Regulatory Action:

Title 23, California Code of Regulations

Amend sections: 1062, 1064, 1066

NOTICE OF APPROVAL OF EMERGENCY
REGULATORY ACTION

DWR

Government Code Sections 11346.1 and
11349.6

OAL Matter Number: 2016-1028-01E

OAL Matter Type: Emergency (E)

In this emergency rulemaking, the State Water Resources Control Board is amending sections 1062, 1064, and 1066 in title 23 of the California Code of Regulations. These changes (1) increase annual water right fees to conform to amounts appropriated by the Legislature from the Water Rights Fund and (2) adjust the caps on application and petition filing fees based on the consumer price index.

OAL approves this emergency regulatory action pursuant to sections 11346.1 and 11349.6 of the Government Code. This emergency regulatory action is effective on 11/3/2016 and will remain in effect until revised by the Board pursuant to Water Code section 1530.

23 CCR § 1062
§ 1062. Filing Fees for Water Right Applications.

(a) A person who files a water right application shall pay to the board a filing fee as follows:

(1)(A) Except as provided in subparagraphs (B) through (E), the fee for a water right application shall be \$1,000, plus \$15 for each acre-foot that the applicant seeks to divert in excess of 10 acre-feet. The total fee shall not exceed ~~\$498,665~~506,145, plus any additional fee due pursuant to subparagraphs (2) and (3).

(B) At a facility where a small hydroelectric generating facility meets the criteria for a Class 28 categorical exemption under the California Environmental Quality Act, as established in California Code of Regulations, title 14, section 15328, the fee shall be \$1,000.

(C) The fee for an application for a temporary permit filed under Water Code section 1425, other than a permit described in subparagraph (D) or (E) of this subdivision, shall be the greater of either (i) 50 percent of the fee calculated under subparagraph (A), above, or (ii) \$2,000.

(D) The fee for an application for a temporary permit under Water Code section 1425 for a small hydroelectric generating facility that meets the criteria for a Class 28 categorical exemption under the California Environmental Quality Act, as established in California Code of Regulations, title 14, section 15328, shall be \$1,000. The filing fee includes the annual permit fee if a temporary permit is issued.

(E) The fee for an application for a temporary permit, or renewal of a temporary permit, filed under Water Code section 1425 that is solely for purposes of diverting water from high flow events to underground storage for later beneficial use shall be \$100 plus \$1.00 for every 100 acre-feet of water the applicant diverts to underground storage under the permit in excess of 10,000 acre-feet. The portion of the application fee based on the amount diverted shall be due within 30 days of actual diversion, and shall be accompanied by a report of the amount actually diverted.

(2) If a water right application is accompanied by a petition to revise a declaration of fully appropriated stream systems, then \$10,000 shall be added to the fee.

(3) If a water right application is accompanied by a petition for assignment of a state-filed application pursuant to Water Code section 10504, then \$5,000 shall be added to the fee.

(b) A person who filed a water right application on or after July 1, 2003, and prior to January 1, 2004, shall pay a supplemental filing fee equal to the difference between the filing fee already paid and the amount due pursuant to the regulation in effect on January 1, 2004.

(c) The application filing fee includes a non-refundable initial review fee of \$250 or the amount of the application fee, whichever is less.

23 CCR § 1064

§ 1064. Filing Fees for Petitions or Requests.

(a) A person who files a petition or a request for release from priority shall pay to the board a filing fee for each water right application, permit or license covered by the petition or request in accordance with this section.

(1) For purposes of calculating the filing fee, a petition to change one or more terms of a single application, permit, license, or other water right shall be considered a single petition, provided that action can be taken on the changes simultaneously, except that a petition for an extension of time shall be considered a separate petition, subject to a separate fee, from a petition to change one or more other terms in a water right. A petitioner requesting changes to more than one application, permit, license, or other water right shall file a separate petition or petitions for each water right and a filing fee shall be required for each petition. A separate filing fee shall be required for each change petition subsequently filed on a water right that is already the subject of a pending petition for change.

(A) Except as provided in subparagraphs (i), (ii), and (iii), the fee for a petition to change the terms of an application, permit or license shall be as follows. The fee shall be a minimum of \$1,000. If the total annual amount of diversion sought by the pending application or authorized by the permit or license, as calculated in accordance with section 1066, is greater than 10 acre-feet, then the petitioner shall pay an additional \$0.30 for each acre-foot in excess of 10 acre-feet. The total fee shall not exceed ~~\$6,2646,358~~.

(i) The fee for a petition for change pursuant only to Water Code section 1707 shall be \$850.

(ii) The fee for a change petition involving a transfer of water pursuant to Water Code section 382, 1435, 1701, 1725, or 1735 shall be \$2,000, plus \$0.30 for each acre-foot that the petitioner seeks to transfer in excess of 10 acre-feet. The fee shall be based on the maximum amount of water proposed to be transferred annually, not the amount of water proposed to be transferred over the entire term of the transfer. The total fee shall not exceed ~~\$498,665~~506,145.

(iii) The fee for a petition for extension of time shall be \$1,000.

(2) The fee for a petition to change the point of discharge, place of use, or purpose of use of treated wastewater pursuant to Water Code section 1211 shall be \$1,000.

(3) The fee for a request for release from priority of a state-filed application pursuant to Water Code section 10504 shall be \$5,000.

(4) The fee for a petition filed pursuant to Water Code section 1228.7 to change the point of diversion or place of use under a registration of an appropriation for small domestic or livestock stockpond or small irrigation use shall be \$250.

(b) A person who filed a petition or a request for release from priority on or after

July 1, 2003, and prior to January 1, 2004, shall pay a supplemental filing fee equal to the difference between the filing fee already paid and the amount due pursuant to the regulation in effect on January 1, 2004.

(c) The petition filing fee includes a non-refundable \$250 initial review fee.

Note: Authority cited: Sections 1058 and 1530, Water Code. Reference: Sections 386, 1525 and 1535, Water Code.

23 CCR § 1066

§ 1066. Annual Fees for Permits or Licenses.

(a) A person who holds a water right permit or license shall pay a minimum annual fee of \$150. If the total annual amount of diversion authorized by the permit or license is greater than 10 acre-feet, then the permittee or licensee shall pay an additional ~~\$0.0630~~0.066 for each acre-foot in excess of 10 acre-feet.

(1) For permits or licenses issued prior to the beginning of the year for which the fee is imposed, the board shall calculate annual fees according to the total annual amount of diversion authorized by the permit or license as of the beginning of the year.

(2) The board shall calculate annual fees for permits issued on or after the beginning of the year according to the total annual amount of diversion authorized by the permit as issued by the board.

(b) The board shall calculate the annual fee based on the total annual amount of diversion authorized by the permit or license, without regard to the availability of water for diversion or any bypass requirements or other conditions or constraints that may have the practical effect of limiting diversions but do not constitute a condition of the permit or license that expressly sets a maximum amount of diversion.

(1) If the permit or license does not expressly identify the total annual amount of diversion, the board shall calculate the total annual amount based on the rate of authorized diversion multiplied by the length of time in the authorized season of diversion.

(2) If the permit or license contains an annual diversion limitation that is applicable only to that permit or license, and the limitation is less than the calculated diversion volume, the fee shall be based on the amount specified in the limitation.

(3) If a person holds multiple water rights that contain an annual diversion limitation that is applicable to the combination of those rights, but the person may still divert the full amount authorized under a particular right, then the fee shall be based on the total annual amount for that individual right.
