

Although the City of Rolling Hills Estates is still reviewing the Governor's Emergency Mandatory Conservation Directives, we do understand that our City is looped into the Cal Water Palos Verdes service area which has a required 35% reduction for the whole service area (Tier 4) given the entire Palos Verdes Peninsula's overall water usage (includes 4 cities in all). We would like to see our City called out independently to appropriately and fairly identify our reduction target and hope that can be considering during the regulatory drafting.

Should you require any additional information or further clarification, please feel free to contact me.

Sincerely,

Alexa Davis
