

Change Sheet for Item #9:
Consideration of a Proposed Resolution Adopting the
Proposition 84 Storm Water Grant Program Guidelines

Page 8 (Section VI.C – Second Bullet):

- ❖ Complying with TMDL requirements established pursuant to section 303(d) of the CWA (33 U.S.C. Sec. 1313[d]) and Division 43 of the PRC where pollutant loads have been allocated to storm water, including, but not limited to, metals, pathogens, and trash pollutants. Up to \$10 million, total from Round 1 and Round 2, may be used for storm water related TMDL projects. Preference will be given to TMDLs that cannot be addressed through a LID approach. ~~For the purposes of California law, a~~ An established TMDL is one that has been adopted by both the applicable Regional Water Board and the State Water Board, has been approved by the Office of Administrative Law and paid the appropriate fees to the Department of Fish and Game. **Additionally, TMDLs developed by and subsequently adopted by the United States Environmental Protection Agency (USEPA) shall be considered established for purposes of the SWGP.**

Blank page (page 28) deleted. Subsequent page numbers and the Table of Contents will be updated to reflect the correct page numbers.

Pages 30 – 34 (Appendix D – Concept Proposal Application and Evaluation Criteria – Header):

APPENDIX D-12: CONCEPT PROPOSAL APPLICATION EVALUATION CRITERIA

Page 32 (Appendix D-1 – Concept Proposal Application):

Q18. Identify any risks to water quality associated with the proposed approach described in Question 17~~6~~.

Page 77 (Appendix J – Definitions):

Total Maximum Daily Load (TMDL) – a written plan that describes how an impaired water body will meet water quality standards. It contains: (1) a measurable feature to describe attainment of the water quality standard(s); (2) a description of required actions to remove the impairment; and, (3) an allocation of responsibility among dischargers to act, either in the form of actions or through the establishment of water quality conditions for which each discharger is responsible. An established TMDL is one that has been adopted by both the applicable Regional Water Board and the State Water Board, has been approved by the Office of Administrative Law and paid the appropriate fees to the Department of Fish and Game. **Additionally, TMDLs developed by and subsequently adopted by the United States Environmental Protection Agency (USEPA) shall be considered established for purposes of the SWGP.**
