

LATE REVISIONS
Regional Water Quality Control Board, Central Valley Region
Board Meeting – 7 February 2014
ITEM # 9 and #23 (a, d, and e)

Late Revisions recommended for the following proposed NPDES permit renewals:

- **Item #23a** – Calaveras County Water District and Sierra Golf Management Corporation, Forest Meadows Wastewater Reclamation Plant, Calaveras County (NPDES CA0085278)
- **Item #23d** – California Department of Corrections and Rehabilitation, Deuel Vocational Institution, San Joaquin County (NPDES CA0078093)
- **Item #23e** – City of Placerville, Hangtown Creek Water Reclamation Facility, El Dorado County (NPDES CA0078956)
- **Item #9** – City of Lincoln, Wastewater Treatment and Reclamation Facility, Placer County (NPDES CA0084476)

1. Fact Sheet – Determining the Need for WQBELs (Section IV.C.3.)
Constituents with Reasonable Potential, Pathogens

Modify section IV.C.3 (Constituents with Reasonable Potential, Pathogens, subsection (b) RPA Results) to remove the language in paragraph four as shown in strikethrough format below:

Although the Discharger provides disinfection, inadequate or incomplete disinfection creates the potential for pathogens to be discharged ~~and provides the basis for the discharge to have a reasonable potential to cause or contribute to an exceedance of the Basin Plan's narrative toxicity objective.~~ Therefore, the Central Valley Water Board finds the discharge has reasonable potential for pathogens and WQBELs are required.
