EAST SAN JOAQUIN WATER QUALITY COALITION – SCHEDULE OF MANAGEMENT PLAN PERFORMANCE GOALS FOR 2014-2016 HIGH PRIORITY SITE SUBWATERSHEDS

Thank you for submitting the 23 September 2013 request to update the East San Joaquin Water Quality Coalition's (Coalition) Management Plan. The request proposes a schedule of Management Plan Performance Goals and Measures for the 2014-2016 priority subwatersheds.

In accordance with the schedule in the Management Plan Update Report approved on 1 July 2013, the 2014-2016 high priority subwatersheds are Mustang Creek at East Avenue and Westport Drain at Vivian Road. Silva Drain at Meadow Road is also on the list of 2014-2016 priority site subwatersheds. However, monitoring results and management plans attributed to Silva Drain were actually from a nearby waterbody. Until more is known about the nearby waterbody that was mistakenly sampled instead of Silva Drain, the Coalition will implement the management plan in the Ash Slough at Avenue 21 site subwatershed, which is next on the schedule for addressing subwatersheds with a detailed, focused management plan approach.

The Coalition is currently implementing surface water quality management plans in subwatersheds scheduled for a focused approach during two periods: 2012-2014 and 2013-2015. The proposed performance goals, measures and completion dates for the 2014-2016 priority subwatersheds are similar to previously approved sets of performance goals and measures. Therefore, I approve the Coalition's request to add the 2014-2016 Performance Goals and Measures to the Coalition's Management Plan to be implemented in Ash Slough at Avenue 21, Mustang Creek at East Avenue, and Westport Drain at Vivian Road site subwatersheds. Please note that the Coalition's approved 2008 Management Plan with subsequent approved changes will need to be updated and submitted by **1 May 2014** to conform to Waste Discharge Requirements General Order R5-2012-0116-R1, and that the completion deadlines for performance goals and measures may change. The updated Surface Water Quality Management Plan will be subject to public review.

Please contact Jelena Hartman at jelena.hartman@waterboards.ca.gov or by phone at 916-464-4628 if you should have any questions about this letter.
