Joe Serna Jr. - Cal/EPA Headquarters Building
Coastal Hearing Room
1001 I Street, Second Floor
Sacramento, CA 95814**

BACKGROUND

On April 17, 1997, the State Water Board adopted Water Quality Order 97-03-DWQ for regulation of storm water discharges associated with industrial activity. Water Quality Order 97-03-DWQ has expired but remains in effect until a new industrial general permit is adopted. Staff of the State Water Board initiated an effort to reissue the industrial general permit in 2003. Concerns raised at that time regarding the role of numeric effluent limitations in storm water permits halted this effort.

On June 19, 2006, a panel of storm water experts submitted a report to the State Water Board titled: "The Feasibility of Numeric Effluent Limits Applicable to Discharges of Storm Water Associated with Municipal, Industrial and Construction Activities." The panel's final report is posted on the State Water Board's Web site at:

http://www.waterboards.ca.gov/water_issues/programs/stormwater/numeric.shtml

The State Water Board considered the report's conclusions and recommendations and in January 2011 and July 2012 issued drafts of the industrial general permit for public comment. Many of the comments received on the drafts addressed increased costs and the imposition of numeric effluent limitations.

Based on the previous comments received, the draft permit has been revised. As compared to prior drafts, the July 2013 Draft Industrial General Permit provides a reduced cost of compliance, excludes numeric effluent limitations, and streamlines the regulatory process while protecting water quality.

EX PARTE COMMUNICATIONS

Ex parte communications are allowed in this matter subject to the disclosure requirements of Water Code section 13287. A model disclosure form for any interested person communicating with a State Water Board member regarding this pending action is available

at: http://www.waterboards.ca.gov/laws_regulations/#exparte.

NATURE AND PURPOSE OF HEARING

At the public hearing, State Water Board staff will provide a brief overview of the 2013 Draft Industrial General Permit and will answer any questions by the public. Interested persons will have an opportunity to address the State Water Board. Participants may provide oral comments and evidence to the State Water Board on the 2013 Draft Industrial General Permit at the public hearing. There will be no sworn testimony. To ensure a productive and efficient hearing and to ensure all participants have an opportunity to participate, oral presentations may be time-limited. For other presentation recommendations, please go to: http://www.waterboards.ca.gov/board_info/meetings/board_presentations.shtml at the State Water Board's Web site.

ADDITIONAL STAFF WORKSHOPS AND BOARD ADOPTION MEETING

Staff will conduct two, informal Web-based workshops on the 2013 Draft Industrial General Permit. The Web-based workshops will be at 9:30 a.m. on August 9 and at 1:30 p.m. on August 14, 2013. The purpose of these workshops is to provide rationale for, and answer questions on, the 2013 Draft Industrial General Permit.

Staff expects to submit the final draft industrial general permit to the State Water Board for consideration in January 2014. Public notices regarding the specific times and details for the staff workshops, the specific date for the State Water Board adoption meeting, and any other public notices related to the industrial general permit will be posted at: http://www.waterboards.ca.gov/water_issues/programs/stormwater/industrial.shtml and distributed through the Lyris e-mail list server.

Any person desiring to receive future notices concerning the industrial general permit, including notices of the adoption meeting, must sign up for the Lyris e-mail list. Interested persons are encouraged to subscribe to an email list serve for future notices about the industrial general permit at: http://www.waterboards.ca.gov/resources/email_subscriptions/swrcb_subscribe.shtml, under Water Quality Topics choose Storm Water Industrial Permitting Issues.
