Thanks Laura. I understand that we will be meeting on Friday afternoon. Currently, California Sprouts is required to submit a response by August 15 that explains violations that occurred, and include a discussion regarding actions that have been or will be taken to prevent late violations and MRP violations in future reports. Mr. Sholl has been giving this much thought, and this is one of the topics we would like to discuss with you all at the meeting on Friday. However, considering that the meeting and the need to submit the follow up response letter are occurring on the same day, we respectfully request that the Regional Board extend the time for a responsive submittal until August 20, 2014. That will provide us with time to prepare a proper response that includes information gained at our meeting on Friday.

Please let us know if you will be able to accommodate this request.

Thank you again.

Tess Dunham
