NOTICE OF APPLICABILITY, RESOLUTION NO. R5-2003-0106, MOORE FAMILY VINEYARDS, LAKE COUNTY

Staff has received your \$400 filing fee and has reviewed your 9 August 2003 Report of Waste Discharge (RWD) for coverage under Resolution No. R5-2003-0106. Our review finds the RWD to be complete.

Discharge Description

The Discharger owns and operates Moore Family Vineyards at 11990 Bottlerock Road in Kelseyville, Lake County. The Discharger estimates that approximately 72 tons of grapes per year will be crushed, generating approximately 70,000 gallons of wastewater. Winery wastewater will be collected in floor and trench drains at production areas within the winery and a cave, and at a covered processing pad located outside the winery building. The wastewater will gravity flow to a collection sump and then pumped through a flow meter into two 5,000-gallon aboveground holding tanks. The wastewater will then be hauled by Roto Rooter to Lake County Sanitation and Sewer for appropriate disposal. The Discharger indicates that approximately 50 cubic yards of solids (i.e. seeds, skins, pomace, etc.) will be generated annually. The solids will be placed in a dumpster located on-site and transported to the Lake County Landfill for disposal.

Conditional Waiver

Based on the information submitted in the RWD, the discharge as described above satisfies the general and specific conditions of Resolution No. R5-2003-0106 for the current amount of grapes crushed and wastewater produced. Therefore, this letter serves as formal notice that Resolution No. R5-2003-0106 is applicable and waste discharge requirements for this facility are waived.

Enclosed is a copy of Resolution No. R5-2003-0106 and the associated monitoring and reporting program. As described therein, an annual report must be submitted by **1 February of each year**. If the discharge violates the terms or conditions of the waiver, the Regional Board may take enforcement action, including assessment of administrative civil liability. If the methods of winery wastewater and solids disposal change from those described in the RWD, you must submit a new report of waste

discharge. Please note that the waiver will expire on 11 July 2008, at which time you must submit a new RWD with filing fee to renew the waiver or you must cease the discharge.

If you have any questions regarding this letter, please do not hesitate to call Guy Childs at (916) 255-3048.
