Subject: SRCSD Tentative (draft) Permit

To Whom It May Concern:

I would like to register my dissatisfaction with the tentative permit that would result in the region paying around 2 Billion to SRCSD wastewater facility. The city of Elk Grove has been hit very hard these last few years with the economy. The company I work for had around 260 employees, now we are down to 180 employees. Each of these employees have for the last three years taken furlough days, which we all know mean less pay. This draft would drive anyone wishing to start a business here in Sacramento to start it somewhere else and the people left here cannot afford to pay any additional increases in services. This continued raising of rates has to stop.
