

**SWAMP RECREATIONAL USE STUDY  
LABOR DAY WEEKEND 2008  
CENTRAL VALLEY REGIONAL WATER QUALITY CONTROL BOARD  
(16 July 2008)**

Survey Form Instructions:

The following information is required for study planning and inclusion of the site in the SWAMP database.

Site Description is the name of the water body at a recognizable landmark.

Longitude and latitude are requested so that all sites in the study can be mapped. If you do not know the latitude or longitude, please contact Calvin Yang at (916) 464-4837 for assistance.

The first row in the following table is an example of how the form is to be completed. Additional sites may be added if there are not enough rows, however, the number of sites may be limited based on the number of interested parties and laboratory/logistical constraints. Please indicate sites of higher priority.
