

**LATE REVISIONS
CITY OF JACKSON
WASTEWATER TREATMENT PLANT
AMADOR COUNTY
NPDES Permit Renewal (NPDES NO. CA0079391)
Regional Water Quality Control Board, Central Valley Region
Board Meeting – 5 December 2013
ITEM # 12**

1. Attachment F – Fact Sheet. Facility Information. Table F-1.

Modify Table F-1 to add Chief Plant Operator as an authorized person to sign and submit reports, as shown in underline format below:

Authorized Person to Sign and Submit Reports	Michael Daly, City Manager, (209) 233-1646 <u>or</u> <u>Eric Neuschmid, Chief Plant Operator, (209) 223-1607</u>
---	---

2. Response to Comments. The Oaks Community Association (TOCA) Comment No. 1. Response, Sentence 6.

Modify the Response to remove the current nitrate plus nitrite discharge level because of a calculation error in the Response, Sentence 6, as shown in strikethrough format below:

RESPONSE: ... In addition, the City is in the process of implementing upgrades that will further reduce the discharge of nutrients from current levels (proposed monthly NPDES Permit limit for nitrate plus nitrite is 10 mg/L; current the maximum daily discharge level is concentration during 2012 was 24.127.4 mg/L [2012 average]). ...
