PLEASE PROVIDE CONTACT INFORMATION (IF DESIRED): [redacted]

COMMENTS: What has happened to the County plan to alter the bridges ⊛ to allow flow in low water times? Scouring has blocked flow and created a situation that blocks fish migration. Plans are in place, yet monies have not been allocated.

⊛ Purrington Creek and Atascadero Creek

Please check box(es) below to indicate your watershed(s) of interest:

- [ ] Dutch Bill Creek
- [x] Green Valley Creek
- [ ] Mark West Creek

COMMENTS: I'm glad that the state is finally doing something about the water situation. I'm very happy to try and conserve as much H_2O as possible, but feel it's REALLY WRONG not to require the same from vineyard + orchard owners. I observed that Green Valley is almost dried up this week, and residential owners only amount to a drop in the bucket in comparison

Please check box(es) below to indicate your watershed(s) of interest:

COMMENTS: ① We do not understand the genetics involved. Why can't we stock G.V. Creek once the drought is over? ② Why don't you fill these pools when the temp is ↑'d & the [Ox] is ↓ with water from my well? I'm close by & it would be free. ③ Why don't you put some fish pond bubblers into these pools. My electric is close & free to you. ④ Why don't you drill 4 wells 1000' deep at the head waters of each creek?

Re: Water Regulations So County

Instead of exempting the agricultural-vineyard properties from regulations, why not apply them to the ag/vineyards that border the critical watersheds and require monitoring and meters.

It is obvious that water is being pumped from the Green Valley creek. Audible pumping occurs most Sunday-Monday eve-nights 9pm-12AM, along the Martinelli Road south of River Rd, and also on Westside Rd, north of the River between Steelhead Beach and Martinelli Rd where the creek enters the River

Why not have evening monitors or require meters, as the creek is critically low.

Signed, Sonoma County Resident

Copy sent Felicia Marcus, State Water Resources Control Board

THERE IS A
METERED WATER HYDRANT

ON BRIDLEWOOD CT. IN SKYFARM II
DEVELOPEMENT HAS BEEN FILLING
BODEAN WATER TRUCKS FOR 10 HOURS A DAY
7 DAYS A WEEK FOR 2 YEARS THAT I HAVE
SEEN —
SOME ONE - CITY OF S.ROSA HAS BEEN
SELLING MILLIONS AND MILLIONS OF GAL'S
OF WATER OUT OF MARK WEST AQUIFER.

THIS SHOULD BE SHUT DOWN
