ENVIROSTOR

- DTSC Portal
- Information on state wide sites where hazardous substances were released.
- Brownfields database.
- Property deed restrictions search.
- Risk characterization information.
- Intuitive map based interface (GIS backbone).
- Consultants reports downloads.
- Future capability: Analytical data submission.
- Data sharing with other CalEPA databases.

[REPORT TIPS](#)

Find Cleanup Sites

This web page allows you to search for properties regulated by the DTSC's Site Mitigation and Brownfields Reuse Program where extensive investigation and/or cleanup actions are planned or have been completed. "Reports" and "Tools" (left sidebar) provide information on ALL sites within the EnviroStor database. If you are looking for a specific site, use the "Basic Site Search".

1. Enter a City, Zip Code **OR** County in California:

LEAVING A FIELD BLANK MATCHES ANY ENTRY FOR THAT FIELD

CITY:	<input type="text"/>
ZIP:	<input type="text" value="94612"/>
COUNTY:	<input type="text"/>

2. Include the following types of Cleanup Sites:

- FEDERAL SUPERFUND SITES (NPL)
- STATE RESPONSE SITES
- VOLUNTARY CLEANUP SITES
- SCHOOL CLEANUP SITES

3. Display Results:

- LISTING OF SITES
- ON MAP

SITE HISTORY

The Site was formerly an apartment complex in the Acorn housing project from the 1960s to 1999. Prior to that, the Site was occupied by single family homes from 1900 to the 1960s. Chlordane was the main chemical of concern in soil around the former building foundations. East Bay Habitat removed approximately 1,025 tons of soil classified as a hazardous waste and approximately 1,755 tons of nonhazardous soil from the Site to reduce chlordane and lead levels to acceptable levels. East Bay Habitat has developed this site into affordable housing.

COMPLETED ACTIVITIES

<u>DOCUMENT TYPE</u>	<u>DATE COMPLETED</u>	<u>COMMENTS</u>
Preliminary Endangerment Assessment Report	3/14/2005	Confirmation samples indicated that chlordane and lead were not found above their site cleanup goals (370 ug/kg and 261 mg/kg, respectively). East Bay Habitat had removed approximately 1,025 tons of excavated soil and disposed of it at an offsite Class I disposal facility. Approximately 1,755 tons of excavated soil was excavated and disposed of at an offsite Class II disposal facility.
Voluntary Clean-up Agreement	6/1/2004	Signed Voluntary Cleanup Agreement with East Bay Habitat for Humanity to review site characterization and cleanup actions they had taken independently.
