HEAVENLY VALLEY, LIMITED PARTNERSHIP  
390 INTERLOCKEN CRES STE 1000  
BROOMFIELD, CO 80021

Your Permitted A030453 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

### **YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER A030453 FROM MAY 20, 2014 UNTIL NOTIFIED OF AN END DATE.**

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

**PLEASE NOTE: By no later than May 27, 2014 you must complete the enclosed 2014 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water sources; (2) cease diversion under the specified appropriative water right but will use water from your alternate water source(s); or (3) continue diversion under the specified appropriative water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion. In this regard, State Water Board staff may inspect your point of diversion to determine compliance with this Notice.**

**You may also receive other notices pertaining to curtailment or a relaxation of curtailment of your water right based upon other conditions. You cannot commence diversions under your right, if another curtailment is in effect.**

Your <<Interested Party>> \*IP-Notice Only\* contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed.

You are hereby notified that the State Water Resources Control Board has determined that Supplemental Project Water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER <<Interested Party>> \*IP-Notice Only\* BEGINNING MAY 20<sup>th</sup> 2014 UNTIL NOTIFIED OF AN END DATE.**

**PLEASE NOTE: You may also receive other notices pertaining to curtailment or relaxation of curtailment of your water right based upon other condition. You cannot commence diversions under your right, if another curtailment is in effect.**

If you plan to use water during the water diversion curtailment period, you must arrange to obtain an alternate source of water such as ground water or contract (purchased) water from agencies that have available water.
