

**STATE WATER RESOURCES CONTROL BOARD  
BOARD MEETING SESSION – OFFICE OF RESEARCH, PLANNING, AND PERFORMANCE  
AUGUST 19, 2014**

**ITEM 3**

**SUBJECT**

CONSIDERATION OF A PROPOSED RESOLUTION TO UPDATE THE WATER BOARDS' MISSION STATEMENT TO REFLECT EXPANDED SCOPE OF PUBLIC HEALTH RESPONSIBILITIES WITH THE TRANSFER OF THE STATE'S DRINKING WATER PROGRAM TO THE STATE WATER BOARD ON JULY 1, 2014

**DISCUSSION**

On July 1, 2014, the Drinking Water Program from the California Department of Public Health (CDPH) was transferred to the State Water Board to best ensure that drinking water programs are coordinated with other water quality programs, and that the State Revolving Funds are operated in a coordinated, efficient, and effective manner. While the Water Boards have a role in protecting all waters of the State for their beneficial uses, including municipal and domestic supply (i.e., sources of drinking water), the transfer of the State's Drinking Water Program to the State Water Board enhances the Water Boards' role in public health protection. It is, therefore, appropriate that the Water Boards' mission statement be clarified and updated to reflect this expanded scope of Water Board public health responsibility.

***Water Boards' current mission statement:*** To preserve, enhance, and restore the quality of California's water resources, and ensure their proper allocation and efficient use, for the benefit of present and future generations.

**POLICY ISSUE**

None. The update to the mission statement does not set any specific policy.

**FISCAL IMPACT**

None.

**REGIONAL BOARD IMPACT**

None.

**STAFF RECOMMENDATION**

Staff recommends that the State Water Board adopt the draft resolution.

State Water Board approval by resolution on this item will update the mission statement to reflect the expanded scope of the Water Boards' public health protection responsibilities, which occurred with the transfer of the State's Drinking Water Program from CDPH to the State Water Board on July 1, 2014.
