To all wastewater agencies and interested individuals

WASTEWATER USER CHARGE SURVEY REPORT FOR FISCAL YEAR 2006-07

This is the FY 2006-07 edition of the User Charge Summary prepared by the Division of Financial Assistance. 725 public agencies (cities, sanitary districts, public utility districts, community service districts, water districts, county special districts, etc.) provide some form of wastewater service to 916 service areas. The information included in this report was obtained from a questionnaire (see page No. 110) mailed to each of the above referenced public agencies that own and/or operate wastewater facilities. Information was received from 586 public agencies for 753 of the service areas. In order to identify the 163 service areas for which data was not received this year and for which the data may be out of date, a two-digit number appears after their name (see Legend on Page 111).

The data are presented in a manner similar to previous reports to facilitate comparisons with prior year reports. Care should be exercised in using this report since data have been listed as reported by the agencies and little time was available to verify the reported data. User fees reported for agencies that only provide collection service may not include any charge for treatment and disposal. I added the regional treatment authority's fee when I could determine that the reported fees did not include the regional charges. Some reported user fees may represent a bi-monthly fee and not a monthly fee as stated. Some user fees include charges for repayment of debt, future capital reserves, operating reserves, etc. while others only may only fund operation, maintenance and replacement (O.M. & R.) expenses. We also identified agencies that have a variable residential user charge based on metered water consumption in lieu of a flat rate. Some agencies may utilize assessments or other sources of revenue for debt service, which should be considered when determining the total cost of providing wastewater service.

Summary values (i.e. Number, Lowest, Highest, Average and Median) were calculated from data received for fiscal years 2005-06 and 2006-07 only. It was assumed that the majority of the data received for last year's survey is still valid this year.

If you have any questions about this report, please contact Mr. Allan Patton at (916) 341-5131 for assistance.

Sincerely,

Ronald R. Blair
Revenue Program Specialist (retired)

REQUEST FOR INFORMATION FROM AGENCIES RESPONSIBLE FOR COLLECTION, TRANSPORT, TREATMENT OR DISPOSAL OF WASTEWATER

It's time for the annual survey of sewer rates and connection (capacity) fees. Last year's report for FY 2005-06 is available over the Internet at <http://www.swrcb.ca.gov/general/publications/docs/wastewatersurvey0506.pdf>

In order to improve your access to the next wastewater survey report, please provide your e-mail address in the survey report questionnaire. I will e-mail you the web site where you can download a copy of the finished survey report (in Adobe Acrobat format) in late April 2007. If you do not have Internet access, indicate by stating in the comments field that you need your copy mailed to your agency address. The hard copy will be mailed sometime in early May 2007.

Please take time to complete the enclosed form. When you have completed it please fax it to (916) 341-5707 or mail it to me at the address at the bottom of the form. If you have the capability, you may e-mail the completed form to blairrr@pacbell.net I would like to receive the completed form, if possible by the end of the year, but no later than March 1, 2007. Data submitted as late as March 31, 2007 should still make it into the report summary. Data received after April 1, 2007 may not get entered in time for next year's update of the "Wastewater User Charge Survey Summary".

This year I have included an extra page showing the current data in my database for your agency. This data is based on the most recent questionnaire received from your agency. Wastewater rates collected on an annual, quarterly or bi-monthly basis have been recalculated to an equivalent monthly charge.

Added this year to question No. 14 is the category of Septic tank(s). This category should be checked if your service area is a septic tank maintenance area, or if the method of wastewater treatment is a community septic tank, or if the service area collects effluent from individual septic tank for disposal at a community leach field.

If you have any questions concerning this letter, the enclosed form, or wastewater user charge systems, please e-mail me at blairrr@pacbell.net or call me at (916) 341-5642. Thank you in advance for returning the questionnaire and participating in this year's survey.

Sincerely,

Ronald R. Blair
Sanitary Engineering Associate
