REVISED (CHANGE IN MEETING TIME)

NOTICE OF OPPORTUNITY FOR PUBLIC COMMENT AND NOTICE OF PUBLIC WORKSHOP

STATE OF CALIFORNIA DEPARTMENT OF TRANSPORTATION (DEPARTMENT) MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4) PERMIT REVISED DRAFT TENTATIVE ORDER

NOTICE IS HEREBY GIVEN THAT the State Water Resources Control Board (State Water Board) will receive written comments on revisions to the draft Municipal Separate Storm Sewer System (MS4) NPDES Permit (Revised Draft Tentative Order) for the California Department of Transportation (Department).

NOTICE IS ADDITIONALLY HEREBY GIVEN THAT the State Water Board will hold a public workshop on the Revised Draft Tentative Order. A quorum of the State Water Board may be present; however, no Board action will be taken. The time and location of the public workshop are:

Wednesday, September 21, 2011
Will not commence before 1:00 p.m.

**Joe Serna Jr. /Cal-EPA Headquarters Building
Coastal Hearing Room
1001 I Street, Second Floor
Sacramento, CA 95814**

BACKGROUND

Discharges of storm water and non-storm water occur throughout the state from the Department's MS4. Before July 1999, these discharges were regulated by individual NPDES permits issued by the California Regional Water Quality Control Boards. On July 15, 1999, the State Water Board issued a statewide permit ([Order No. 99-06-DWQ](#)) which regulated all storm water and certain non-storm water discharges from the Department's MS4. This included all State highways, rights-of-way, facilities, and construction activities. The existing permit (Order No. 99-06-DWQ) will be superseded by a new permit when the Tentative Order is adopted by the State Water Board and approved by the United States Environmental Protection Agency.

The draft Tentative Order differs significantly from Order No. 99-06 in several respects, including:

- Transitioning from a characterization based monitoring and reporting program to a compliance based program.
- Incorporation of Total Maximum Daily Loads and implementation requirements directly into the permit.
- Removal of construction activities from regulation under the permit (now regulated directly under the Construction General Permit).
- A significantly expanded section on Region-specific requirements.
- New requirements for hydromodification, Low Impact Development, and post-construction treatment controls.

A public notice was circulated on January 7, 2011, advising that the draft Tentative Order was available for public review and comment. Written comments on the draft Tentative Order were due by 12 Noon on March 14, 2011. A public hearing on the draft Tentative Order was held on July 19, 2011.

SUBMISSION OF WRITTEN COMMENTS

Written comments should be limited to the revisions made to the draft Tentative Order that was circulated on January 7, 2011, as proposed in the Revised Draft Tentative Order.
