Project Description:

The California Department of Transportation (Caltrans) proposes to extend the pavement life and improve ride quality along State Route 247 (SR247), from State Route 62 to 0.4 miles north of Gin Road in San Bernardino County.

Project work includes: (1) Cold planing and overlaying existing SR247 pavement with 0.20-foot rubberized hot mix asphalt-gap graded. Existing pavement distresses will be repaired before overlaying the pavement; (2) constructing shoulder and centerline rumble strips from Post Mile (PM) 0.00 to PM 23.0; (3) constructing shoulder to current Caltrans standards from PM 20.3 to PM 23.0; (4) regrading the roadway to the east

between PM 2.9 and PM 3.0; (5) completing improvements of culvert/drainage including repair of a culvert at PM 3.59, drainage work at PM 0.3 and PM 3.0, and (6) constructing/installing rock slope protection (RSP) and culvert extension at both ends of the Yucca Creek Wash Flood Control Channel (FCC) at PM 0.3. Minor grading will take place to direct the flow of runoff into the FCC; and (6) installing bike lane markings and signs from PM 1.6 to PM 23.0 as part of implementing Caltrans' Complete Streets program.

Work is scheduled to begin sometime between January 2025 and July 2026, and will require approximately one month to complete. When the Project work is complete, any temporarily impacted areas will be returned to pre-Project conditions.
