Hi Adam,

The following document in the individual ILRP has a link to the UC Farm Water Quality Plan:

http://www.waterboards.ca.gov/centralvalley/water_issues/irrigated_lands/long_term_program_development/individual_growers_wdrs/ilrp_individual_grows_draft_mrp_att_b.pdf

The link used in the above document on page 8 is:

<http://groups.ucanr.org/wqfsconf/files/45002.pdf>

This link is no longer active. I inquired with our folks at UC. The document can be found at this link:

<http://ucce.ucdavis.edu/files/repositoryfiles/8332-54334.pdf>

You may want to update the draft document (and any others that are using the outdated link) and/or put a note on the website.

Have a good weekend,
Thomas
