Appendix A – Municipal Stormwater Permit Background

The County of Sacramento (County) has a National Pollutant Discharge Elimination System (NPDES) permit that regulates storm discharges from drainage systems that are designed to by-pass the pretreated combined sewer-stormwater system and flow directly to Waters of the State. We refer to this permit as the Municipal Separate Storm Sewer System Permit (MS4 Permit).

The County's MS4 Permit was issued in 1990 under Phase I stormwater permitting, at which time the Central Valley Regional Water Quality Control Board (RWQCB) adopted NPDES storm water permits for medium (serving a population between 100,000 and 250,000) and large (serving a population greater than 250,000) municipalities. Sacramento County was issued an MS4 permit jointly with the cities of Sacramento, Folsom and Galt. These permits are reissued upon expiration.

The most current version of the MS4 Permit was adopted on December 6, 2002 and expires on December 1, 2007. The cities of Citrus Heights, Elk Grove and Rancho Cordova have been added as co-permittees in this version of the MS4 Permit. The County Sheriff's Department currently provides police staffing for Citrus Heights (through June 30, 2006) and Rancho Cordova as well as stormwater quality services to these cities.

The MS4 Permit requires the County to develop and implement a stormwater management program with the goal of reducing the discharge of pollutants to the maximum extent practicable (MEP). MEP is the performance standard specified in Section 402(p) of the Clean Water Act.

The County's stormwater management program is described in the County's Stormwater Quality Improvement Plan (SQIP) that was submitted on July 1, 2003 to the RWQCB. The SQIP provides details of the County's stormwater management program and how the County intends to comply with the provisions of the MS4 Permit. The SQIP also describes what best management practices (BMPs) will be used to address certain program areas.

The MS4 Permit also requires that the County have adequate jurisdiction to prevent pollutant discharges to the storm drain system. Chapter 15.12 of County Code is the County's Stormwater Ordinance.

Activities conducted by, and facilities operated by, the County must comply with the Municipal Operations Element provisions of the MS4 Permit as well as the Stormwater Ordinance. The County of Sacramento, Department of Water Resources (DWR) has been tasked to ensure that Sacramento County complies with the MS4 Permit. The County's MS4 Permit can be downloaded at:

Appendix B – Parking Facility Inspection and Maintenance Form

Parking Facility Inspection and Maintenance Form
County of Sacramento

Date:				Inspector:	
Facility Name:					
Facility ID #:			Address:		
Facility Name:					
Included in program?	☐	Yes	☐	No	Not sure? Use the checklist below:
	☐	Yes	☐	No	Is this parking facility owned and operated by the Department of General Services?
	☐	Yes	☐	No	Is this parking facility exposed to rainfall?
	☐	Yes	☐	No	Does this parking facility contain a minimum of 25 parking spaces?
	☐	Yes	☐	No	Does runoff from this parking surface discharge to the storm drain system?
	If the answer is yes to the four questions above, this parking facility must be included in this program.				
Facility Inspection:	☐	Yes	☐	No	Are onsite drain inlets labeled?
	☐	Yes	☐	No	Are automotive fluids observed?
	☐	Yes	☐	No	Are storm drains clean and functional?
	☐	Yes	☐	No	Is sediment observed?
	☐	Yes	☐	No	Is trash/litter observed?
	If the answer is yes to any of the above questions, conduct routine maintenance activities and/or schedule for future maintenance prior to October 1.				
Maintenance Required:	Conducted while onsite		Scheduled		
	☐		☐		Drain inlets labeled – quantity ( )
	☐		☐		Automotive fluid – dry cleaning methods
	☐		☐		Automotive fluid – pressure cleaning
	☐		☐		Sweeping - hand
	☐		☐		Sweeping – machine
	☐		☐		Landscape repairs
	☐		☐		Pick up trash/litter
