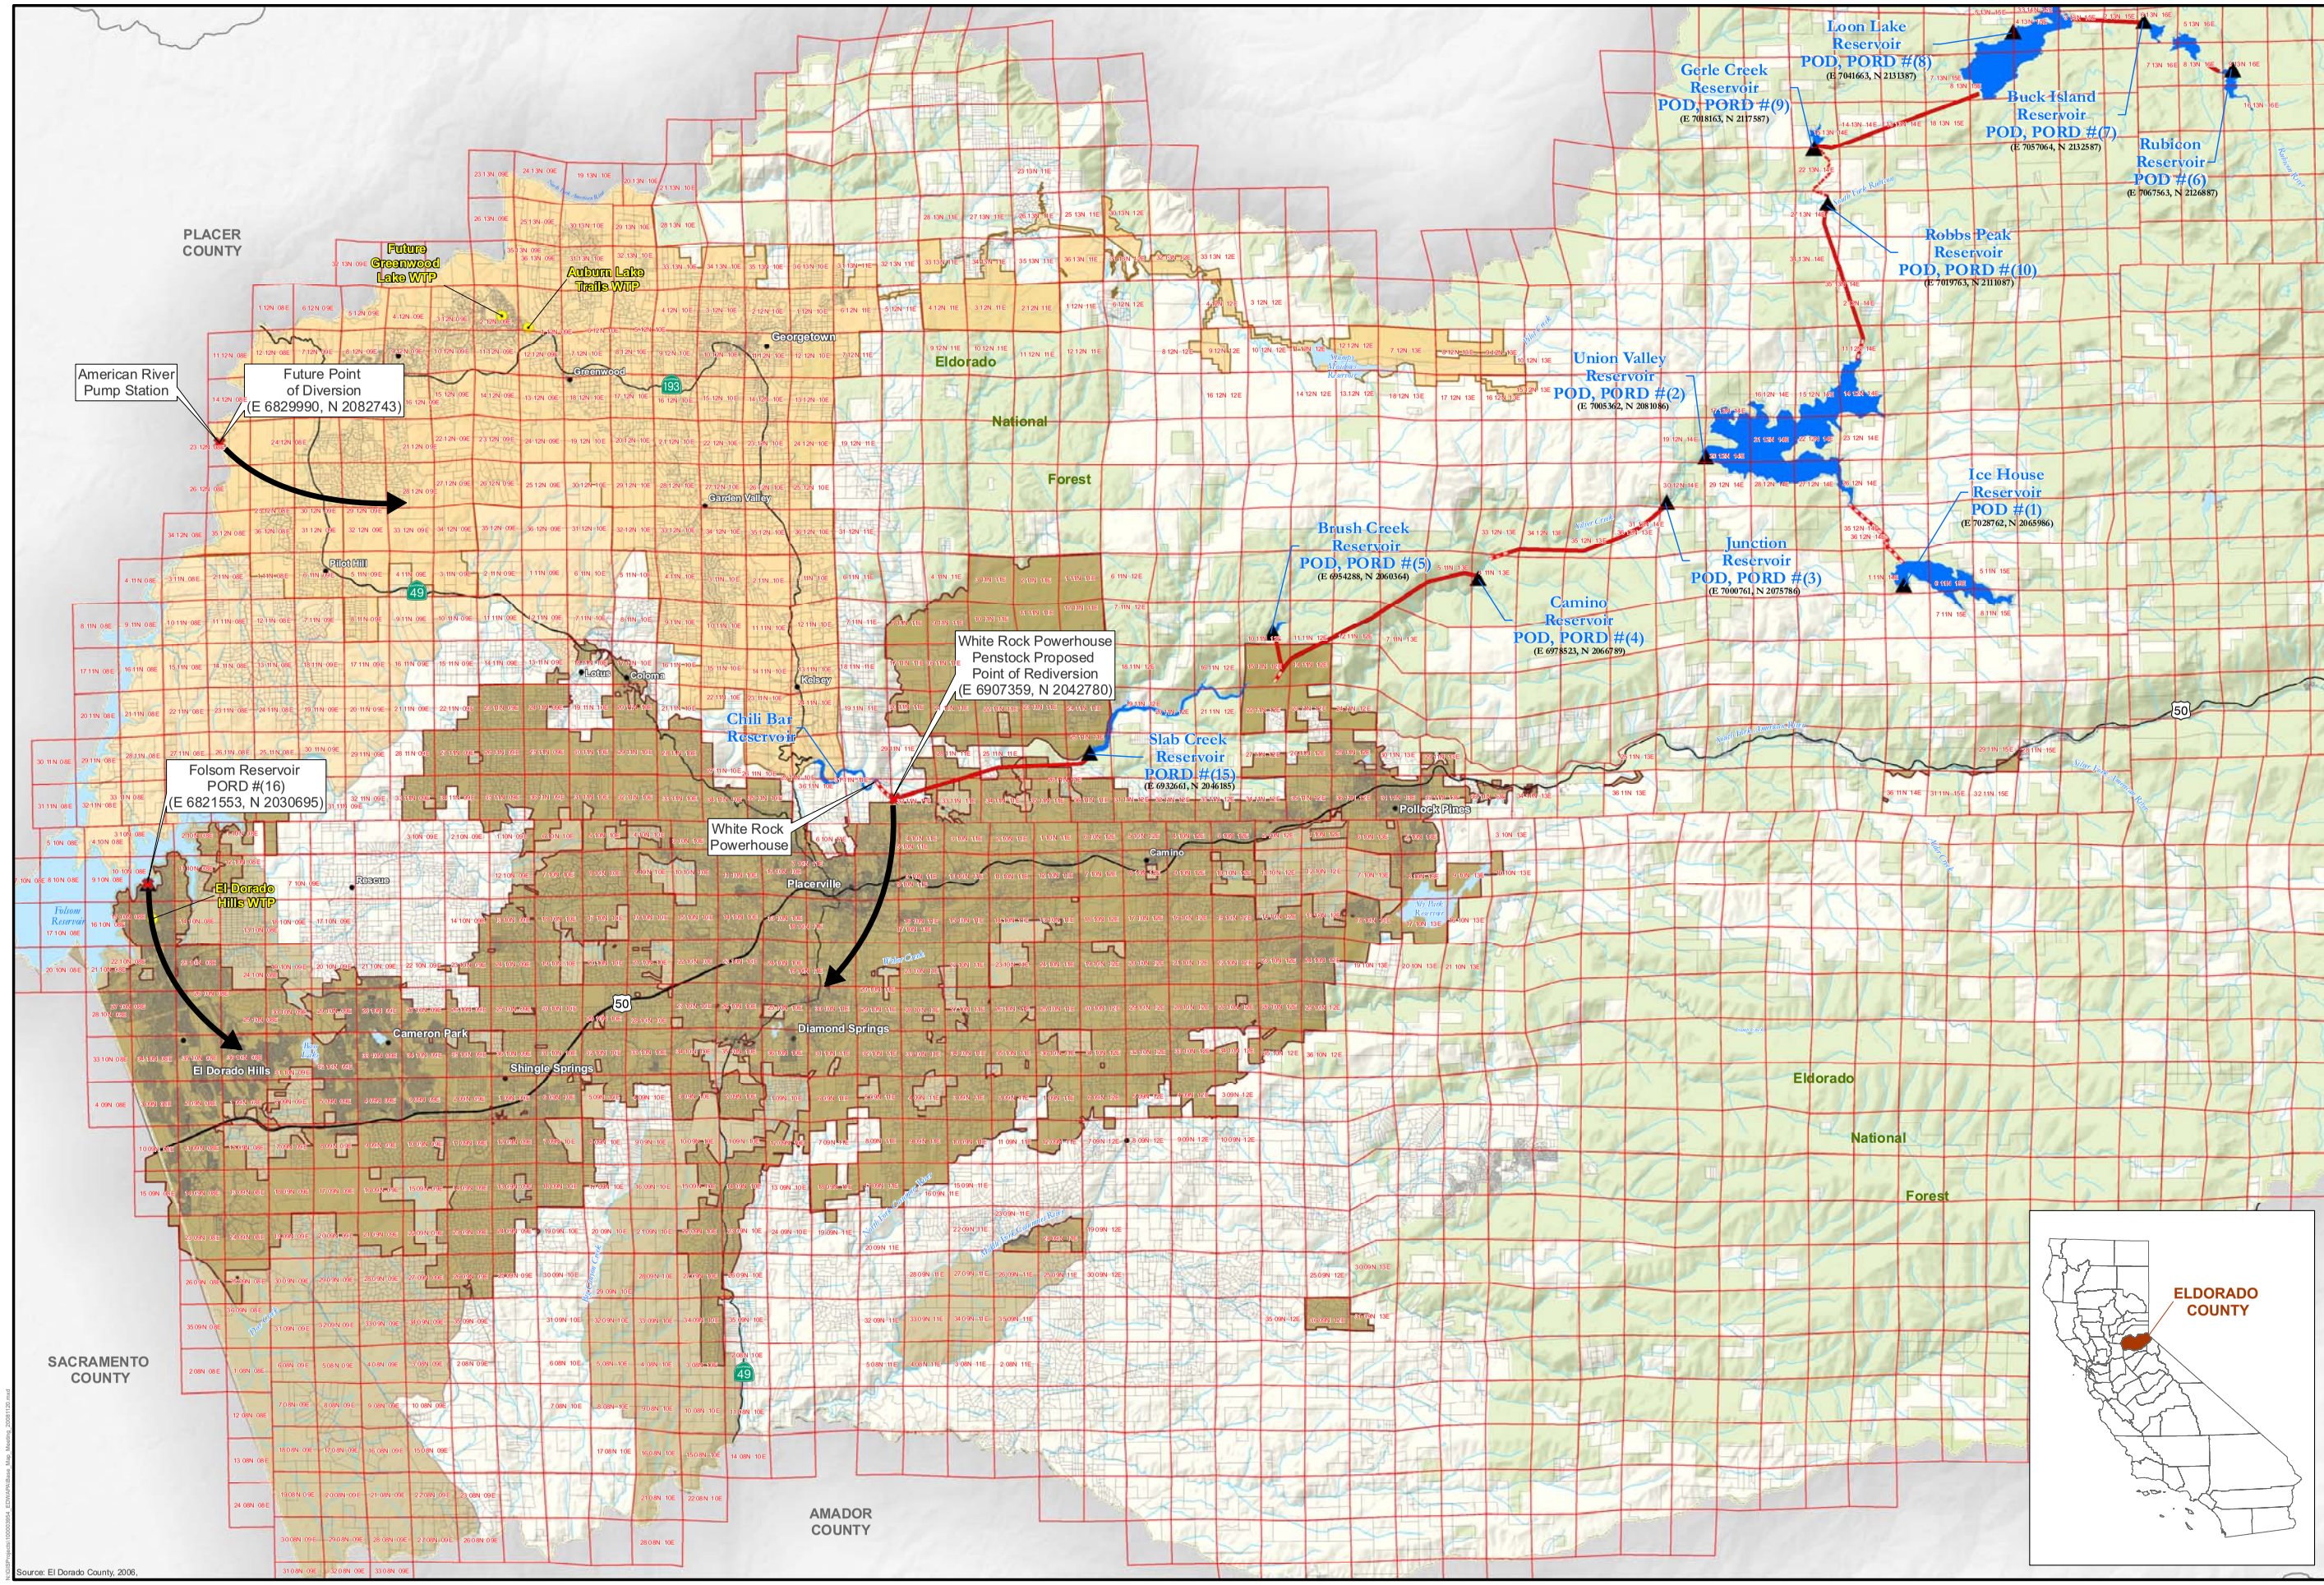
PROJECT AREA MAP

El Dorado Water & Power Authority
Supplemental Water Rights Project

El Dorado County, CA



Source: El Dorado County, 2008,

Proposed Point of Diversion

Water Treatment Plant

Places of Use

Service Area

- EID Service Area
- GDPUD Service Area

Favorable Areas *

- EID
- GDPUD

SMUD UARP Facility

- Tunnel
- Penstock
- Canal
- Point of Diversion or Point of Rediversion**
- UARP Reservoir
- Public Land Survey System Principal Meridian - Mt. Diablo Meridian
- Parcel Boundary
- USFS Land

*Favorable areas are areas where the density of potential development and/or proximity to the existing systems may be "favorable" to providing water service in the future. Boundaries are consistent with the 2007 Water Resources Development and Management Plan with the exception of the elimination of Pine Hill Preserve Recovery area in the El Dorado Hills and the addition of known proposed development and updates to the district service areas.

**Coordinates for Points of Diversion and Points of Rediversion are in California State Plane, Zone II, NAD 83, feet

I, Michael J. Preszler, of 805 Douglas Blvd. Suite 144, Roseville, California do herby certify that this map was prepared by me on March 25, 2009 from geospatially referenced data provided by the County of El Dorado and that it correctly represents the project described in the accompanying application and shows the location of the rivers and streams in the immediate vicinity.
