Gentlemen:

Determination on Stream Alteration Notification No. R4-2001-0122  
 Bass Lake - Madera County

This is in response to the notification package that you submitted to the Department of Fish and Game (Department). Based on the Department's review of the information you submitted, consultation with you regarding the scope of proposed work, and our knowledge of the project site, we have determined that there is no existing fish or wildlife resource that will be substantially adversely affected by your project, if it is constructed in the manner described in your notification. We have no project modifications or recommendations for protective measures to propose at this time. However, your proposed project activity must be approved by Pacific Gas and Electric Company, and shall conform to the terms and conditions specified in Pacific Gas and Electric Company's "Bass Lake Shoreline and Water Surface Management Plan." If your project is changed from the one proposed in your notification, you should consider separate notification regarding the new project.

You may begin your project or activity if you have obtained all other necessary permits and have fulfilled California Environmental Quality Act (CEQA) requirements. You are responsible for complying with all applicable local, state, and federal laws, in completing your project or activity.

If you have any questions regarding this matter, please contact Mr. Craig Kindlin at the above telephone number or address. Thank you for your cooperation.

Sincerely,

*for*   
 W. E. Loudermilk  
 Regional Manager
