated Dominant Types of Trash Removed in FY 11-12
Enhanced Street Sweeping	**ONGOING:** **Residential areas are swept 2X/month** **Industrial areas are swept 1X/week** **Commercial areas are swept 3X/week.** **Certain areas without gutters (such as in hills) are swept seasonally to reduce the amount of organic debris from entering storm drains.*** **All street sweepers have been equipped with GIS units which report maximum and average speeds of the sweeper.*** **THIS YEAR:** **City has initiated a street sweeping efficiency study to determine which areas of the City benefit from street sweeping and how best to target our sweeping activities to maximize litter removal.** *This information was not included in the February 2012 Short-Term Load Reduction Plan and has been included here to provide more specificity on Oakland's street-sweeping program.	**5413**	**5.5%**	**Trash common to parks, high density residential and commercial areas such as food wrappers, plastic bags, aluminum cans, bottles, and clothing, etc.**

[65]The estimated load removed and percent reduction in FY 11-12 is consistent with assumptions described in the Trash Load Reduction Tracking Method Technical Report (version 1.0) submitted to the Water Board on February 1, 2012. In the future, load reductions reported in Annual Reports may be adjusted based on revisions to the tracking methodology.

C.10.d ►Summary of Trash Reduction Actions and Loads Reduced

Provide a summary of trash load reduction actions (i.e., control measures and best management practices) implemented within your jurisdictional boundaries during the reporting period to achieve a 40% trash load reduction goal by July 1, 2014. For those actions implemented in FY 2011-12, include brief descriptions of levels of implementation and the total trash loads and dominant types of trash removed from each action.

New or Enhanced Trash Load Reduction Action	Description of New or Enhanced Action Implemented in FY 11-12	Estimated Trash Load Removed in FY 11-12 (Gallons)[65]	Estimated Percent Reduction as of FY 11-12[58]	Estimated Dominant Types of Trash Removed in FY 11-12
Single-Use Carryout Bag Policies	**THIS YEAR:** **On January 25, 2012 the Alameda County Waste Management Authority adopted a countywide ordinance for all jurisdictions within Alameda County prohibiting the distribution of single-use carryout plastic bags at the cash register at retail stores covered by the ordinance and establishing mandatory fees for other single use carry out bags. This ordinance will take effect January 1, 2013.** **City staff have conducted activities to prepare for implementation of the bag ban including: participated in county meetings discussing enforcement responsibilities; prepared public outreach materials on the bag ban; put notice on City website of bag ban; confirmed list of businesses subject to the Ordinance.**	**0 (Ban takes effect Jan 2013)**	**0 (Ban takes effect Jan 2013)**	**Single use plastic bags from most establishments including large supermarkets and any stores selling packaged foods.**
Polystyrene Foam Food Service Ware Policies	**ONGOING:** **In 2008, the City adopted An Ordinance to Prohibit the Use of Polystyrene Foam Disposable Food Service Ware and Require the Use of Biodegradable or Compostable disposable Food Service Ware by Food Vendors and City Facilities (Oakland Municipal Code Chapter 8.07 Polystyrene Foam Food Service Ware, Ordinance No. 12747). This ordinance applies to ALL food vendors at City-sponsored events and on City-owned property and to food service vendors. This ordinance is available on line at: http://library.municode.com/mobile/contents.aspx?clientID=16308&chosenNode=16308_1501.16308_1446.16308_1.#16308_1501.16308_1446.16308_1.** **The City maintains a hotline for citizens to report violations of the ordinance. Staff follow-up on all potential violations with 1) a letter to business owner**	**7457**	**13%**	**Disposable food Polystyrene foam food service products/particles.**

C.10.d ►Summary of Trash Reduction Actions and Loads Reduced

Provide a summary of trash load reduction actions (i.e., control measures and best management practices) implemented within your jurisdictional boundaries during the reporting period to achieve a 40% trash load reduction goal by July 1, 2014. For those actions implemented in FY 2011-12, include brief descriptions of levels of implementation and the total trash loads and dominant types of trash removed from each action.

New or Enhanced Trash Load Reduction Action	Description of New or Enhanced Action Implemented in FY 11-12	Estimated Trash Load Removed in FY 11-12 (Gallons)[65]	Estimated Percent Reduction as of FY 11-12[58]	Estimated Dominant Types of Trash Removed in FY 11-12
	letting them know they are in violation and providing alternatives. If a second complaint is received the City will visit the establishment. **THIS YEAR:** **Attachment C.10-1 is the letter sent to businesses who have been reported using polystyrene foam. Also provided is Attachment C.10-2, a description of enforcement activities in FY 2011-2012.**			
Public Education and Outreach Programs	**ONGOING:** **City has distributed public service leaflets promoting the reporting of illegal dumping to local libraries, senior and recreation centers and neighborhood organizations.** **THIS YEAR:** **Installation of anti-litter billboard at San Pablo and 19th.** **Installed metal storm drain markers to over 150 storm drains throughout the City with: "No Dumping Drains to Bay (Lake). The City plans to install these storm drain markers on all 7578 inlets.** **City has contracted with Lake Merritt Institute to provide public school education visits focusing on litter reduction and how trash impacts our waterways. The City conducted this educational activity to 12 schools and 1 Girl Scout troop reaching 85 college students, 195 high school students and 182 middle and elementary school children. See Attachment C.7.2 for list of School-Aged Outreach in FY 2011-2012.**	**7,457**	**20.6%**	**Small trash items such as bottles, wrappers, plastic bags.**

C.10.d ►Summary of Trash Reduction Actions and Loads Reduced

Provide a summary of trash load reduction actions (i.e., control measures and best management practices) implemented within your jurisdictional boundaries during the reporting period to achieve a 40% trash load reduction goal by July 1, 2014. For those actions implemented in FY 2011-12, include brief descriptions of levels of implementation and the total trash loads and dominant types of trash removed from each action.

New or Enhanced Trash Load Reduction Action	Description of New or Enhanced Action Implemented in FY 11-12	Estimated Trash Load Removed in FY 11-12 (Gallons)[65]	Estimated Percent Reduction as of FY 11-12[58]	Estimated Dominant Types of Trash Removed in FY 11-12
	The City also participated in the following public outreach events with stormwater pollution prevention as a theme: • **Alameda County Clean Water Program (Oakland Staff shift) – This year the booth included a storm drain model and new storm water pollution prevention materials. Over 500,000 attendees with approximately 150 pieces of literature distributed.** • **National Night Out (7/21/2011) ; 500 neighborhood locations throughout the City. Materials included stormwater/pollution prevention awareness and watershed volunteerism materials distributed. Over 6000 attendees with 2500 pieces of literature distributed.** • **Oaktoberfest (October 1, 2011) - – Materials included litter and stormwater awareness, and watershed volunteerism. Over 1000 attendees.** • **Laurel Street Fair (August 13, 2011) - Materials included litter and stormwater awareness, and watershed volunteerism. Over 1000 attendees.** • **Art & Soul Festival (Aug 20 and 21, 2011) – Materials included stormwater pollution prevention awareness, Oakland's rain barrel program, stormwater detention, and watershed volunteerism materials distributed; watershed awareness quiz game. Over 12,000 attendees and 2,500 pieces of literature distributed.** • **National Public Works Week (May 20 -25, 2012) – Materials included stormwater/pollution prevention awareness, watershed volunteerism and reusable bags. Over 200 pieces of literature distributed and unknown attendance.** • **Oakland Earth Day (April 21, 2012) – 100 locations throughout City.**			

C.10.d ►Summary of Trash Reduction Actions and Loads Reduced

Provide a summary of trash load reduction actions (i.e., control measures and best management practices) implemented within your jurisdictional boundaries during the reporting period to achieve a 40% trash load reduction goal by July 1, 2014. For those actions implemented in FY 2011-12, include brief descriptions of levels of implementation and the total trash loads and dominant types of trash removed from each action.

New or Enhanced Trash Load Reduction Action	Description of New or Enhanced Action Implemented in FY 11-12	Estimated Trash Load Removed in FY 11-12 (Gallons)[65]	Estimated Percent Reduction as of FY 11-12[58]	Estimated Dominant Types of Trash Removed in FY 11-12
	Materials distributed on stormwater awareness and pesticide alternatives. Over 2800 attendees and 500 pieces of material distributed. **City partnered with three other Bay Area Cities and Clean Water Action to apply for a US EPA grant to reduce litter from take-out establishments. EPA awarded $257,000 to the "Taking out the Trash" Grant and implementation is expected to begin in Winter 2012.*** ***This information was not in the February 2012 Short-Term Trash Load Reduction Plan because the City had not yet received notification of the grant award.**			
Activities to Reduce Trash from Uncovered Loads	**ONGOING:** **The City of Oakland has incorporated the requirement and performance standards for all municipal trash haulers to cover their loads when providing property service in its new franchise agreement with its hauler.**	**932**	**21.6 %**	**Wind born debris and trash.**
Anti-littering and Illegal Dumping Enforcement Activities	**ONGOING:** **The City has identified 83 sites as "high priority" illegal dumping sites in Oakland. The City continues to distribute public leaflets to promote reporting of illegal dumping. The City continues to respond to citizen requests of illegal dumping and uses the Public Works Call Center as a way for residents to report illegal dumping.** **THIS YEAR:** **In August 2011, the city installed surveillance cameras equipped with Bay Alarm systems in 16 of the high priority sites. In addition, 30 high priority sites have been installed with "dummy" cameras.**	**1864**	**23.4%**	**Illegally dumped items such as construction materials, mattresses, appliances, tires and shopping carts.**

C.10.d ►Summary of Trash Reduction Actions and Loads Reduced

Provide a summary of trash load reduction actions (i.e., control measures and best management practices) implemented within your jurisdictional boundaries during the reporting period to achieve a 40% trash load reduction goal by July 1, 2014. For those actions implemented in FY 2011-12, include brief descriptions of levels of implementation and the total trash loads and dominant types of trash removed from each action.

New or Enhanced Trash Load Reduction Action	Description of New or Enhanced Action Implemented in FY 11-12	Estimated Trash Load Removed in FY 11-12 (Gallons)[65]	Estimated Percent Reduction as of FY 11-12[58]	Estimated Dominant Types of Trash Removed in FY 11-12
	The City responded to 13,194 illegal dumping complaints.			
Improved Trash Bins/Container Management	**ONGOING** **Oakland's Municipal Code Section (OMC) 8.28.100 includes a requirement for adequate garbage service for all property types. This code is enforced through the requirements provided in OMC Section 8.28.280. This municipal code is found on the City's website at :** **http://library.municode.com/mobile/contents.aspx?clientID=16308&chosenNode=16308_1777.16308_1429.16308_1.#16308_1777.16308_1429.16308_1** **Residential subscription to garbage service is enforced by a property lien system described in OMC Sections 8.28.170-8.28.270. Enforcement for commercial customers is on a complaint-driven basis.**	**932**	**24.4%**	**Wind born debris and trash.**
On-land Trash Cleanups	**ONGOING:** **Oakland organizes multiple adopt-a-spot programs that use neighborhood businesses and volunteers to clean up trash. Volunteers only remove trash that can be hand carried and volunteers are instructed to contact City personnel for removal of large items. The average volunteer participation rate (calculated over the last 3 years of data) is 30,937 hours.** **City employs local teenagers during the summer (Team Oakland) to remove trash from high litter areas.** **Bulky waste pick-up appointments are available annually for every resident in a single family home and occupants of 2 – 4 units buildings and optional second appointment is available for the first 500 callers. Volume amounts**	**3053**	**27.5%**	**Illegally dumped items such as construction materials, mattresses, appliances, tires and shopping carts are collected through our illegal dumping program – Keep Oakland Clean and Beautiful. Volunteers remove**

C.10.d ►Summary of Trash Reduction Actions and Loads Reduced

Provide a summary of trash load reduction actions (i.e., control measures and best management practices) implemented within your jurisdictional boundaries during the reporting period to achieve a 40% trash load reduction goal by July 1, 2014. For those actions implemented in FY 2011-12, include brief descriptions of levels of implementation and the total trash loads and dominant types of trash removed from each action.

New or Enhanced Trash Load Reduction Action	Description of New or Enhanced Action Implemented in FY 11-12	Estimated Trash Load Removed in FY 11-12 (Gallons)[65]	Estimated Percent Reduction as of FY 11-12[58]	Estimated Dominant Types of Trash Removed in FY 11-12
	from this program are not included in our trash reduction totals. **Keep Oakland Clean and Beautiful has staff that responds to citizen calls of trash and illegal dumping. These materials are picked up and taken directly to the Davis Street Landfill. Volume amounts from this program are not included in our trash reduction totals.** **THIS YEAR** **This year, Team Oakland removed a total of 3251 bags of litter. Clean up areas and amounts are shown in Attachment C.10-3, Litter Removed by Team Oakland. Volume amounts from this program are not included in our trash reduction totals.** **To leverage its diminishing resources, the City has an on-staff "Adopt-A-Spot" coordinator to organize and galvanize local volunteers. While it is too cumbersome to document the volume of trash collected in these multiple efforts and locations, the City does maintain careful records on volunteer hours. The complete list of on land trash clean-ups (showing adopt-a-spot locations and volunteer hours) is provided as Attachment C.10-4. This year's adopt-a-spot effort leveraged 41,877 volunteer hours of on-land clean-up. In our February 2012 Short-Term Load Reduction Plan, the City proposed an enhanced volunteer implementation rate of 10% above the baseline or an estimated 677* gallons/year. The actual number of volunteer hours in FY 2011/2012 is a 45% increase in volunteer participation over the pre-MRP baseline in 2009. The City will report the trash removed in FY 2011/2012 as 3053 gallons ****			**small items such as plastic bags, aluminum cans, bottles, plastic wrappers and clothing, etc.**

C.10.d ►Summary of Trash Reduction Actions and Loads Reduced

Provide a summary of trash load reduction actions (i.e., control measures and best management practices) implemented within your jurisdictional boundaries during the reporting period to achieve a 40% trash load reduction goal by July 1, 2014. For those actions implemented in FY 2011-12, include brief descriptions of levels of implementation and the total trash loads and dominant types of trash removed from each action.

New or Enhanced Trash Load Reduction Action	Description of New or Enhanced Action Implemented in FY 11-12	Estimated Trash Load Removed in FY 11-12 (Gallons)[65]	Estimated Percent Reduction as of FY 11-12[58]	Estimated Dominant Types of Trash Removed in FY 11-12
	***This is a different enhancement volume than what was reported in the February 2012 Short-Term Load Reduction Plan. The previously reported number was incorrectly based on all debris (recyclables and green waste) rather than just on litter.** ****This volume assumes 0.23 gallons litter removed/per volunteer hour and based on six Oakland earth day events (2006 – 2011) in which both the volunteer hours and exact tonnage of trash removed was available. This volume reported is the amount of litter removed above the 2009 baseline.**			
Partial-Capture Treatment Devices	**ONGOING:** **The City has a total of four trash booms located in Lake Merritt : 1)18th and Lakeshore; 2) Glen Echo outfall; 3) 21st and Harrison 4) 22nd/Harrison. Each of these booms is cleaned weekly by the Lake Merritt Initiative and its volunteers. In evaluating the last two years of data, the City estimated a high and low trash removal volume of 17,000 to 25,000 gallons per year.** **THIS YEAR:** **A total of 19,520 pounds of trash was removed from these Lake Merritt trash booms in FY 2011/2012. The number of reported total truck loads was 41. Assuming each truck load carried between 1.5 to three cubic yards, the total estimated gallons of litter removed in FY 2011/2012 is estimated to be 12,423* – 24,846 gallons/year. It was noted that a significant portion of the Lake was closed due to construction and that the rainfall was very low in the beginning of the year; both factors which would contribute to the low numbers. The reported amount for FY 2011/2012 is 16,564 and falls within that estimated range.** ***Note: This low range estimate is different than what was included in the February 2012 Short-Term Load Reduction Plan because a more conservative estimate of 1.5 cubic yards was used in place of the previous two cubic**	**16,564 gallons**	**44.5%**	**Floatable Trash including food containers and plastics, and sediments from the storm drain lines.**

C.10.d ►Summary of Trash Reduction Actions and Loads Reduced

Provide a summary of trash load reduction actions (i.e., control measures and best management practices) implemented within your jurisdictional boundaries during the reporting period to achieve a 40% trash load reduction goal by July 1, 2014. For those actions implemented in FY 2011-12, include brief descriptions of levels of implementation and the total trash loads and dominant types of trash removed from each action.

New or Enhanced Trash Load Reduction Action	Description of New or Enhanced Action Implemented in FY 11-12	Estimated Trash Load Removed in FY 11-12 (Gallons)[65]	Estimated Percent Reduction as of FY 11-12[58]	Estimated Dominant Types of Trash Removed in FY 11-12
	yards.			
Enhanced Storm Drain Inlet Maintenance	**ONGOING:** **The City has a total of 7578 storm drain inlets throughout the City. City drainage staff maintains and clean ALL inlets annually. Maintenance includes an inspection and a clean out of the inlet so that the concrete bottom is visible.** **THIS YEAR:** **The City cleaned a total number of 11,969 storm drains this year.** **This represents an enhanced (more than once a year) cleaning of 4391 inlets or approximately 50% of all inlets were cleaned twice.**	**1373**	**45.9%**	**Floatable Trash including food containers and plastics, and sediments from the storm drain lines**
Full-Capture Treatment Devices	**ONGOING:** **City operates and maintains its five CDS units.** **THIS YEAR:** **City installed new catch basin inserts in three locations as part of its ARRA projects. The location and design for the inserts is provided in Attachment C.10-5 and cover six inlets. The total watershed area treated by these devices is 11.3 acres.** **As part of its participation in the BASMAA Trash Generation research, the City installed four Connector Pipe Screen Inserts (Insert) in January 2012. The exact location and gallons of trash removed per Connector Pipe Screen Insert is provided in Attachment C.10-6. The total watershed area treated by these Inserts is 5.8 acres.** **The City installed two CDS units in September 2011 and December 2011. The City also installed two In-line gross solid linear removal systems in March 2012**	**3,570**	**49.5%**	**Floatable Trash including food containers and plastics, and sediments from the storm drain lines.**

C.10.d ►Summary of Trash Reduction Actions and Loads Reduced

Provide a summary of trash load reduction actions (i.e., control measures and best management practices) implemented within your jurisdictional boundaries during the reporting period to achieve a 40% trash load reduction goal by July 1, 2014. For those actions implemented in FY 2011-12, include brief descriptions of levels of implementation and the total trash loads and dominant types of trash removed from each action.

New or Enhanced Trash Load Reduction Action	Description of New or Enhanced Action Implemented in FY 11-12	Estimated Trash Load Removed in FY 11-12 (Gallons)[65]	Estimated Percent Reduction as of FY 11-12[58]	Estimated Dominant Types of Trash Removed in FY 11-12
	and May 2012, respectively. These solid linear removal systems treat a total of 26.2 acres and were installed as part of the 12th Street Channel widening project. **The City began construction of three additional CDS units: at Intersection of 73rd & International, High Street near the Alameda Bridge and; Alameda Avenue near Fruitvale.** ***Please note: the number of full capture units reported here includes updated information not in the February 2012 Short-Term Load Reduction Plan. However, the trash volumes collected by these newly identified full capture units have not been included in this total.***			
Creek/Channel/Shoreline Cleanups	**ONGOING:** **The City has coordinated annual creek-side litter removal sites around the City on Creek-to Bay day since 2006. The City tracks and records the amount of trash removed for each of its sites on Creek-to-Bay Days. The average annual amount collected from 2006 through 2011 for each Creek-to-Bay day is 7200 pounds for an estimated annual volume of 11,520** gallons/trash/year. To be conservative, these estimates do not include recyclables picked up during the event.*** *This information was not included in the February 2012 Short-Term Load Reduction Plan and has been included here to provide more specificity on Oakland's litter collected in Creek-to-Bay day events. **City coordinates the Adopt-A-Creek program which provide multiple clean up events for over 20 sites around the City.** **THIS YEAR:**	**17433**	**67.2%**	**Illegally dumped items such as construction materials, mattresses, appliances, tires and shopping carts. Small items such as plastic bags, aluminum cans, bottles, plastic wrappers and clothing, etc.**

C.10.d ►Summary of Trash Reduction Actions and Loads Reduced

Provide a summary of trash load reduction actions (i.e., control measures and best management practices) implemented within your jurisdictional boundaries during the reporting period to achieve a 40% trash load reduction goal by July 1, 2014. For those actions implemented in FY 2011-12, include brief descriptions of levels of implementation and the total trash loads and dominant types of trash removed from each action.

New or Enhanced Trash Load Reduction Action	Description of New or Enhanced Action Implemented in FY 11-12	Estimated Trash Load Removed in FY 11-12 (Gallons)[65]	Estimated Percent Reduction as of FY 11-12[58]	Estimated Dominant Types of Trash Removed in FY 11-12
	On September 17, 2011, the City sponsored Creek-to-Bay events at 25 locations throughout Oakland with over 1600 participants. This year the recorded amount of trash removed was 9000 pounds or 14,400 gallons **. **This year, the City supported regular adopt-a-creek programs at over 15 sites throughout the City. In calculating trash removed during these multiple events, the estimates only include trash collected from sites with a high incidence of trash. These sites include: Marj Saunders Park, Wood Park and Barry Place in the Sausal Creek watershed; Cesar Chavez Park, Peralta Hacienda Park and Peralta Creek Park in the Peralta Creek Watershed, Arroyo Viejo Park in the Arroyo Viejo Creek Watershed and Oak Glen Park in the Glen Echo Creek Watershed. See the Attachment C.10-7, Creek, Channel & Shoreline Cleanups for a list of specific, sites, dates and volunteer participation. This year, there were over 288 events with 13,191 volunteer hours spent cleaning up litter. The estimated volume of trash removed is 3033 gallons.***** **Combining the Creek-to-Bay Day and regular adopt-a-creek events the estimated total litter removal is 17,433 gallons** ******This estimate assumes that one pound of trash collected in volunteer clean-up events is equal to 1.6 gallons of trash. This conversion factor is based on a review of past clean-up events where we have both the weight and volume data. ***This estimate assumes the average trash collected per volunteer hour is 0.23 gallons and is based on six years of data from Earth Day events where both volunteer hours and gallons of trash were recorded.			
Preliminary Estimate of Trash Load Removed (Gallons) in FY 2011-12		**66,291 gal**		

C.10.d ►Summary of Trash Reduction Actions and Loads Reduced

Provide a summary of trash load reduction actions (i.e., control measures and best management practices) implemented within your jurisdictional boundaries during the reporting period to achieve a 40% trash load reduction goal by July 1, 2014. For those actions implemented in FY 2011-12, include brief descriptions of levels of implementation and the total trash loads and dominant types of trash removed from each action.

New or Enhanced Trash Load Reduction Action	Description of New or Enhanced Action Implemented in FY 11-12	Estimated Trash Load Removed in FY 11-12 (Gallons)[65]	Estimated Percent Reduction as of FY 11-12[58]	Estimated Dominant Types of Trash Removed in FY 11-12
Preliminary Baseline Trash Load Estimate (Gallons)		**98,626**		
Total Percentage Reduction in FY 2011-12 (Compared to Baseline Trash Load)		**67.2%**		

Section 11 - Provision C.11 Mercury Controls

C.11.a.i ►Mercury Recycling Efforts

List below or attach lists of efforts to promote, facilitate, and/or participate in collection and recycling of mercury containing devices and equipment at the consumer level (e.g., thermometers, thermostats, switches, bulbs).

The City directs the public with questions about recycling of mercury containing devices and equipment to the Alameda County Household Hazardous Waste (HHW) facility through the City's Recycling Hotline.

The City also provides Alameda County HHW information in the City of Oakland Recycling Program brochure, and will be distributing this brochure to the public through a mass mailing during FY 2012-2013. In past years, these brochures have been provided to new customers. Additionally, the City includes Alameda County HHW program information in the multi-family residence packets and Alameda County HHW information is featured in the City annual bulky pickup brochure that is distributed to single-family residents (1-4 units).

See Provision C.11 Mercury Controls section of the Alameda Countywide Clean Water Program (ACCWP) FY 2011-2012 Annual Report for information on mercury recycling efforts conducted countywide and regionally.

C.11.a.ii ►Mercury Collection

Provide an estimate of the mass of mercury collected through these efforts, or provide a reference to a report containing this estimate.

See Provision C.11 Mercury Controls section of the ACCWP FY 2011-2012 Annual Report for an estimate of the mass of mercury collected through collection and recycling efforts in the ACCWP area.

C.11.b ►Monitor Methylmercury
C.11.c ►Pilot Projects to Investigate and Abate Mercury Sources in Drainages
C.11.d ►Pilot Projects to Evaluate and Enhance Municipal Sediment Removal and Management Practices
C.11.e ►Conduct Pilot Projects to Evaluate On-Site Stormwater Treatment via Retrofit
C.11.f ►Diversion of Dry Weather and First Flush Flows to POTWs
C.11.g ►Monitor Stormwater Mercury Pollutant Loads and Loads Reduced
C.11.h ►Fate and Transport Study of Mercury In Urban Runoff
C.11.i ►Development of a Risk Reduction Program Implemented Throughout the Region
C.11.j ►Develop Allocation Sharing Scheme with Caltrans

State below if information is reported in a separate regional report. Municipalities that participate directly in regional activities to can provide descriptions below.

Summary

A summary of ACCWP and regional accomplishments for these sub-provisions are included within Provision C.11 Mercury Controls section of the ACCWP FY 2011-2012 Annual Report and/or the Bay Area Stormwater Management Agencies Association (BASMAA) Regional Pollutants of Concern (POC) Report for FY 2011-2012.

Section 12 - Provision C.12 PCBs Controls

C.12.a.ii,iii ►Ongoing Training
(For FY 10-11 Annual Report and Each Annual Report Thereafter) List below or attach description of ongoing training development and inspections for PCB identification, including documentation and referral to appropriate regulatory agencies (e.g. county health departments, Department of Toxic Substances Control, California Department of Public Health, and the Water Board) as necessary.
Description: **See Provision C.12 PCBs Controls section of the Alameda Countywide Clean Water Program (ACCWP) FY 2011-2012 Annual Report for a description of training provided countywide and/or regionally.**

C.12.b ►Conduct Pilot Projects to Evaluate Managing PCB-Containing Materials and Wastes during Building Demolition and Renovation Activities C.12.c ►Pilot Projects to Investigate and Abate On-land Locations with Elevated PCB Concentrations C.12.d ►Conduct Pilot Projects to Evaluate and Enhance Municipal Sediment Removal and Management Practices C.12.e ►Conduct Pilot Projects to Evaluate On-Site Stormwater Treatment via Retrofit C.12.f ►Diversion of Dry Weather and First Flush Flows to POTWs C.12.g ►Monitor Stormwater PCB Pollutant Loads and Loads Reduced C.12.h ►Fate and Transport Study of PCBs In Urban Runoff C.12.i ►Development of a Risk Reduction Program Implemented Throughout the Region
State below if information is reported in a separate regional report. Municipalities that participate directly in regional activities to can provide descriptions below.
Summary **Oakland, in coordination with the Bay Area Stormwater Management Agency Association (BASMAA) and four Bay Area municipalities, is participating in the Clean Watersheds for a Clean Bay project to help implement the Total Maximum Daily Load (TMDL) for PCBs. As part of this effort, Oakland conducted inspections on 18 sites in the Ettie Street watershed – an area previously identified as containing potentially elevated PCB levels. These sites were inspected to determine the potential for current or historic sources of PCBs and whether existing stormwater controls at that site are sufficient to prevent runoff from these potentially polluted sites. Oakland has also initiated the planning and design of six stormwater treatment tree well units that are intended to remove PCBS from stormwater by trapping and treating the polluted stormwater runoff**

and sediments in the tree well soil media. In addition, Oakland is installing a CDS unit that will capture polluted sediment as a by-product of slowing runoff to capture and remove trash. These retrofits will be monitored for their effectiveness in removing PCBs and this information will be used to inform future PCB reduction efforts. A more detailed summary of the ACCWP and regional accomplishments for these sub-provisions is provided Provision C.12 PCB Controls section of the ACCWP FY 2011-2012 Annual Report and/or the BASMAA Regional POC Report for FY 2011-2012.

Section 13 - Provision C.13 Copper Controls

C.13.a. iii.(1) ► Legal Authority: Architectural Copper

(For FY 10-11 Annual Report only) Do you have adequate legal authority to prohibit discharge of wastewater to storm drains generated from the installation, cleaning, treating, and washing of the surface of copper architectural features, including copper roofs to storm drains?	X	Yes		No
If **No**, explain and provide schedule for obtaining authority within 1 year.				

C.13.a.iii.(2) ►Training, Permitting and Enforcement Activities

(FY 11-12 Annual Report and each Annual Report thereafter) Provide summaries of activities implemented to manage waste generated from cleaning and treating of copper architectural features, including copper roofs, during construction and post-construction including. :

- Development of BMPs on how to manage the water during and post construction
- Requiring the use of appropriate BMPs when issuing building permits
- Educating installers and operators on appropriate BMPs
- Enforcement actions taken again noncompliance

The City has developed a new standard condition of approval concerning architectural copper. The condition of approval is applied to projects involving architectural copper and contains Best Management Practices (BMPs) for protecting water quality during construction and post-construction. The City has also posted flyers containing the BMPs in the City's Permit Center.

C.13.b. iii. ► Legal Authority: Pools, Spas, and Fountains

(For FY10-11 Annual Report only) Do you have adequate legal authority to prohibit discharges to storm drains from pools, spas, and fountains that contain copper-based chemicals?	X	Yes		No
If **No**, explain and provide schedule for obtaining authority within 1 year:				

C.13.c ►Vehicle Brake Pads

Reported in a separate regional report.

A summary of the Alameda Countywide Clean Water Program (ACCWP) participation with the Brake Pad Partnership (BPP) is included in Provision C.13 Copper Controls section of the ACCWP FY 2011-2012 Annual Report and/or the Bay Area Stormwater Management Agencies Association (BASMAA) Regional Pollutants of Concern (POC) Report for FY 2011-2012.

C.13.d.iii ►Industrial Sources Copper Reduction Results

Based upon inspection activities conducted under Provision C.4, highlight copper reduction results achieved among the facilities identified as potential users or sources of copper, facilities inspected, and BMPs addressed.

Summary

The City of Oakland Industrial and Commercial Facility Stormwater Inspectors continue to incorporate training materials presented in the "Pollutants of Concern Stormwater Inspectors' Guidance Manual" (POC Guidance Manual) provided by the Bay Area Stormwater Agencies Association (BASMAA) into their inspection process. The POC Guidance Manual also identifies businesses with specific Standard Industrial Classification (SIC) Codes that are potential users (i.e. may conduct activities and/or operations) or sources of copper pollutants.

Additionally, automotive repair shops, automotive parts recycling centers, and automotive salvage yards have been identified as potential users and sources of copper pollutants.

In addition to heightening inspector awareness of potential users or sources of copper pollutants, inspectors have made a conscious effort to perform education and outreach of impacts of copper pollutants with property/business owners and workers when conducting inspections at the businesses in the industries listed above. Additionally, educational materials and potential BMPs are provided to property, facility, and business owners and operators on an as needed basis in an effort to reduce copper pollutant loads at the source.

The following is a list summarizing the number and type of businesses (with SIC Codes) in the City that are identified as potential users or sources of copper pollutants:

• **Motor Vehicle Parts, Used (SIC 5015) - 3 Businesses**	• **Scrap Waste Materials (SIC 5093) – 39 Businesses**
• **Automotive Services, except Repair and Carwashes (SIC 7549) – 60 Businesses**	• **Car Washes (SIC 7542) - 38 Businesses**
• **Boat Yards / Marinas with on-land Maintenance Yards (SIC 4499) - 6 Businesses**	

C.13.e ►Studies to Reduce Copper Pollutant Impact Uncertainties

Report on progress of studies being conducted countywide or regionally to reduce copper pollutant impact uncertainties. State below if information is reported in a separate regional report.

Summary

A summary of the ACCWP and/or regional efforts to develop regional studies to reduce copper pollutant impact uncertainties is included in Provision C.13 Copper Controls section of the ACCWP FY 2011-2012 Annual Report and/or BASMAA Regional POC Report for FY 2011-2012.

Section 14 - Provision C.14 PBDE, Legacy Pesticides and Selenium Controls

C.14.a ►Control Programs for PBDEs, Legacy Pesticides and Selenium Controls

Report on progress of studies being conducted countywide or regionally to characterize the distribution and pathways of PBDEs, legacy pesticides, and selenium. State below if information is reported in a separate regional report.

Summary

A summary of the Alameda Countywide Clean Water Program (ACCWP) and regional efforts related to the Control Program for PBDEs, Legacy Pesticides and Selenium is included in Provision C.14 PBDE, Legacy Pesticides and Selenium section of the ACCWP FY 2011-2012 Annual Report and/or BASMAA Regional Pollutants of Concern (POC) Report for FY 2011-2012.

Section 15 - Provision C.15 Exempted and Conditionally Exempted Discharges

C.15.b.iii.(1), C.15.b.iii.(2) ► Planned and Unplanned Discharges of Potable Water

Is your agency a water purveyor?		Yes	X	No
If **No**, skip to C.15.b.vi.(2):				
If **Yes**, Complete the attached reporting tables or attach your own table with the same information. Provide any clarifying comments below.				
Comments:				

C.15.b.vi.(2) ► Irrigation Water, Landscape Irrigation, and Lawn or Garden Watering

Provide implementation summaries of the required BMPs to promote measures that minimize runoff and pollutant loading from excess irrigation. Generally the categories are:

- Promote conservation programs
- Promote outreach for less toxic pest control and landscape management
- Promote use of drought tolerant and native vegetation
- Promote outreach messages to encourage appropriate watering/irrigation practices
- Implement Illicit Discharge Enforcement Response Plan for ongoing, large volume landscape irrigation runoff.

Summary:

In April 2006, the City of Oakland passed an amendment to City Ordinance Chapter 15.35 Green Building Requirements for City Building Projects to add Civic Bay-Friendly Landscaping Guidelines for all City of Oakland, Redevelopment Agency and Public / Private Partnership Projects which include Landscaping to promote the measures listed above.

The Civic Bay-Friendly Landscaping ordinance promotes healthy soils, uses drought-tolerant plants, conserves water and energy, enhances wildlife habitat, reduces waste, and prevents pesticide-related pollution. The Civic Bay-Friendly Landscaping Ordinance requires that landscaping projects undertaken by the City, Redevelopment Agency or Public-Private Partnerships with a value of $100,000 or more and a size of 10,000 square feet or more meet or exceed a minimum number of Bay-Friendly Landscaping requirements. In order to comply with the Ordinance, a project must score at least 60 points out of the 219 possible points on the Bay Friendly Scorecard and must include, to the extent applicable, nine (9) required practices (five of which are current City practices):

- **Mulch (current City practice)**
- **Amend the soil with compost before planting (current City practice)**
- **Reduce and recycle landscape construction waste (current City practice)**
- **No species requiring shearing, such as formal hedges**

- **Do not plant invasive species (current City practice)**
- **Grow drought tolerant, California native, Mediterranean or climate adapted plants (current City practice)**
- **Minimize the lawn**
- **Specify weather-based irrigation controllers (existing EBMUD requirement for new water meters)**
- **No spray heads for areas less than eight (8) feet wide (existing EBMUD requirement new water meters)**

In addition to the Bay Friendly Landscaping Ordinance, the City of Oakland Illicit Discharge Inspectors treat cases of ongoing, large volume landscape irrigation runoff as illicit discharges. Complaint, inspection, and enforcement of over irrigation runoff are handled in the same manner as any illicit discharges, and handled under the Enforcement Response Plan (ERP) standards.

C.15.b.iii.(1) ►Planned Discharges of the Potable Water System

Site/ Location	Discharge Type	Receiving Waterbody(ies)	Date of Discharge	Duration of Discharge (military time)	Estimated Volume (gallons)	Estimated Flow Rate (gallons/day)	Chlorine Residual (mg/L)	pH (standard units)	Discharge Turbidity[66] (NTU)	Implemented BMPs & Corrective Actions
Not Applicable										

C.15.b.iii.(2) ►Unplanned Discharges of the Potable Water System[67]

Site/ Location	Discharge Type	Receiving Waterbody(ies)	Date of Discharge	Discharge Duration (military time)	Estimated Volume (gallons)	Estimated Flow Rate (gallons/day)	Chlorine Residual (mg/L)[68]	pH (standard units) [52]	Discharge Turbidity (Visual) [52,]	Implemented BMPs & Corrective Actions	Time of discharge discovery	Regulatory Agency Notification Time[69]	Inspector arrival time	Responding crew arrival time
Not Applicable														

[66] Monitor the receiving water for turbidity if necessary and feasible. Include data in this column if available.
[67] This table contains all of the unplanned discharges that occurred in this FY.
[68] Monitoring data is only required for 10% of the unplanned discharges. If you monitored more than 10% of your unplanned discharges, report all of the data collected.
[69]. Notification to Water Board staff is required for unplanned discharges where the chlorine residual is >0.05 mg/L and total volume is ≥ 50,000 gallons. Notification to State Office of Emergency Services is required after becoming aware of aquatic impacts as a result of unplanned discharge or when the discharge might endanger or compromise public health and safety.

Re:Formal Warning to Comply with Chapter 8.07, Title 8 of the Oakland Municipal Code: Polystyrene Foam Food Service Ware

Dear Name:

This is to inform you that this office has received complaints of the following violation of the Polystyrene Foam Food Service Ware Ordinance, Chapter 8.07 of Title 8 of the Oakland Municipal Code, at your business: Business Namelocated at Business Address

1. That your business serves prepared food on polystyrene foam food service ware.

The City reserves the right to inspect your business to determine whether you are in compliance with the terms of the above cited regulations. After Date, you must ensure that prepared foods are not served on polystyrene foam food service ware at Business Name.

To facilitate your compliance with the ordinance, please find enclosed a copy of the brochure that was sent to food vendors in July 2007. It contains additional information about the ordinance requirements, which you may find helpful. If your food service ware vendor is unaware of substitute products, you will find many helpful resources, including a Distributors List and a list of Bio-Based Products, at the City's Public Works Agency website, www.oaklandgreenware.com.

Thank you for your cooperation in helping to make our City a healthier place to do business. If you have any questions about this matter, you may contact the Recycling Hotline at (510) 238-SAVE (7283) for more information.

Sincerely,

Becky Dowdakin
Solid Waste & Recycling Program Supervisor
