Appendix B. SAFER Program General Fund Appropriations (as of July 2021)

Funding Program	Dollar Amount	Encumber by	Liquidate by	Program Description	Program Details	Bottled Water	Hauled Water	Point of Use/Entry	Household Well Replacement	Household Septic Replacement	Household Connection to Public DW or WW System	Technical Assistance	System Emergency Improvements or Repairs	Planning/Construction	Operation & Maintenance	Administrator	
Prop 84 Emergency	\$ 9,150,000	6/30/2023	6/30/2025	<p><b><u>PROPOSITION 84 EMERGENCY</u></b>                      Eligible projects include, but are not limited to, the following:</p> <ul style="list-style-type: none"> <li>• Providing alternate water supplies including bottled water where necessary to protect public health.</li> <li>• Improvements in existing water systems necessary to prevent contamination or provide other sources of safe drinking water including replacement wells.</li> <li>• Establishing connections to an adjacent water system.</li> <li>• Design, purchase, installation and initial operation costs for water treatment equipment and systems.</li> </ul>	<p><b>Eligible Entities:</b>  <b>(1) A public water system serving a severely disadvantaged community which:</b>                      (A) Lacks the technical or financial capacity to deliver water which meets primary safe drinking water standards for which maximum contaminant levels have been established pursuant to Health &amp; Safety Code, Division 104, Part 12, Chapter 4, and                      (B) Has submitted a pre-application for funding for a project to address the public health emergency and the project is ranked on the project priority list pursuant to Health &amp; Safety Code section 116760.70.  <b>(2) A public water system which has experienced disruption or contamination of drinking water supplies caused by events, including but not limited to, fire, flood, earthquake, drought, or other natural disasters</b></p>	X	X						X				
Drinking Water for Schools, FY 2018-19	\$ 6,800,000	6/30/2020	6/30/2023	<p><b><u>DRINKING WATER FOR SCHOOL PROGRAM FY 18-19</u></b>                      Of the amount appropriated in this item, \$6,800,000 shall be used for the State Water Resources Control Board's Safe Drinking Water for Schools grant program, including up to \$1,000,000 for technical assistance.</p>	<p><b>Eligible Entities:</b> Educational Agencies (LEAs) serving kindergarten or any of grades 1-12, inclusive, and preschools and child day care facilities, located on public school property and non-profits. Additionally, all projects must be located at schools within, or serving, a disadvantaged community (DAC)  <b>Funding Distribution Approach:</b> Program Administrator (Directed to Rural Community Assistance Corporation and Self-Help Enterprises)</p>	X	X	X				X			X		
SB 862 Wildfire Pilot Program	\$ 750,000	6/30/2021	6/30/2024	<p><b><u>PILOT PROGRAM FOR HOUSEHOLDS AFFECTED BY WILDFIRE</u></b>                      Of the amount described in subdivision (a) of this Provision 6, \$750,000 shall be used for the board to create a pilot program to provide</p>	<p><b>Eligible Entities:</b> Households  <b>Funding Distribution Approach:</b> TBD</p>				X	X							

Appendix B. SAFER Program General Fund Appropriations (as of July 2021)

Funding Program																		
				grants for wells and septic replacements in households affected by the wildfire and not covered by insurance. To the extent there is a greater demand for this pilot program, upon approval from the Department of Finance, the board may authorize a higher amount of funding, from the amount described in subdivision (a) of this Provision 6, for this purpose.														
AB 74 Wildfire Recovery Planning	\$ 2,000,000	6/30/2021	6/30/2024	<b>WILDFIRE RECOVERY PLANNING COSTS</b> Of the amounts appropriated in this item, \$2,000,000 shall be available to cover planning costs for recovery from the 2017 and 2018 wildfires and any future wildfires.	Eligible Entities: TBD Funding Distribution Approach: TBD													
AB 74 Tanks and Hauling	\$ 2,500,000	6/30/2021	6/30/2024	<b>DRY WELL TANKS AND HAULING PROGRAM</b> \$2,500,000 to continue funding for the placement and filling of temporary water tanks for households that have lost their water supply because of a dry well.	Eligible Entities: Not specified Funding Distribution Approach: Program Administrator (Direct to Self-Help Enterprises)		X											
SB 108 Well Replacement	\$ 8,000,000	6/30/2020	3/31/2021	<b>DRINKING WATER WELL REPLACEMENT PROGRAM</b> Senate Bill (SB) 108 (Stats. 2017, ch. 54) amended Provision 4 of Item 3940-001-0001 of Section 2.00 of the Budget Act of 2017 (Provision 4), which appropriated \$8 million from the General Fund to the State Water Resources Control Board (State Water Board) to “ensure California’s economically disadvantaged citizens have adequate access to clean drinking water and adequate sanitation to protect public health”;	Eligible Entities: Individual Households (Homeowners) and Small Water Systems serving less than 15 connections Funding Distribution Approach: Program Administrator (Directed to Rural Community Assistance Corporation and Self-Help Enterprises)			X	X									
SB 862 Household Drinking Water and Wastewater	\$ 9,250,000	6/30/2021	6/30/2024	<b>HOUSEHOLD DRINKING WATER AND WASTEWATER</b> Of the amounts appropriated in this item, \$10,000,000 shall be used for the State Water Resources Control Board to provide emergency relief grants to households	Eligible Entities: Not specified Funding Distribution Approach: Program Administrator (Direct to Rural Community Assistance Corporation)			X	X	X	X							

Appendix B. SAFER Program General Fund Appropriations (as of July 2021)

Funding Program	Dollar Amount	Encumber by	Liquidate by	Program Description	Program Details	Bottled Water	Hauled Water	Point of Use/Entry	Household Well Replacement	Household Septic Replacement	Household Connection to Public DW or WW System	Technical Assistance	System Emergency Improvements or Repairs	Planning/Construction	Operation & Maintenance	Administrator
				to fund well replacement, septic system replacement, permanent connections to public systems, well or septic abandonment, point-of-use and point-of-entry treatment systems, and debt relief for households who have financed well replacement as a result of the drought emergency.												
AB 72 Administrator	\$ 10,000,000	6/30/2022	6/30/2025	<b>ADMINISTRATOR</b> Provision 8 appropriated \$10 million from the General Fund to the State Water Board “for grants or contracts for administrators to provide administrative, technical, operational, or managerial services to a designated water system to support compliance with current drinking water standards.”	<b>Eligible Entities:</b> Varies, can include individuals and private entities <b>Funding Distribution Approach:</b> Directed Action							X			X	X
AB 72 Urgent Drinking Water Needs	\$ 10,000,000	6/30/2021	6/30/2024	<b>URGENT DRINKING WATER NEEDS</b> Provision 7 appropriated \$10 million from the General Fund to the State Water Board to “provide grants or contracts to address urgent drinking water needs in disadvantaged communities, local educational agencies in or serving disadvantaged communities, or nonprofits.” Eligible projects include, but are not limited to, interim alternate drinking water supplies, emergency improvements, service extension, consolidations, treatment and critical operation and maintenance activities that are cost prohibitive considering the population and median household income of the community served by the water system.	<b>Eligible Entities:</b> Local Agencies, Public Water Systems, Nonprofit Agencies, and Local Educational agencies in or serving DAC communities. <b>Funding Distribution Approach:</b> Varied-Program Administrator for \$2.5 Million Statewide Bottled Water for Schools (Direct to Rural Community Assistance Corporation), Directed grant to Indian Health Services for several projects, Directed grants to 7 Public Water Systems for individual projects	X	X	X			DW only		X		X	
AB 74 Urgent Drinking Water Needs	\$ 1,000,000	6/30/2021	6/30/2024	<b>URGENT DRINKING WATER NEEDS</b> Of the amounts appropriated in this item, \$1,000,000 shall be available to provide grants or contracts to address safe drinking water emergencies in disadvantaged communities and disadvantaged households, including, but not limited to, provision of	<b>Eligible Entities:</b> Local Agencies, Public Water Systems, Nonprofit Agencies, and Local Educational agencies in or serving DAC communities. <b>Funding Distribution Approach:</b> Program	X	X	X	X		DW only		X			

Appendix B. SAFER Program General Fund Appropriations (as of July 2021)

Funding Program																			
				interim alternate drinking water supplies including bottled or hauled water, and emergency improvements or repairs to existing water systems, such as well rehabilitation or replacement, extension of service, consolidation projects, or treatment systems.	Administrator for \$500,000 Bottled Water Program for Region 3 and TBD for remaining funds.														
<b>AB 74 Drinking Water and Wastewater System Repair</b>	<b>\$ 10,000,000</b>	<b>6/30/2022</b>	<b>6/30/2025</b>	<b><u>DRINKING WATER AND WASTEWATER SYSTEM REPAIR PROGRAM</u></b> Of the amounts appropriated in this item, \$10,000,000 shall be available to provide emergency funding for projects to water and wastewater service providers serving disadvantaged communities for the following purposes: (1) to evaluate, address and repair the failure of critical components of drinking water or waste water systems; and (2) to fund critical operation & maintenance activities that are cost prohibitive considering the population and median household income of the community served by the system. The State Water Resources Control Board may authorize oral agreements for purposes of authorizing funding pursuant to this provision.	<b>Eligible Entities:</b> Water and wastewater service providers serving DACs. <b>Funding Distribution Approach:</b> TBD													<b>X</b>	<b>X</b>
<b>SB 129 Chapter 69, Sec. 126 Drinking Water Emergencies</b>	<b>\$ 10,000,000</b>	<b>6/30/2024</b>	<b>6/30/2027</b>	<b><u>DRINKING WATER DROUGHT EMERGENCIES</u></b> Chapter 69 appropriated \$10 million from the General Fund to the State Water Board for drinking water drought emergencies.	<b>Eligible Entities:</b> Public agencies, nonprofit organizations, public utilities, mutual water companies, federally recognized California Native American tribes, non-federally recognized Native American tribes, administrators, and groundwater sustainability agencies. <b>Funding Distribution Approach:</b> TBD	<b>X</b>	<b>X</b>		<b>X</b>									<b>X</b>	
<b>SB 129 Chapter 69, Sec. 127, Prov 1 Drinking Water</b>	<b>\$ 650,000,000</b>	<b>6/30/2024</b>	<b>6/30/2027</b>	<b><u>DRINKING WATER INFRASTRUCTURE</u></b> Of the amount appropriated, \$650 million shall be available for drinking water projects. The State Water Resources Control Board shall prioritize disadvantaged communities for drinking water projects.	<b>Eligible Entities:</b> Not specified <b>Funding Distribution Approach:</b> TBD														<b>X</b>

<sup>1</sup>Type of solution provides some sort of O&M Support

<sup>2</sup>Systems receiving TA with no cost information are funding through SRF set-aside funds. Total project cost is unknown until assistance is complete.

<sup>3</sup>Potential interim funding amounts are based on providing replacement water for one year. Systems on the list due to monitoring and reporting violations do not have funding amounts.

<sup>4</sup>Number indicates the solution process category as of April 2021: (1) Agreement Mailed, (2) Agreement Routing, (3) Application being Reviewed

## Appendix C. FY 2020-21 Funding Solution List for Systems Out of Compliance

Technical Assistance (TA) = Assistance with preliminary planning, TMF assessments, engineering assistance, and project management

Interim = Interim replacement water (bottled water, hauled water, point of use devices)

Planning = Funding for feasibility studies, project design documents, and engineering/environmental reports

Construction = Funding for construction of distribution system replacement/repair, water meter installation, water treatment systems, source water construction/repair, and consolidation

Disadvantaged (DAC) Status: (D) - Disadvantaged, (SD) - Severely Disadvantaged, (ND) - Non-Disadvantaged, (TBD) - To be determined

System Size: Small System (3,300 connections or less)

Expanded Small System (3,301 to 6,600 connections)

Large System (6,601 connection or more)

Keys:
On Schedule to Compliance
Delayed/Further Action Needed
Under Review for Next Steps

E	Existing Funding with approved cost
P	Potential Funding for FY 21/22 with requested cost
FP	Existing Full Planning TA project
U	Unknown Funding
M	Mandatory Process Initiated
V	Voluntary Consolidation Process Underway
D	Consolidation Discussions Initiated
A	Administrator Discussions Initiated

<sup>1</sup> Type of solution provides some sort of O&M Support

<sup>2</sup> Systems receiving TA with no cost information are funding through SRF set-aside funds. Total project cost is unknown until assistance is complete.

<sup>3</sup> Number indicates the solution process category as of April 2021: (1) Agreement Mailed, (2) Agreement Routing, (3) Application in Review

Project Classification: A-Immediate Health Risk, B-Untreated or At-Risk Sources, C-Compliance or Shortage Problems, D-Inadequate Reliability, E-Secondary Risks, F-Other Projects

Key:

Technical Assistance (TA) = Assistance with preliminary planning, TMF assessments, engineering assistance, and project management

Interim = Interim replacement water (bottled water, hauled water, point of use devices)

Planning = Funding for feasibility studies, project design documents, and engineering/environmental reports

Construction = Funding for construction of distribution system replacement/repair, water meter installation, water treatment systems, source water construction/repair, and consolidation

Disadvantaged (DAC) Status: (D) - Disadvantaged, (SD) - Severely Disadvantaged, (ND) - Non Disadvantaged, (TBD) - To be determined

System Size: Small System (3,300 connections or less)

Expanded Small System (3,301 to 6,600 connections)

Large System (6,601 connection or more)

E	Existing Funding with approved cost, if known
P	Potential Funding for FY 21/22 with requested cost, if known
PA	Potential Funding after FY 21/22 with requested cost, if known
U	Unknown Funding
D	Consolidation Discussions Initiated, if known
A	Administrator Discussions Initiated, if known

## Appendix E. Greenhouse Gas Reduction Fund Requirements

The expenditures from the Fund with moneys originating from the GGRF will be used for the purpose of facilitating the achievement of reductions of greenhouse gas emissions or to improve climate change adaptation and resiliency of GGRF Disadvantaged Communities or GGRF Low-Income Households or Communities. GGRF expenditures from the Fund will be administered in compliance with the Funding Guidelines for Agencies that Administer California Climate Investments (GGRF Funding Guidelines, available at: <https://ww2.arb.ca.gov/resources/documents/cci-funding-guidelines-administering-agencies>). The key items from the August 2018 GGRF Funding Guidelines for Program Administration (Section IV.A. of the GGRF Funding Guidelines) are below, along with a description of how the State Water Board will ensure compliance with that element.

### **GGRF Funding Guidelines Key Item: Identify program-specific statutory requirements (Section IV.A.1)**

The Safe and Affordable Drinking Water Fund is established pursuant to Health and Safety Code section 116766. Chapter 4.6 of Part 12 of Division 104 of the Health and Safety Code establishes the requirements for use of the Fund. The Policy for the Development of the Fund Expenditure Plan for the Safe and Affordable Drinking Water Fund (adopted by the State Water Board on May 5, 2020) and this Fund Expenditure Plan further describe applicable requirements associated with administering the SADW Fund. A Fund Expenditure Plan will be adopted by the State Water Board annually and reflect any applicable statutory changes.

### **GGRF Funding Guidelines Key Item: Ensure coordinated communication (Section IV.A.2)**

- All funding recipients that receive allocations from the Fund that originate from the GGRF are required to include recognition of funding through the California Climate Investments (CCI) as follows:
  - **Branding and logo.** The “California Climate Investments” logo and name serve to bring under a single brand. All funding recipients must display the CCI logo on equipment and signage, as applicable, to acknowledge the funding source.
    - For stationary projects this may include, but is not limited to, a sign at the project site to acknowledge the funding source. The sign may include, for example, the CCI logo and the names (and/or logos) of other partners, organizations, or individuals.
    - For other project types, such as equipment and consumer-based incentives, funding recipients are also encouraged to identify the funding source by using a decal, sticker, or other signage that includes the CCI logo. Guidance on the CCI logo usage, signage guidelines, and high-resolution files are contained in a style guide available at: <http://www.caclimateinvestments.ca.gov/logo-graphics-request>.

## Appendix E. Greenhouse Gas Reduction Fund Requirements

- Funding source acknowledgement. The below language must be used on websites and included in announcements, press releases, and publications: “The [INSERT PROJECT NAME] is part of California Investments, a statewide program that put billions of Cap-and-Trade dollars to work reducing GHG emissions, strengthening the economy, and improving public health and the environment – particularly in DACs. The Cap-and-Trade program also creates a financial incentive for industries to invest in clean technologies and develop innovative ways to reduce pollution. California Climate Investments projects include affordable housing, renewable energy, public transportation, zero-emission vehicles, environmental restoration, more sustainable agriculture, recycling, and much more. At least 35 percent of these investments are located within and benefiting residents of DACs, low-income communities, and low-income households across California. For more information, visit the California Climate Investments website at: [www.caclimateinvestments.ca.gov](http://www.caclimateinvestments.ca.gov).”
- Coordinated social media and website. Recognition of funding under CCI program extends to publications, websites, signage, invitations, and other media-related and public outreach products. The email address: [CClpress@arb.ca.gov](mailto:CClpress@arb.ca.gov) will be included on any distribution lists and the twitter handle @CAClimateInvest Twitter will be posted on websites.

### **GGRF Funding Guidelines Key Item: Support transparency and provide public access to information on program activities and outcomes (Section IV.A.3)**

To support transparency and public accountability, the State Water Board provides public access to information on the Fund and the broader SAFER Program in a variety of ways. Consistent with the GGRF Funding Guidelines, the State Water Board maintains information on its website that provides up-to-date program information, including:

**Funding opportunities.** The State Water Board continually accepts applications to support the drinking water needs of California communities. The Financial Assistance Application Submittal Tool (FAAST – [www.faast.waterboards.ca.gov](http://www.faast.waterboards.ca.gov)) is the gateway that is used to apply for funding and also can be used by the public to view what applications have been submitted. Since different applicants have worked with the State Water Board in different program areas, funding opportunity information is also posted on its SAFER Program, Office of Sustainable Water Solutions, Division of Financial Assistance, and Drinking Water State Revolving Fund web pages. The State Water Board staff and TA providers are also available to assist applicants representing DACs to apply for funding. The State Water Board will also announce funding opportunities using the California Climate Investments Events Calendar available at: [www.arb.ca.gov/cci-events](http://www.arb.ca.gov/cci-events).

**Public outreach events.** As described elsewhere in this Plan (see Section VI.D), the State Water Board is developing a Communication and Outreach Plan for the SAFER Program and is implementing a robust community engagement and public outreach

## Appendix E. Greenhouse Gas Reduction Fund Requirements

process. The State Water Board is providing materials in other languages and provides language interpretation services. In addition, the State Water Board will conduct events and select locations and timing to encourage stakeholder and local community participation.

**All submitted applications and/or proposals – prior to funding decisions.** The GGRF Funding Guidelines require that administering agencies with programs that fund projects with competitive grant, loan, or contract solicitations, administering agencies must post basic information about the applications and proposals. In general, the State Water Board is accepting applications and proposals continuously and will provide funding to qualifying projects based on the prioritization discussed in Section IV of this Plan.

Should the State Water Board conduct a competitive solicitation, the State Water Board will post the applications and/or proposals that are submitted for consideration at least ten days before the State Water Board's authorized representative makes a decision on funding awards. The minimum items that will be posted include:

- For each project application or proposal: Name of applicant; brief description of proposed project, including location; amount of funding requested; and whether the project is expected to provide benefits to priority populations.
- For each solicitation: A reference or website link to the project evaluation and selection criteria and solicitation materials.

**Final project selections – after funding decisions.** The State Water Board will post final project selections after the final decisions on funding awards have been made.

**Points of contact and resources for information and TA.** As discussed previously, the State Water Board's web pages, Fact Sheets, press releases, social media posts, and other outreach material will provide contact information for the public to ask questions or obtain additional information and TA.

**Project results, including greenhouse gas (GHG) emission reductions and co-benefits.** State Water Board staff will work with California Air Resources Board (CARB) staff to ensure the GHG emission reductions and co-benefits are evaluated in a manner consistent with CARB established protocols and procedures. The results of the California Climate Investments projects will be posted or a link provided to the California Climate Investments website for the Annual Report to the Legislature ([www.caclimateinvestments.ca.gov/annual-report](http://www.caclimateinvestments.ca.gov/annual-report)) and the CARB website for the online map ([www.arb.ca.gov/ccimap](http://www.arb.ca.gov/ccimap)). The information that the public can access will include the project location (e.g., address, census tract), funding amount, GHG emission reductions, co-benefits, and benefits to priority populations.

**Benefits to priority populations.** As described elsewhere in this Plan (see Section IX.B), reporting for projects funded by GGRF through the SADW Fund identify the potential benefits to priority populations. The applicable [benefit criteria tables](#) for

## Appendix E. Greenhouse Gas Reduction Fund Requirements

each project type (e.g., Planning, Technical Assistance and Capacity Building) are used to determine the benefits to priority populations. The priority populations are evaluated based on a project being located within the boundaries of a GGRF disadvantaged or low-income community. An interactive map is available as a resource to determine geographic eligibility for GGRF disadvantaged and low-income communities. This map is available at: [www.arb.ca.gov/cci-communityinvestments](http://www.arb.ca.gov/cci-communityinvestments).

**Project outcome reporting.** State Water Board staff will work with CARB staff to track and report outcomes for projects to support accountability and transparency in communicating the Fund's success. State Water Board staff will select specific projects, in coordination with CARB staff, for which project outcomes will be reported. The project outcomes will be posted to the California Climate Investments website for the Annual Report to the Legislature.

**Opportunities for continued public engagement.** The State Water Board will provide multiple options to enable the public to remain involved and informed about investments (e.g., social media, list serves, Advisory Group meetings) after awards have been made (see Section VI.D).

**GGRF Funding Guidelines Key Item: Establish policies and procedures for project monitoring, accountability, and audits (Section IV.A.4)**

As with the other funding programs it administers, the State Water Board is subject to Legislative and Administration oversight, including audits by the Bureau of State Audits, Department of Finance, other State oversight agencies, or a third-party auditor. The State Water Board will apply its audit policies, and implement procedures to monitor all its funding programs, including projects funded by California Climate Investments and to conduct its own audits, inspections and project or program reviews of funding recipients, both during and after project implementation. Funding agreements that the State Water Board enters into with funding recipients require recipients to make records available, if requested, to support project or program reviews or audits.

**GGRF Funding Guidelines Key Item: Conduct public outreach and encourage community engagement, particularly for priority populations (Section IV.A.5)**

The State Water Board is committed to a robust public outreach and community engagement process. Section VIII.E of the Policy and Section VI.D of this Plan describes community engagement and public outreach activities and approaches.

## Appendix F. List of Programs to Assist Households Supplied by Domestic Wells

Assistance Program					
<b>Self-Help Enterprises Regional Bottled Water Program</b>	The Self-Help Enterprises Regional Bottled Water Program will provide bottled water to households served by public water systems and private household wells, located in the Self-Help Enterprises Service Area (Kern, Kings, Tulare, Fresno, Madera, Merced, Mariposa and Stanislaus), that have urgent drinking water needs.	SB 200 Safe and Affordable Drinking Water	\$ 6,172,264	1000	Kern, Kings, Tulare, Fresno, Madera, Merced, Mariposa and Stanislaus Counties
<b>Community Action Partnership of Madera County (CAPMC) Madera County Wide Emergency Bottled Drinking Water Program</b>	The Program will fund the continuation of the bottled water distribution for residents enrolled in the Household Tanks & Hauled Water Program. It can also fund any other DAC homes in Madera County served by an existing public water system that have been impacted with a contaminated drinking water supply.	SB 200 Safe and Affordable Drinking Water	\$ 115,500	150	Madera County
<b>Tulare Countywide Bottled Water Program</b>	The Tulare Countywide Bottled Water Program provides interim bottled water assistance to households in the County, served by a private domestic well or a public water system, who have urgent drinking water needs.	AB 74, Provision 1	\$ 948,574	600	Tulare County

## Appendix F. List of Programs to Assist Households Supplied by Domestic Wells

Assistance Program					
<b>Rural Community Assistance Corporation (SB108 Drinking Water Well Replacement Program)</b>	The Program provides funding for the replacement of failed drinking water wells for disadvantaged households that are served by domestic wells or for water systems serving disadvantaged communities with fewer than 15 service connections.	SB 108	\$ 1,850,000	30+	Statewide except in Self-Help Enterprises Service Area (Fresno, Kern, Kings, Madera, Mariposa, Merced, Stanislaus, and Tulare)
<b>Self-Help Enterprises Tanks &amp; Hauled Water Program</b>	The Program will fund the continuation of the Tanks & Hauled Water Program which was previously managed by CalOES.	AB 74 Provision 2.6(h)	\$ 2,375,000	250	Kern, Kings, Tulare, Fresno, Madera, Merced, Mariposa and Stanislaus Counties

## Appendix F. List of Programs to Assist Households Supplied by Domestic Wells

Assistance Program					
<b>Regional Private Domestic Water Well Abandonment, Repair, Replacement &amp; Connection Program</b>	The Program will develop and implement a Regional Private Domestic Water Well Abandonment, Repair, Replacement & Connection Program to assist disadvantaged households and state small water systems in Self-Help Enterprises' Service Area. The project will provide grant relief for domestic well abandonment, repair, or replacement, and to connect households to Public Water Systems where possible.	SB 200 Safe and Affordable Drinking Water	\$ 11,353,253	Approximately 167 Water Well repair/replacements , and 33 connections to public water systems	Fresno, Kern , Kings, Madera, Mariposa, Merced, Stanislaus, and Tulare counties
<b>USDA Rural Development Household Water Well System Grants</b>	The Program provides funding to qualified nonprofits and tribes to create a revolving loan fund for eligible individuals who own and occupy a home in an eligible rural area. The fund may be used to construct, refurbish, or service individually owned household water well systems. Terms for the loans include one percent fixed interest rate, 20-year maximum term, and an \$11,000 maximum loan per household.	USDA-federal funds	Varies	varies	<ul style="list-style-type: none"> <li>• Rural areas and towns with populations of 50,000 or less</li> <li>• Tribal lands in rural areas</li> </ul>

## Appendix F. List of Programs to Assist Households Supplied by Domestic Wells

Assistance Program	Description	Funding Program	Approved Funding Amount	Approximate # of Households	Location of Households
<b>USDA Rural Development Single Family Housing Repairs Loans And Grants</b>	The Program, also known as the Section 504 Home Repair program, provides loans to very-low-income homeowners to repair, improve or modernize their homes or grants to elderly very-low-income homeowners to remove health and safety hazards. Maximum loan is \$20,000. Maximum grant is \$7,500. Loans and grants can be combined for up to \$27,500 in assistance.	USDA - federal funds	varies	varies	Generally, rural areas with a population less than 35,000 are eligible.

## Appendix G. List of Programs to Assist Households and Schools whose Tap Water Contains Contaminants

Assistance Program	Description	Funding Program	Approved Funding Amount	Approximate # of Schools/ Households	Location of Schools/ Households
<b>Rural Community Assistance Corporation (RCAC) Statewide Bottled Water for Schools Program</b>	The Statewide Bottled Water for Schools Program is for the purchase and delivery of bottled drinking water for schools serving kindergarten or any of grades 1-12, and preschools and child day care facilities, located on public school property statewide, through the Work Completion Date or until a long-term solution, or other interim solution, is in place for each site, whichever occurs first. The funding provides a maximum of 1/4 gallon per person per school day for up to two years at any one school.	SB 200 Safe and Affordable Drinking Water	\$ 2,500,000	100 Schools	Statewide

## Appendix G. List of Programs to Assist Households and Schools whose Tap Water Contains Contaminants

Assistance Program	Description	Funding Program	Approved Funding Amount	Approximate # of Schools/ Households	Location of Schools/ Households
<b>Community Water Center Central Coast Multi-County Bottled Water Project (Region 3)</b>	The Program will provide bottled drinking water to approximately two hundred and fifty (250) eligible Disadvantaged Households within the jurisdiction of the Central Coast Regional Water Quality Control Board (Regional Board) through the Work Completion Date. To be eligible for Project services, Disadvantaged Households must be served by a private well or small water system with a Contaminated Water Supply and must be located outside of any area already provided bottled drinking water.	SB 200 Safe and Affordable Drinking Water	\$ 909,964	250 households	Santa Cruz, San Benito, San Luis Obispo, Santa Barbara, and portions of Santa Clara, Monterey, and Ventura Counties
<b>Self-Help Enterprises Regional Bottled Water Program</b>	The Self-Help Enterprises Regional Bottled Water Program will provide bottled water to households served by public water systems and private household wells, located in the Self-Help Enterprises Service Area (Kern, Kings, Tulare, Fresno, Madera, Merced, Mariposa and Stanislaus), that have urgent drinking water needs.	SB 200 Safe and Affordable Drinking Water	\$ 6,172,264	1,000 households	Kern, Kings, Tulare, Fresno, Madera, Merced, Mariposa and Stanislaus Counties

## Appendix G. List of Programs to Assist Households and Schools whose Tap Water Contains Contaminants

Assistance Program	Description	Funding Program	Approved Funding Amount	Approximate # of Schools/ Households	Location of Schools/ Households
<b>Self-Help Enterprises Household Solutions Program</b>	<p>The Household Private Wells Assistance Program will conduct outreach to potential households, located in the Self-Help Enterprises Service Area (Kern, Kings, Tulare, Fresno, Madera, Merced, Mariposa and Stanislaus), served by private wells and will conduct well testing and provide interim solutions including point of entry and/or point of use (POE/POU) filtration device to those participating households that have water quality issues. This program has been recently expanded to be able to assist public water systems and state smalls in addition to households served by domestic wells.</p>	SB 200 Safe and Affordable Drinking Water	\$ 14,698,375	1,600 households	Kern, Kings, Tulare, Fresno, Madera, Merced, Mariposa and Stanislaus Counties

## Appendix G. List of Programs to Assist Households and Schools whose Tap Water Contains Contaminants

Assistance Program	Description	Funding Program	Approved Funding Amount	Approximate # of Schools/ Households	Location of Schools/ Households
<b>Drinking Water for Schools Round 2- RCAC</b>	<p>The Drinking Water for School Grant Program will provide assistance to eligible school districts through two nonprofit organizations that will act as Program Administrators. These Program Administrators will develop and implement projects for schools serving disadvantaged communities. The first priority will be to provide interim solutions such as Point of Use treatment to schools with impaired water quality. Projects may also be funded to improve access to drinking water if sufficient budget remains after meeting the water quality impairment needs.</p>	<p>SB 862 (Stats. 2018, ch. 449), then amended by AB 72 (Stats. 2019, ch. 1)</p>	<p>\$ 2,579,000</p>	<p>40 schools</p>	<p>Statewide</p>
<b>Drinking Water for Schools Round 2-Self Help Enterprises</b>	<p>The Drinking Water for School Grant Program will provide assistance to eligible school districts through two nonprofit organizations that will act as Program Administrators. These Program Administrators will develop and implement projects for schools serving disadvantaged communities.</p>	<p>SB 862 (Stats. 2018, ch. 449), then amended by Assembly Bill (AB) 72 (Stats. 2019, ch. 1)</p>	<p>\$ 3,856,000</p>	<p>60 schools</p>	<p>8 counties in San Joaquin valley</p>

<sup>1</sup> Information provided based on the census tract that the benefitting community resides in. CalEnviroscreen data source: OEHHA.ca.gov; Census data source: data.census.gov

\* Service area of the system benefitting from the project overlaps multiple census tracts. Data shown is for the census tract that covers the most service area.

## Appendix I. State Cross-Cutters

All applicable state laws apply to a financial assistance recipient's use of funding provided by the State Water Board. Certain laws apply regardless of funding source. These cross-cutting state laws include, but are not limited to, the following:

- a. The California Environmental Quality Act (CEQA), as set forth in Public Resources Code sections 21000 et seq. and in the CEQA Guidelines at Title 14, Division 6, Chapter 3, Section 15000 et seq.
- b. Water Conservation requirements, including regulations in Division 3 of Title 23 of the California Code of Regulations.
- c. Monthly Water Diversion Reporting requirements, including requirements set forth in Water Code section 5103.
- d. Public Works Contractor Registration with Department of Industrial Relations requirements, including requirements set forth in Sections 1725.5 and 1771.1 of the Labor Code.
- e. Volumetric Pricing & Water Meters requirements, including the requirements of Water Code sections 526 and 527.
- f. Urban Water Management Plan requirements, including the Urban Water Management Planning Act (Wat. Code, § 10610 et seq.).
- g. Urban Water Demand Management requirements, including the requirements of Section 10608.56 of the Water Code.
- h. Delta Plan Consistency Findings requirements, including the requirements of Water Code section 85225 and California Code of Regulations, title 23, section 5002.
- i. Agricultural Water Management Plan Consistency requirements, including the requirements of Water Code section 10852.
- j. Charter City Project Labor Requirements, including the requirements of Labor Code section 1782 and Public Contract Code section 2503.

## Appendix I. State Cross-Cutters

- k. Public agency conflict of interest laws, including the Political Reform Act (Gov. Code, § 81000 et seq.).
- l. The Drug-Free Workplace Act (Gov. Code, §§ 8350-8357.)
- m. State non-discrimination laws. (Gov. Code, § 11135; Cal. Code Regs, tit. 2, § 11140 et seq.)
- n. State prevailing wage laws. Division of Industrial Relations (DIR) requirements may be found at: <http://www.dir.ca.gov/lcp.asp>. For more information, please refer to DIR's Public Works Manual at: <http://www.dir.ca.gov/dlse/PWManualCombined.pdf>.
- o. Union activities (Gov. Code §§ 16645-16649.)

## Appendix J. Metrics Methodology

The following defines the methodology for the interim solution, planning assistance, and long-term solution metrics presented in Section X.D of the Plan. All communities/households are counted toward the interim solution metrics, regardless of the community/household also receiving planning and/or long-term solution assistance. If a community is receiving both planning and long-term solution assistance, the long-term solution assistance would take priority to not duplicate accomplishments.

### **Interim Solutions**

- Identifies the number of number of communities/households, service connections, and population that are receiving interim assistance funding for one of the following categories:
  - Bottled Water – community water systems provided with bottled water
  - Point of Use/Point of Entry Devices –community water systems provided with POU/POE devices
  - Hauled Water – community water systems provided with hauled water
  - Repair – community water systems provided with emergency repair projects
  - Treatment – community water systems provide with treatment repair projects
  - Household Bottled Water – households served by domestic wells or state smalls provided with bottled water
  - Households POU/POE – households served by domestic wells or state small provided with POU/POE devices

### **Planning Assistance**

- Identifies the number of communities, service connections, and population that are benefitting from planning assistance funding for one of the following categories:
  - New Executed Technical Assistance (TA) – new TA work plans to provide a variety of services
  - Full Planning TA – full planning TA projects to support the submittal of a complete application for construction project
  - Executed Planning Agreements – project agreements for the evaluation and development of long term, sustainable solutions
  - Completed Planning Projects – completion of planning project activities
  - Completed TA – completion of TA projects
  - Approved/Executed Administrator Agreements – funding to support the activities of appointed administrators

## Appendix J. Metrics Methodology

### Long-term Solutions

- Identifies the number of communities, service connections, and population that are benefitting from long-term assistance funding for one of the following categories:
  - Executed Construction Agreements – project agreements for the implementation of long term, sustainable solutions
  - Completed Construction Activities – completion of construction project activities
  - New TA-Construction Management/Support – TA projects associated with the actual management of and/or support through an actual construction project
  - Consolidation Complete – completed consolidations, per Division of Drinking Water (includes non-State Water Board funded consolidations)
