

Biography

Stewart W. Black, P.G.

Department of Toxic Substances
Control

Stewart W. Black currently serves as the Deputy Director of the Brownfields and Environmental Restoration Program for the Department of Toxic Substances Control (DTSC). In this capacity, Mr. Black is responsible for regulatory oversight and cleanup at hazardous waste and brownfields sites throughout California. He has a bachelor's degree in geology with over 30 years of experience in the field of environmental protection and geology. Mr. Black has directed complex projects in both the public and private sectors. He has worked with municipalities, schools, the Department of Defense, the United States Environmental Protection Agency, and brownfield project proponents to oversee cleanup activities that have restored contaminated sites to their beneficial and economic use. These projects improved both public health and the environmental vitality of communities throughout the state.

During his 13 years with DTSC, Mr. Black has served as Deputy Director, Assistant Deputy Director, Branch Chief and Unit Chief. Mr. Black's experience in both the public and private sectors has given him a unique perspective on the cleanup of hazardous waste and brownfields sites which he brings to the Deputy Director position.
