

HEARING OF THE CENTRAL VALLEY REGIONAL WATER QUALITY CONTROL
BOARD

PROPOSED TECHNICAL AND MONITORING REPORT ORDER R5-2010-XXXX
FOR THE CENTRAL MINE, ET AL.
COLUSA COUNTY, CALIFORNIA

**SUBMISSION OF COMMENTS
BY
DESIGNATED PARTY THE HELEN W. HOLLIDAY FOUNDATION,
INCORPORATED**

Please consider the following to be the comments of The Helen Holliday Foundation, Inc. to the public hearing response submitted by the prosecution team herein.

It would appear from said documents on file herein that the prosecution team has named The Helen Holliday Foundation as a discharger without having any evidence that mining activities actually took place on property formerly owned by the Foundation. Accordingly, the Foundation should be dismissed from these proceedings unless and until there is some actual evidence that could lead a reasonable person to assume that the Foundation might be a discharger.

Respectfully Submitted,

NEWCOMBE, REDMAN, ROSS &
NEWCOMBE, P.C.
