SUBJECT: Submittal of 2017-2018 Second Semi Annual Report for the Los Cerritos Channel Watershed Coordinated Integrated Monitoring Program (3rd Year Monitoring)

The Los Cerritos Channel Watershed Group is submitting the second Semi-Annual Report for the Coordinated Integrated Monitoring Program for the 2017-2018 monitoring year (**3rd** Year). Included are monitoring data results for the period of January 1 to June 30, 2017. This data report is being submitted in the California Environmental Data Exchange Network (CEDEN) format. The Los Cerritos Channel Watershed Group consists of the following participants: Bellflower, Cerritos, Downey, Lakewood, Long Beach, Paramount, Signal Hill, and the Los Angeles County Flood Control District. This report is being submitted for the LCC Watershed Group by Kinnetic Laboratories, Inc. (KLI) who has been contracted by the Watershed Group to carry out the monitoring program.

In the reporting period of January 1 through June 30, 2018 the following events were conducted:

- KLI performed wet weather sampling on January 09, 2018 at stations SB4-M (Spring St.), SB8 (Clark), SB9 (Del Amo/ Downey), and SB10 (Palo Verde) for chemistry only. LCC1 (Stearns) was successfully sampled for both chemistry and toxicity during this event.

- KLI performed wet weather sampling on March 2 - 3, 2018 at stations SB4-M (Spring St.), SB8 (Clark), SB9 (Del Amo/ Downey), and SB10 (Palo Verde) for chemistry only. LCC1 (Stearns) was successfully sampled for both chemistry and toxicity during this event. No grab samples were taken at any station during this event.

- KLI performed wet weather sampling on March 10 - 11, 2018 at stations LCC1 (Stearns), SB4-M (Spring St.), SB4-1 (N. Sub-Basin), SB8 (Clark), and SB10 (Palo Verde) for chemistry only. Only grab samples were taken at SB4-2 and SB9 due to sensor malfunctions. No toxicity samples were collected.

- KLI performed wet weather sampling on March 22, 2018 at stations LCC1 (Stearns), SB4-1, SB4-2 (S. Sub-Basin) and SB9 (Del Amo/ Downey) for chemistry only. Only grab samples were taken at SB4-M, SB8, and at SB10. No toxicity samples were collected.

- KLI performed dry weather sampling on May 22, 2018 at LCC1. No toxicity sample was collected for the second dry weather event.

The information is submitted pursuant to Part XIV.L of the Monitoring and Reporting Program of the Los Angeles County Municipal Separate Storm Sewer System (MS4) Permit (NPDES Permit No. CAS004001; Order No. R4-2012-0175). The second associated data deliverable file is a ZIP file with all the Semi-Annual data included as EXCEL files for the period of January 1 to June 30, 2018 for the Los Cerritos Channel Watershed CIMP program
