RECEIVED
DEC 30 2008
RWQCB-CVR
FRESNO, CALIF.

December 23, 2008

California Regional Water Quality Control Board
Central Valley Region
Attention: Ms. Jill Walsh
1685 E Street
Fresno, CA 93706-2020

Subject: Malaga County Water District
Notice of Violation
Administrative Civil Liability Complaint

Dear Ms. Walsh:

The Malaga County Water District (District) acknowledges the violations that are identified in the Notice of Violation dated July 10, 2008. The District continues to work toward consistent compliance with various improvements and operational adjustments in the District.

The District proposes that it is allowed to enter into settlement discussions with the RWQCB and that the penalty may be applied toward compliance projects. The proposed compliance projects include:

a) UV disinfection project to reduce the electroconductivity of the effluent. The project would eliminate chlorination and dechlorination. The project has recently been awarded (Please see the attached Notice of Award). The project has already been proposed and accepted in the ACL settlement presently in place. The expenditures of the District will greatly exceed that existing settlement with the completion of this project. The project includes continuous monitoring of Ec, pH, and turbidity to generate an alarm to the District staff prior to reaching the effluent limits for said constituents.
b) Installation of secondary clarifier equipment in Clarifier No. 2. The clarifier is not presently in service and this reduces the effectiveness of the treatment process when the District receives high influent flows. The improvements to the clarifier will enable the tertiary filter to be more effective and consistent.(see attached plans)
c) Construction of additional improvements at the Dissolved Air Flotation Clarifier. The District had proceeded with improvements during the past year; however, the leaks from the structure have not been addressed completely. The proposed

APPROVED
Supervising Engineer

project would enable placing the DAF back on line and thereby improving the treatment effectiveness. (see attached plans)

d) The District has recently complete improvements to Disposal Pond No. 5, which will improve disposal capacity on site. The improvements are a first step toward relieving the reliance of discharge to the Central Canal. This reduced reliance may enable temporary by-pass of effluent that does not meet all requirements, to the headworks for additional treatment. The present limitations to disposal capacity do not allow the District that flexibility in its operations.

Please contact the District if additional information is required or if you have any questions.

Sincerely,

Russ Holcomb
General Manager

cc: Provost & Pritchard Engineering, Michael Taylor
Costanzo & Associates, Neal Costanzo

WAIVER OF 90-DAY HEARING REQUIREMENT FOR ADMINISTRATIVE CIVIL LIABILITY COMPLAINT

By signing this waiver, I affirm and acknowledge the following:

1. I am duly authorized to represent Malaga County Water District (hereinafter "Discharger") in connection with Administrative Civil Liability Complaint R5-2008-0583 (hereinafter the "Complaint");

2. I am informed that California Water Code section 13323, subdivision (b), states that, "a hearing before the regional board shall be conducted within 90 days after the party has been served" with the Complaint;

3. I hereby waive any right the Discharger may have to a hearing before the California Regional Water Quality Control Board, Central Valley Region (Central Valley Water Board) within ninety (90) days of service of the Complaint; and

4. ☐ ***(Check here if the Discharger will waive the hearing requirement and will pay the fine)***

   a. I certify that the Discharger will remit payment for the civil liability imposed in the amount of **nine thousand dollars ($9,000)** by check, which contains a reference to "ACL Complaint R5-2008-0583" made payable to the "State Water Pollution Cleanup and Abatement Account." Payment must be received by the Central Valley Water Board by **30 December 2008** or this matter will be placed on the Central Valley Water Board's agenda for adoption as initially proposed in the Complaint.

   b. I understand the payment of the above amount constitutes a settlement of the Complaint, and that any settlement will not become final until after the 30-day public notice and comment period mandated by Federal regulations (40 CFR 123.27) expires. Should the Central Valley Water Board receive new information or comments during this comment period, the Central Valley Water Board's Assistant Executive Officer may withdraw the complaint, return payment, and issue a new complaint. New information or comments include those submitted by personnel of the Central Valley Water Board who are not associated with the enforcement team's issuance of the Complaint.

   c. I understand that payment of the above amount is not a substitute for compliance with applicable laws and that continuing violations of the type alleged in the Complaint may subject the Discharger to further enforcement, including additional civil liability.

-or-

5. ☑ ***(Check here if the Discharger will waive the 90-day hearing requirement, but will not pay at the current time. The Central Valley Water Board must receive information from the Discharger indicating a controversy regarding the assessed penalty at the time this waiver is submitted, or the waiver may not be accepted.)*** I certify that the Discharger will promptly engage the Central Valley Water Board staff in discussions to resolve the outstanding violation(s). By checking this box, the Discharger is *not* waiving its right to a hearing on this matter. By checking this box, the Discharger requests that the Central Valley Water Board delay the hearing so that the Discharger and Central Valley Water Board staff can discuss settlement. It remains within the discretion of the Central Valley Water Board to agree to delay the hearing. A hearing on the matter may be held before the Central Valley Water Board if these discussions do not resolve the liability proposed in the Complaint. The Discharger agrees that this hearing may be held after the 90-day period referenced in California Water Code section 13323 has elapsed.

6. If a hearing on this matter is held, the Central Valley Water Board will consider whether to issue, reject, or modify the proposed Administrative Civil Liability Order, or whether to refer the matter to the Attorney General for recovery of judicial civil liability. Modification of the proposed Administrative Civil Liability Order may include increasing the dollar amount of the assessed civil liability.

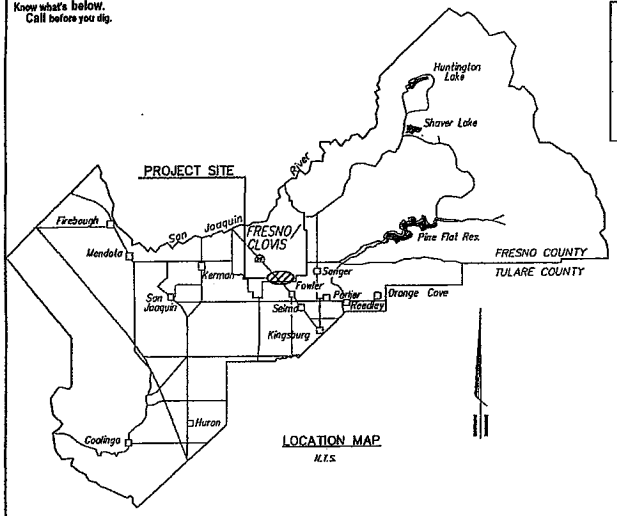
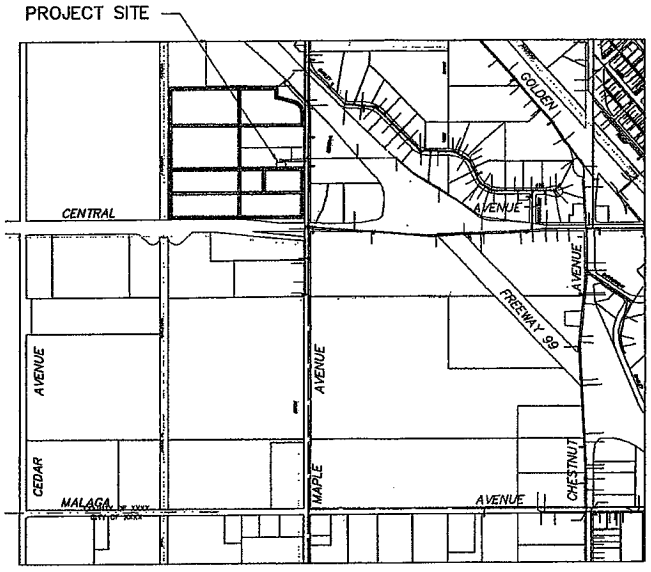
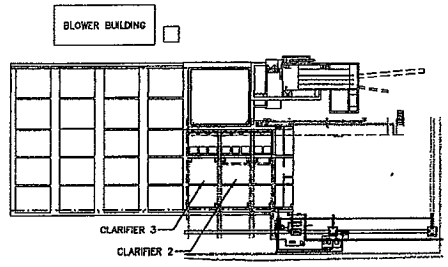
SECONDARY CLARIFIER REPLACEMENT IMPROVEMENTS



LOCATION MAP
N.T.S.



VICINITY MAP
N.T.S.



PLANT LOCATION MAP
N.T.S.

GENERAL NOTES

1. MCWD (559)485-7353 shall be contacted at least 48 hours prior to commencement of work on or near existing District facilities.
2. Used material, rejects, misfits, or seconds, etc. are not acceptable for use on MCWD facilities.
3. All construction shall be in conformance with these plans, project specifications and MCWD specifications.
4. Contractor shall field verify the horizontal and vertical locations of all existing facilities prior to commencing work. Contractor shall make Engineer aware of any discrepancies.
5. All steel pipe and fittings shall be furnished with a shop applied high solids epoxy coating on the interior and exterior, unless otherwise indicated. All other exposed steel shall be painted with a pre-treatment primer, an undercoat and a final coat of paint in accordance with MCWD specifications.
6. All construction shall be performed in accordance with applicable health and safety laws of the State of California and CAL/OSHA standards.
7. Contractor will be responsible for the repair of all pipeline cracks, which develop during construction of improvements affecting existing facilities.
8. All excess material and/or debris shall be removed upon completion of installation.
9. Contractor shall be responsible for providing adequate dust control at all times.

CONSULTING ENGINEERS AND LAND SURVEYORS OF CALIFORNIA

Construction Contractor agrees that in accordance with generally accepted construction practices, construction Contractor will be required to assume sole and complete responsibility for job site conditions during the course of construction of the project, including safety of all persons and property, that this requirement shall be made to apply continuously and not be limited to normal working hours, and construction Contractor further agrees to defend, indemnify and hold design professional harmless from any and all liability, real and alleged, in connection with the performance of work on this project, excepting liability arising from the sole negligence of design professional.

SPECIAL NOTE

Where underground and surface structures are shown on the plans, the locations, depth and dimensions of structures are believed to be reasonably correct, but are not guaranteed. such structures are shown for the information of the Contractor, but information so given is not to be construed as a representation that such structures will, in all cases, be found where shown, or that they represent all of the structures which may be encountered.

SITE SAFETY AND PROTECTION NOTES

The duty of the Engineer, Owner or its agents to conduct construction review of the Contractor's performance and the undertaking of inspections or the giving of instructions as authorized herein is not intended to include review of the adequacy of the Contractor's safety measures in, on, or near the construction site and shall not be construed as supervision of the actual construction nor make the Engineer, Owner or its agents responsible for providing a safe place for the performance of work by the Contractor, subcontractors, or suppliers, or for access, visits, use, work, travel or occupancy by any person.

The Contractor shall have at the work site, copies or suitable extracts of Construction Safety Orders, issued by Cal-OSHA. He shall comply with provisions of these and all other applicable laws, ordinances and regulations. The Contractor must comply with provisions of the safety and health regulations for construction, promulgated by the Secretary of Labor under Section 107 of the Contract Work Hours and Safety Standards Act, as set forth in Title 29 C.F.R.

To protect the lives and health of his employees under the Contract, the Contractor shall comply with all pertinent provisions of the "Manual of Accident Prevention in Construction" issued by the Associated General Contractors of America, Inc., and shall maintain an accurate record of all cases of death, occupational disease, and injury requiring medical attention or causing loss of time from work, arising out of and in the course of employment or work under the Contract.

The Contractor alone shall be responsible for the safety, efficiency, and adequacy of his facilities, appliances, and methods and for any damage, which may result from their failure or their improper construction, maintenance or operation.

The Contractor agrees that it shall assume sole and complete responsibility for job site conditions during the course of construction of this project, including safety of all persons and property; that this requirement shall apply continuously and not be limited to normal working hours; and that the Contractor shall defend, indemnify and hold the Owner, Provost & Pritchard Engineering Group, Inc., and their respective agents harmless from any and all liability, real or alleged, in connection with the performance of work on this project, excepting for liability arising from the sole negligence of Owner, Engineer, or their respective agents.

The Owner and its agents' site responsibilities are limited solely to the activities of their employees on site. These responsibilities shall not be inferred by any party to mean that the Owner or its agents have responsibility for site safety. Safety in, on, or about the site is the sole and exclusive responsibility of the Contractor alone. The Contractor's methods of work performance, superintendence and the Contractor's employees, and sequencing of construction are also the sole and exclusive responsibilities of the Contractor alone.
