Central Valley Regional Water Quality Control Board

Attachment 1

Fiscal Year 2026-2027 Planned Activities and Permit Actions

(1 July 2026 – 30 June 2027)

Table A-1. NPDES (National Pollutant Discharge Elimination System)

County	Discharger	Facility	Permit Action	Board Hearing or Issuance (tentative)
Contra Costa	City of Brentwood	Brentwood Wastewater Treatment Plant	Permit Amendment	August 2026 *(Adopted)*
Shasta	City of Shasta Lake	Shasta Lake Wastewater Treatment Facility	Notice of Applicability renewal under the Municipal General Order	February 2027
Nevada	Donner Summit Public Utilities District	Donner Summit Public Utilities District Wastewater Treatment Plant	Individual Permit Renewal and Time Schedule Order	December 2026
Plumas	Chester Public Utilities District	Chester Sewage Treatment Plant	Individual Permit Renewal	December 2026
Sierra	Original Sixteen to One Mine, Inc.	Sixteen to One Mine	Individual Permit Renewal and Time Schedule Order	December 2026
Stanislaus	City of Turlock	Turlock Regional Water Quality Control Facility	Individual Permit Renewal	December 2026
Sutter	City of Live Oak	Live Oak City Wastewater Treatment Plan	Notice of Applicability renewal under the Municipal General Order	December 2026
Glenn	City of Willows	Willows Wastewater Treatment Plant	Notice of Applicability renewal under the Municipal General Order	February 2027

Table A-1. NPDES (National Pollutant Discharge Elimination System)

County	Discharger	Facility	Permit Action	Board Hearing or Issuance (tentative)
Nevada	City of Grass Valley	Grass Valley City Wastewater Treatment Plant	Notice of Applicability renewal under the Municipal General Order	February 2027
Plumas	Sierra Pacific Industries Quincy	Sierra Pacific Industries Quincy Division Sawmill	Individual Permit Renewal	April 2027
San Joaquin	City of Lathrop	Lathrop Consolidated Treatment Facility	Individual Permit Renewal	February 2027
Tehama	Bell Carter Olive Company, Inc.	Bell Carter Industrial WWTP	Individual Permit Renewal	February 2027
Yuba	Olivehurst Public Utilities District	Olivehurst Wastewater Treatment Plant	Individual Permit Renewal	February 2027
Sacramento	American Sturgeon Farms	Sterling Caviar LLC, Elverta	Individual Permit Renewal	April 2027
Yuba	River Highlands Community Services District	Hammonton Gold Village Wastewater Treatment Plant	Individual Permit Renewal	April 2027
All	Limited Threat General Order	Limited Threat General Order	General Order Permit Renewal	June 2027
Butte	Sewerage Commission Oroville Region	Sewerage Commission Oroville Region WWTP	Individual Permit Renewal	June 2027
El Dorado	USDI Bureau of Reclamation Sacramento	Sliger Mine	Individual Permit Renewal	June 2027
Placer	City of Auburn	Auburn Wastewater Treatment Plant	Notice of Applicability renewal under the Municipal General Order	June 2027
Stanislaus	City of Modesto	City of Modesto Water Quality Control Facility	Individual Permit Renewal	June 2027
Tehama	City of Corning	City of Corning Wastewater Treatment Plant	Individual Permit Renewal	June 2027
Shasta	French Gulch Nevada Mining Corporation	Washington Mine	Permit Rescission	TBD

Table A-2. Groundwater Quality Protection Program (Waste Discharge Requirements [WDRs])

County	Discharger	Facility	Permit Action	Board Hearing or Issuance (tentative)
Regionwide	N/A	Fruit and Vegetable Packing Facilities	New Regionwide General Order	August 2026 *(Adopted)*
Regionwide	N/A	Nut Hulling Facilities	New Regionwide General Order	April 2027
San Joaquin	City of Tracy and Leprino Foods Company	Leprino-Tracy Facility	Revised WDRs (R5-2007-0038)	August 2026 *(Adopted)*
Glenn	California Olive Ranch	Artois Facility	Revised WDRs (5-2012-0039)	October 2026 *(Adopted)*
Butte	Trinity River Lumber Yard	Oroville Logyard	New WDRs	October 2026 *(Adopted)*
Butte	Sunsweet Dryers LLC	Sunsweet Dryers Gridley	Revised WDRs (93-084)	October 2026 *(Adopted)*
Madera	Azteca Milling	Madera Masa Facility	Revised WDRs (R5-2023-0007)	October 2026 *(Adopted)*
Fresno	Harris Ranch Beef Company	Selma Beef Processing Plant	Revised WDRs (R5-2017-0021)	December 2026
Yuba	Baldwin Construction	Baldwin Hallwood	Revised WDRs (R5-2010-0124)	December 2026
Stanislaus	City of Patterson	Patterson WQCF	Revised WDRs (R5-2018-0070-001)	December 2026
Yolo	Zamora Pistachio	Zamora Pistachio	Revised WDRs (R5-2024-0035)	December 2026

Table A-2. Groundwater Quality Protection Program (Waste Discharge Requirements [WDRs])

County	Discharger	Facility	Permit Action	Board Hearing or Issuance (tentative)
Merced	Liberty Packing Company, LLC	Ingomar Facility	Revised WDRs (R5-2019-0012)	February 2027
Yolo	UC Davis	Aquatic Weed Lab & CABA	Revised WDRs (R5-2007-0038)	February 2027
San Joaquin	California Natural Products	California Natural Products	Revised WDRs (R5-2003-0141)	April 2027
Tehama	Wayne Lourence	Rawson Road Septage Disposal Site	Revised WDRs (5-00-017)	April 2027
Madera	Lucky's Express Truck Wash, LLC	Lucky's Express Truck Wash Facility	New WDRs	April 2027
Madera	Calbee America Foods	Madera Chip Facility	New WDRs	June 2027
Tulare	Ventura Coastal, LLC	Visalia Citrus	Revised WDRs (97-079)	June 2027
Yolo	Granite Construction	Granite Capay	Revised WDRs (R5-2008-0146)	June 2027
San Joaquin	Goldstone Land Company	Bear Creek Winery	Revised WDRs (R5-2016-0031-01)	June 2027
Lake	Hidden Valley CSD	Hidden Valley Reclamation Facility	Revised WDRs (5-00-019)	June 2027
Kings	Avenal Sand and Gravel	Granite Construction	New WDRs	June 2027
Merced	Richwood Meat Company, Inc.	Richwood Meat Processing Facility	Revised WDRs (92-029)	June 2027
Kings	OPA Pistachio, LLC	OPA Pistachio Processing Facility	New WDRs	TBD

Table A-2. Groundwater Quality Protection Program (Waste Discharge Requirements [WDRs])

County	Discharger	Facility	Permit Action	Board Hearing or Issuance (tentative)
Fresno	Wonderful Pistachio and Almonds, LLC	Wonderful Firebaugh Pistachio Processing Facility	Revised WDRs (R5-2020-0034)	TBD
Fresno	Western Valley Meat Company	Western Valley Meat Processing Facility	Revised WDRs (R5-00-089)	TBD

Table A-3. Confined Animal Facilities

County	Discharger	Facility	Permit Action	Board Hearing or Issuance (tentative)
Regionwide	N/A	Cow Dairies	Amended Dairy General Order R5-2013-0122	February 2027

Table A-4. Land Disposal Program

County	Discharger	Facility	Permit Action	Board Hearing or Issuance (tentative)
Nevada	Nevada CSD No 1	McCourtney Road Landfill	Revised WDRs	Adopted October 2026
Shasta	USDI Bureau of Land Management Redding	Washington Mine	Revised WDRs	February 2027
Kern	Kern County Public Works Department	Lebec Sanitary Landfill	Revised WDRs	February 2026
Lassen	Lassen County	Bieber Class III Landfill	Revised WDRs	February 2027
Tulare	Tulare County Resource Management Agency	Teapot Dome SWDS	Revised WDRs	February 2027
Alameda	Waste Management of Alameda County, Inc.	Altamont/Resource Recovery Class II & III Landfills, Class II Surface Impoundment	Revised WDRs	April 2027
Merced	Synagro	[Name Pending] Biosolids Storage	New WDRs	April 2027
Yuba	Recology Ostrom Road	Recology Ostrom Road Landfill	Revised WDRs	April 2026
Shasta	City of Redding	Redding Class III Landfill Benton	Revised WDRs	April 2027
Kern	Clean Harbors Buttonwillow Inc	Clean Harbors Buttonwillow Facility	Revised WDRs	April 2027
Stanislaus	Stanislaus County Dept of Environmental Resources	Fink Road LF	Revised WDRs	June 2027
Sacramento	County of Sacramento, Department of Waste Management and Recycling	Kiefer Road Class III Landfill SWDS	Revised WDRs	June 2027
Amador	US Mine Corporation	US Mine Corporation-Ione Plant	Revised WDRs	June 2027

Table A-5. Planning Programs

Program	Background	FY 26/27 Activities
Tribal Beneficial Use (TBU) Designation	Through Resolution 2017-0027, the State Water Board adopted Part 2 of the Water Quality Control Plan for Inland Surface Waters, Enclosed Bays, and Estuaries of California --Tribal and Subsistence Fishing Beneficial Uses and Mercury Provisions. This Resolution established three new beneficial use definitions: Tribal Tradition and Culture (CUL), Tribal Subsistence Fishing (T-SUB), and Subsistence Fishing (SUB). The SUB and T-SUB beneficial uses relate to the risks to human health from the consumption of fish or shellfish. The definition of CUL also includes consumption of aquatic resources to support cultural, spiritual, ceremonial, and traditional rights. Designation of CUL and T-SUB beneficial uses will help to protect activities specific to Native American Culture and Tribes' historic uses of California's waters, including practices not covered by existing beneficial uses. Central Valley Regional Water Quality Control Board (Central Valley Water Board) adopted Resolution R5-2018-0079 approving the 2018 Triennial Review with TBU designations as a priority project. Through Resolution R5-2022-0018, Central Valley Water Board adopted the TBU definitions into both its Water Quality Control Plans (the Sacramento-San Joaquin Basin Plan and the Tulare Lake Basin Plan). Board staff are currently gathering available information to support TBU designations.	The Central Valley Water Board has initiated consideration of Basin Plan amendments to designate the CUL and COMM beneficial uses in high-quality surface waterbodies in the Sacramento and San Joaquin River watershed and the Tulare Lake watershed. As a commitment to providing government-to-government meetings, Central Valley Water Board staff will host semi-annual hybrid meetings to provide project updates to tribes and their representatives as well as to solicit input to incorporate into the Central Valley Water Board's approach. In FY 26/27, Central Valley Water Board staff will continue meeting with tribes who submitted TBU designation requests to review their request, discuss evidence submitted, and provide an opportunity to establish continued collaboration. Meetings will continue to be held and offered throughout the TBU designation process and Board staff are available for meetings as requested by Tribes. More information on the TBU designation project can be found on the TBU website (https://www.waterboards.ca.gov/centralvalley/water_issues/basin_plans/tribal_beneficial_uses/) or by emailing the TBU email (RB5S-TBU@Waterboards.ca.gov).

Table A-5. Planning Programs

Program	Background	FY 26/27 Activities
Delta Mercury Control Program	The Delta Methylmercury TMDL and associated program of implementation, collectively referred to as the Delta Mercury Control Program (DMCP), were adopted as a phased TMDL by the Central Valley Water Board on 22 April 2010 and approved by the State Water Board and U.S. EPA. The DMCP was developed to reduce methylmercury and inorganic mercury in the Delta.	Board Staff are completing the required re-evaluation of the Phase 1 DMCP which contains new data and scientific conclusions in a staff report on the DMCP website. Board staff will conduct outreach and engagement to seek input on any modifications to the DMCP and are available for meetings as requested by tribes. More information on the DMCP, including prior presentation slides and recordings, can be found on the DMCP website (https://www.waterboards.ca.gov/centralvalley/water_issues/tmdl/central_valley_projects/delta_hg/).
Central Valley Salinity Alternatives for Long-Term Sustainability (CV-SALTS)	The Salt and Nitrate Control Programs (SNCP) Basin Plan Amendment was adopted on 31 May 2018 (Resolution R5-2018-0034). The SCNP Basin Plan Amendment with revisions was adopted on 10 December 2020. As required by the Nitrate Control Program, Management Zones in Priority 1 groundwater basins submitted Management Zone Implementation Plans (MZIPs) to the Central Valley Water Board on 5 September 2023. MZIPs include an assessment of nitrate conditions, emergency and interim drinking water program, long-term drinking water solutions, nitrate reduction program, and aquifer restoration program On 29 December 2023, implementation of the Nitrate Control Program for Priority 2 groundwater subbasins (Delta-Mendota, Eastern San Joaquin, Kern County (Poso), Kern County (Westside South), Madera,	At a future Board meeting in 2027, the Central Valley Water Board will consider orders that will modify the permits of all dischargers of nitrate (or a Section 13267 of the California Water Code requirement for a Monitoring and Reporting Program for dairies, bovine, poultry and Groundwater Protection Program facilities) in the Priority 1 Chowchilla, Kaweah, Kings, Tule, and Turlock, Management Zones to incorporate MZIP requirements and approve an Exception from meeting nitrate water quality objectives. For Priority 2 permittees that elected to participate in a Management Zone, a Management Zone Implementation Plan will be due to the Central Valley Water Board in January 2027. These plans will contain information on emergency and interim drinking water programs, long-term drinking water solutions, and sector-specific nitrate reduction

Program	Background	FY 26/27 Activities
	Merced, Tulare Lake, and Yolo) began with issuance of Notices to Comply to permittees.	programs. Board staff will review the plans and make them available for public and tribal comment.
Partnership monitoring of harmful algal blooms (HABs)	HABs can pose a health risk to people and animals, harm aquatic ecosystems, and limit the use of drinking and recreational waterbodies due to the toxins, odors, and scums or mats they can produce. The Central Valley Water Board partners with other agencies and stakeholder groups to collect and/or report HAB monitoring information for waterbodies throughout the region.	The Stockton waterfront and nearby waterways will again be monitored May through October for HABs and associated toxins. This monitoring is a partnership between the Water Boards and Restore the Delta. The Water Boards also support HABs monitoring by the Shingle Springs Band of Miwok Indians. Water Boards' partnerships include training, supplies and rapid test kits or laboratory analyses. Reports of HABs that trigger advisories regarding recreation or fishing, the advisories are posted on the Freshwater HAB reports map webpage (https://mywaterquality.ca.gov/habs/resources/reports-map/).
