Subject: Status of Clarifiers/Holding Basin Waste Disposal

Jeff,

Please let me know the status of stockpiled wastes that were removed from the clarifiers and holding basins at the Winemucca site in Anderson. Has any material (excluding black liquor) been removed from the site? If not, where and when will the material be disposed? Also, do you know the status of the other hazardous materials/hazardous waste that were stored on site?

Thanks for looking into this. We plan to perform a site inspection soon.
