Subject: Water Quality data from San Vicente and El Capitan Reservoirs

Attached are the data files for the San Vicente and El Capitan Reservoirs, covering the Water Quality monitoring performed by the City of San Diego Water Quality Laboratory for 1995-2001.

Please refer to the individual data sheets (they are in Excel) for the sample dates and locations. If you have any questions regarding these data please contact Jeffery Pasek, Senior Biologist at 619-668-3240 or at jyp@sdcity.sannet.gov .

See Kerri for e-file?

The following files were submitted by the City of San Diego along with other data files for use in the 303(d) assessment. These files, however, were not used in the assessment, as they do not contain pertinent water quality data. Instead they contain count numbers, documenting the number of times a particular constituent was tested for by the laboratory doing the water quality analyses. These files are all located on the S-drive under the water bodies name, in the City of San Diego folder, located in the 303dlist file folder. For San Vicente Reservoir, these files are:

SVA_AN2000
SVA_MET2000
SVA_ORG2000
SVA_ORG22000
SVA_SOLIDS2000
SVA_TOC2000
SVA-ECOLI
