Subject: Bear Valley Water District

Dear Mr. Marshall,

I am a Bear Valley Water District ratepayer. This letter is to express my strong support for the NPDES permit draft requiring secondary treatment. Bear Valley has very unique characteristics and discharge to surface waters likely only under extreme conditions. Our effluent is already substantially tertiary under current conditions. It is the stated policy of our District to discharge only in emergencies. There has been no discharge in over ten years !! I strongly support secondary treatment as the basis for issuing the current NPDES permit,

Sincerely yours,

Susan C. Garratt
