

# Draft Storm Water Resource Plan Guidelines

*Implementing Water Code Amendments per Senate Bill 985*  
(Project 4 of the Storm Water Strategic Initiative)

- Recognizes storm water as a resource
- Requires public agencies to develop watershed-based Plan prior to receiving bond funds for storm water projects
- Emphasizes multiple-benefit projects
- Requires Plan incorporation into Integrated Regional Water Management Plans

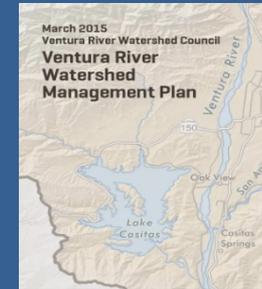

## **State Water Board required to provide guidance on:**

- Coordination and collaboration
- Geographic scale of watershed
- Metrics-based analysis
- Project prioritization and implementation,
- Stakeholder participation

# Draft Storm Water Resource Plan Guidelines

## Use of Existing planning documents

- Urban Watershed Management Plans
- Groundwater Management Plans
- Salt and Nutrients Management Plans
- Existing IRWMP components

## Joint outreach with Prop 1 Storm Water Funding Guidelines

- Stakeholder Input
- Public comment period
- Staff-level workshops
- Board workshop

***Proposed Board Adoption: December 1, 2015***
