

2nd Hydromodification Seminar & Workshop

"Hydromodification Assessment and Management in CA" - a technical report published April 2012 by the Southern CA Coastal Water Research Project (SCCWRP)

May 9, 2013 – 9am to 4pm
CSUS Office of Water Programs –Modoc Hall
Willow Suite
6000 J Street
Sacramento, CA 95819

The complete report and other information is available on our website, here:

http://www.waterboards.ca.gov/water_issues/programs/stormwater/hydromodification.shtml

What is the College of Storm Water?

The Water Board Academy is a highly successful internal institution that provides technical and leadership development for Water Board employees and our partners. Since its inception in 2003 the Academy has provided over 1,500 training events for 40,000 individuals. In 2010 the Water Board Academy created the College of Storm Water to focus organizational development on topics related to the storm water program. In the past two years the College of Storm Water hosted a series of training events on the new Construction General Permit (inspections, enforcement, lessons learned) and is offering a new Hydromodification Seminar Series along with other classes.

What is the purpose of this seminar series?

The Southern CA Coastal Water Research Project (SCCWRP) hydromodification report contains a lot of technical content that deserves to be fully discussed and vetted by all stakeholders. The seminar series main objective is to provide a venue to distribute and discuss the report content. To support the seminars and the overarching goals of the Water Boards each seminar will include an accompanying workshop. The format will be seminar in the morning and workshop in the afternoon. The seminar's tone is intended to be more academic, with an emphasis on educational outcomes. The purpose of the workshops will be to provide a more open dialog about the policy and implementation issues that are raised at the seminar.

Seminar Agenda (Morning)

Start	Item	Who
9:00 am	Welcome and Introductions	Greg Gearheart (WB)
9:15 am	The Water Board Monitoring Landscape	Eric Berntsen (WB)
9:45 am	Key Recommendations for Hydromodification Monitoring	Eric Stein (SCCWRP)
11:15 am	Seminar Discussion	All
11:45 am	Adjourn Seminar-Lunch	

Workshop Agenda (Afternoon)

Start	Item	Who
1:00 pm	Workshop Purpose	Greg Gearheart and Eric Berntsen
1:15 pm	Importance of Watershed Assessment and Management	Steven Moore, PE (State Water Board Member)
2:00 pm	Monitoring Sediment Transport and Low Flow Thresholds in the San Diego Hydrograph Modification Management Plan	Andy Collison (ESA-PWA)
2:45 pm	Linking Hydromodification Monitoring to the Biology	Pete Ode (CDFW)
3:30 pm	Workshop Discussion and Future Topics	All
4:15 pm	Adjourn Workshop
