

CALIFORNIA STREAM GAGING PRIORITIZATION PLAN 2022 Final Appendices 1 – 4

Prepared by:
Department of Water Resources, State Water Resources Control Board, Department of
Fish and Wildlife, Department of Conservation — California Geological Survey

Appendices

| | |
|---|-----------|
| Appendix 1 – Data Dictionary | 3 |
| Appendix 2 – Reactivation Gages | 5 |
| Appendix 3 – Upgrade Gages | 27 |
| Appendix 4 – Priority Watersheds | 30 |

Appendix 1 – Data Dictionary

| Parameter | Range | Description |
|-----------------------------|-----------|---|
| HUC12 | | Hydrologic unit code (HUC) size 12, subbasin, 10-40 thousand acres |
| HUC12 name | | Name of the HUC12 |
| HUC10 | | Hydrologic unit code (HUC) size 12, watershed, 40-250 thousand acres |
| HUC10 name | | Name of the HUC10 |
| Tier | 1-3 | Prioritization category number, with 1 being the highest |
| Best in HUC10 | 1 or 0 | 1 indicates that HUC12 watershed is the top score within its HUC10, which comprises several HUC12s; 0 indicates that it is not the top scoring HUC12. |
| Primary Benefit | | Primary benefit based on top score for management criteria. If "multi-benefit", it scores in top 200 in multiple categories or is otherwise known to serve multiple benefits (gages only); if "high combined score" or "combined score", it does not score in the top 200 in any individual categories but the sum of all scores is in the top 200. |
| Ecosystem (Eco) Priority | 1, 0.5, 0 | Score = 1 is rank 1-100; Score = 0.5 is rank 101-200 for ecosystem |
| Water Quality (WQ) Priority | 1, 0.5, 0 | Score = 1 is rank 1-100; Score = 0.5 is rank 101-200 for water quality |
| Water Supply (WS) Priority | 1, 0.5, 0 | Score = 1 is rank 1-100; Score = 0.5 is rank 101-200 for water supply |
| Flood Priority | 1, 0.5, 0 | Score = 1 is rank 1-100; Score = 0.5 is rank 101-200 for flood |
| Reference Priority | 1, 0.5, 0 | Score = 1 is rank 1-100; Score = 0.5 is rank 101-200 for reference |
| Score Summary Priority | 1, 0.5, 0 | Score = 1 is rank 1-100; Score = 0.5 is rank 101-200 for raw score summary |
| HUC12 Proportion Need Gage | 0 - 1 | Proportion of huc12 watershed that is ungaged, by stream segment length |
| Community Present in HUC12 | | Presence of underrepresented community in HUC12 watershed |

FINAL CALIFORNIA STREAM GAGING PRIORITIZATION PLAN
 2022 – APPENDICES 1-4

| Parameter | Range | Description |
|-----------------------------|-------|---|
| Site ID Reactivate | | Recommended Reactivation Gage ID |
| Site Name Reactivate | | Recommended Reactivation Gage Name |
| Site ID Upgrade | | Recommended Upgrade Gage ID |
| Site Name Upgrade | | Recommended Upgrade Gage Name |
| Site ID | | Gage ID number |
| Site Name | | Gage Name |
| Ecosystem Priority Gage | 0, 1 | Score - 1 indicates gage scores above cumulative median in an ecosystem category |
| Water Quality Priority Gage | 0, 1 | Score - 1 indicates gage scores above cumulative median in a water supply category |
| Water Supply Priority Gage | 0, 1 | Score - 1 indicates gage scores above cumulative median in a water quality category |
| Flood Priority Gage | 0, 1 | Score - 1 indicates gage scores above cumulative median in a flood category |
| Reference Priority Gage | 0, 1 | Score - 1 indicates gage scores above cumulative median in a reference category and has potential as a reference site |
| Gage Spatial History Raw | 1-3 | Gage score based on spatial marginal benefit and gage history alone |
| Gage ID (for action) | | Recommended Action Gage ID |
| Gage Name (for action) | | Recommended Action Gage Name |
| Gage Action Type | | Recommended Action Type (Reactivation or Upgrade) |

Appendix 2 – Reactivation Gages
