

**Proposed revisions to Waste Discharge Requirements for
Growers within the Eastern San Joaquin River Watershed
that are Members of the Third-party Group R5-2012-0116-R1**

WASTE DISCHARGE REQUIREMENTS

Page 24, first sentence in section VII.B.2. *All Members in High Vulnerability Areas (Surface/Groundwater)*, revise as follows:

By 1 ~~March~~ May 2014, all Members within a high vulnerability area must prepare their Farm Evaluation and submit it to the third-party. An updated Farm Evaluation must be prepared and submitted to the third-party by 1 March annually thereafter. ...

ATTACHMENT B – MONITORING AND REPORTING PLAN

Page 20, section V.C. Monitoring Report, additional explanation to the end of the first paragraph in the section:

The Monitoring Report shall be submitted by 1 May every year, with the first report due 1 May 2014. The report shall cover the monitoring periods from the previous hydrologic water year. A hydrologic water year is defined as 1 October through 30 September. The report shall include the following components [the monitoring report components for the first report does not include Report Component (18), which shall be due by 1 July 2014]:

Page 21, section V.C. Monitoring Report, add an additional sentence to the end of the paragraph of Report Component (18) as follows:

For management practice information provided in Farm Evaluations by Members in their 1 May 2014 submittal to the third-party [per section VII.B.2. of the Waste Discharge Requirements], this Report Component must be submitted to the Central Valley Water Board as an addendum to the Monitoring Report by 1 July 2014.
