

STATE WATER RESOURCES CONTROL BOARD  
RESOLUTION NO. 75-16

DIRECTING AMENDMENT OF STANDARD PERMIT CLAUSE 4(a) TO  
CONFORM TO AMENDMENT OF SECTION 761(a) OF TITLE 23,  
CALIFORNIA ADMINISTRATIVE CODE

WHEREAS:

1. Standard Permit Clause 4(a), which is included in all water rights permits, specifies the Board's continuing authority to which all rights and privileges granted by the permit, and by any license issued pursuant thereto, are subject.
2. The language of Standard Permit Clause 4(a) is based verbatim upon the wording of Section 761(a) of Title 23, California Administrative Code.
3. The Board has adopted an order amending said Section 761(a) by inserting a citation to the Water Code section which is implemented by Section 761(a).

NOW THEREFORE BE IT RESOLVED, that the State Water Resources Control Board does direct that Standard Permit Clause 4(a) be amended to read as follows:

Pursuant to California Water Code Section 100 all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

This continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to minimizing waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement such programs as (1) reusing or reclaiming the water allocated; (2) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (3) suppressing evaporation losses from water surfaces; (4) controlling phreatophytic growth; and (5) installing,

maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.
