Felicia Marcus, Chair
State Water Resources Control Board
1001 I Street
Sacramento, CA 95814**Re: Proposed Final Amendments to the Bay-Delta Plan Environmental Document**

Dear Ms. Marcus,

Since these proposed final amendments fail to address our previously stated concerns, we oppose them and the plan in its entirety.

As set forth in our previous Resolution, you fail to address the fact that the Central Valley has been one of the areas hardest hit by the recent drought. You also fail to take into account the effect this plan in its latest form will have on our large agriculture program in general, and the Irrigation Technician Training (ITT) program in particular since the amount of water being supplied to agricultural uses will be so drastically reduced.

In other words, our nationally acclaimed agricultural program, and our ITT program (which was recently funded by the state in order to further water conservation) will be rendered virtually useless. For these reasons among many others, on behalf of the entire board, we oppose these final amendments since they completely ignore our prior concerns.

Thank you,
