Subject: Toxic water

To whom it may concern,

I am writing to request that immediate and forceful action be taken to clean up agricultural runoff. This is an extremely serious problem that demands a policy with enough power to be effective. Often policies are too weak or contain loopholes that allow those that need to be regulated to slip through. For once lets not let powerful agricultural interests supersede the well being of the public at large. Please, for the good of your own families that may live here, and for your neighbors, make our water safe!
