

SF Bay Water Board Triennial Review - 2024

This Form solicits input regarding the 2024 Triennial Review of the Water Quality Control Plan for the San Francisco Bay Region ("Basin Plan"). Please be aware that the open response questions have a 4000 character limit (including spaces) and make your responses as clear and complete as possible. Regional Water Board staff recommend that submitters first draft their responses in a word processor or similar software, and then copy and paste the text into the Form.

If you need assistance filling out this Form, please contact:

Samantha Harper

(510) 622-2415

samantha.harper@waterboards.ca.gov

Please include the words TRIENNIAL REVIEW (all capitalized) in the subject line of your email. Please note that the same character limits apply to paper and electronic versions. Reference or supporting documents, data, information, or evidence are addressed in the last section of this Form.

This form replaces our past practice of doing a workshop in the spring of the Triennial Review year. This form will not require a formal response to comments. However, your input may be used to alter candidate project descriptions, add new projects to the final list for consideration, and assign a value for the "public support" for each candidate project.

If you need language assistance with this webpage, please contact the Office of Public Participation at (916) 341-5254 or at OPP-LanguageServices@waterboards.ca.gov.

This form will remain open until May 24, 2024 at 5 PM.

* Required

Introduction

1. Who do you represent? *

- Government Agency
- Non-profit organization
- .California Native American Tribe
- Business or Corporation
- Private Individual

2. Organization Name: *

3. Submitter Name: *
