Jeremy Otto	jotto@hortau.com	HORTAU www.HORTAU.com	1075 Court St. Ste 211. San Luis Obispo CA 93401	(805) 748-5505		Hortau Inc. has developed the only effective irrigation management tool for optimizing fertilizer and water use in commercial agriculture; patented wireless tensiometers that provide real time soil tension data. The goal is to keep the crop growing within its moisture threshold throughout the entire season. By monitoring soil tension they know how hard a plant has to work to get the water it needs. Research has shown that every crop type has an optimum soil tension threshold for maximum yield and quality. Complete service including training, support, and maintenance of the equipment.	Regionwide
Claude J Phene, Ph.D. Water Mgmt Consultant		SDI+	P.O. Box 314, Clovis CA 93613-0314	(559) 298-0201	(559) 824-6026	He provides consulting guidance on soil, irrigation, fertigation and water management for most soils and crops in California.
