SUBJECT OF WORKSHOP

The purpose of this staff workshop is to receive information and conduct detailed discussions regarding potential amendments or revisions to the southern Delta salinity and San Joaquin River flow objectives included in the 2006 Water Quality Control Plan for the San Francisco Bay/Sacramento-San Joaquin Delta Estuary and their implementation. This revised notice explains the process that will be used at the April 22, 2009, workshop, and identifies potential future meeting dates. These potential dates and specific topics will be discussed and scheduled at the April 22 meeting.

PROCEDURAL MATTERS

After opening remarks from State Water Resources Control Board (State Water Board) staff, participants will be partitioned into smaller breakout groups to facilitate discussion of: 1) southern Delta salinity objectives; 2) San Joaquin River flow objectives; and 3) administrative process. After each session, the entire group will reconvene and discussions will be summarized. Individual parties will have an opportunity for comment at the end of the meeting. A draft agenda is attached and a final agenda will be posted prior to the meeting at: http://www.waterrights.ca.gov/baydelta/wq_controlplanning.html.

¹ The February 13, 2009, staff workshop notice remains in effect except for the changes noted herein.

² A quorum of the State Water Board members may be present at the workshop. No regulatory action will be taken.

POTENTIAL FUTURE MEETINGS

The following is a list of meeting dates that may be used to continue detailed discussions of southern Delta salinity and San Joaquin River flow. All of these dates may not be used, and additional meetings will be scheduled as needed. Specific topics, times, and locations will be noticed prior to the meetings.
