Subject: Rubicon Trail Cleanup and Abatement Order

Dear California Water Board,

I support the Rubicon Trail Cleanup and Abatement Order as written. Please pass it as is. Do not weaken it or delay its implementation. This is an action that is already long overdue. We all rely, both directly and indirectly, on clean water. What has been happening on the Rubicon Trail is a travesty and makes a mockery of our environmental laws.

Thank you.

Al Ludtke
