

STATE WATER RESOURCES CONTROL BOARD
RESOLUTION NO. 78-77

BOARD ACCEPTANCE OF THE "HEALTH ASPECTS OF GROUND-
WATER RECHARGE WITH RECLAIMED WATER IN MONTEBELLO
FOREBAY" STUDY PHASE I - REPORT BY COUNTY SANITATION
DISTRICTS OF LOS ANGELES COUNTY

WHEREAS:

1. On behalf of the State Board, the Executive Director executed Standard Agreement No. W6-164-40 and its Amendment No. 1 with County Sanitation Districts of Los Angeles County for a total of \$45,000 for Phase I of the "Health Aspects of Groundwater Recharge with Reclaimed Water in Montebello Forebay" study. The purpose of Phase I was to develop a detailed workplan for the proposed study and to prepare a proposal to seek federal funding for the work.
2. County Sanitation Districts of Los Angeles County completed the work funded by the State Board and submitted a report as required by Standard Agreement No. W6-164-40. The report presents an analysis of the feasibility of conducting a major investigation involving four interrelated areas--influence of reclaimed water on potable water supplies, water quality characterization, toxicology and epidemiology. The Phase I results indicate the first three can be incorporated into a comprehensive study, while the epidemiology study needs further evaluation of its feasibility. The procedures to be used and the parameters to be measured in the future work are presented in the report along with estimated funding requirements.
3. The first three components--influence of reclaimed water on potable water supplies, water quality characterization and toxicology--have been incorporated into the plan of study for the regional reuse study for the Los Angeles and Orange County areas. This study is being funded through the Clean Water Grants program.
4. The epidemiology component has been developed into a research proposal that will be funded by a federal research and demonstration grant to the County Sanitation Districts.

THEREFORE BE IT RESOLVED:

That Phase I report for "Health Aspects of Groundwater Recharge with Reclaimed Water in Montebello Forebay" study is accepted in fulfillment of the Standard Agreement No. W6-164-40 with County Sanitation Districts of Los Angeles County.

CERTIFICATION

The undersigned, Executive Director of the State Water Resources Control Board, does hereby certify that the foregoing is a full, true, and correct copy of a resolution duly and regularly adopted at a meeting of the State Water Resources Control Board held on December 21, 1978.

Executive Director
(C. Whitney)
