SUBJECT: Transmittal of Final Order No. R2-2012-0077 - Site Cleanup Requirements and Rescission of Order Nos. 99-096, 99-097 and 99-100, 999 Arques Corporation, for the properties located at 995-999 East Arques Avenue, 1077 East Arques Avenue, and 968-970 Stewart Drive, Sunnyvale, Santa Clara County

Dear Mr. Schultz:

Attached is Regional Water Board Order No. R2-2012-0077, issued administratively on October 5, 2012.

This Order requires the 999 Arques Corporation to implement its revised final remedial action plan, which includes cleanup of contaminated groundwater in onsite and offsite areas using enhanced anaerobic biodegradation treatment, and conducting groundwater, soil gas and indoor air monitoring. The Order sets cleanup standards, approves the discharger's revised final remedial action plan, and sets a schedule for its implementation. This Order also rescinds existing Order Nos. 99-096, 99-097 and 99-100, adopted in November 1999.

We received a minor comment on finding 4 of the tentative order from the 999 Arques Corporation, and we have made a minor change to finding 4 in response to this comment. We have also made minor editorial changes to the tentative order to improve clarity and consistency in the final order.

If you have any questions, please contact Max Shahbazian of my staff at (510) 622-4824, or by e-mail [MShahbazian@waterboards.ca.gov].

Sincerely,

Digitally signed by
Bruce H. Wolfe
