NOTICE IS HEREBY GIVEN THAT the Regional Water Quality Control Board – Colorado River Basin Region (Colorado River Basin Water Board) will accept written comments on the proposed underground storage tank (UST) case closure for 7-Eleven Store #22818, 7T2227035, 580 South First Street, Brawley, Imperial County. This UST site is being proposed for case closure pursuant to the State Water Resource Control Board’s “Water Quality Control Policy for Low-Threat Underground Storage Tank Case Closure,” which became effective on August 17, 2012 (Policy). In adopting this Policy, the State Water Board determined that certain UST cases are appropriate for closure if they pose a low threat to human health, safety, and the environment. Low threat may be demonstrated under the Policy by showing that the UST cases meet the general and media-specific criteria established in the Policy, the case closure requirements satisfy Health and Safety Code Section 25296.10, and case closure is consistent with State Water Board Resolution 92-49’s requirement that cleanup goals and objectives be met within a reasonable time frame.

Enclosed is a draft Policy review summary prepared by the Colorado River Basin Water Board for the above-entitled matter. Pursuant to the Policy, the Colorado River Basin Water Board will be providing notice about this proposed case closure and the draft case closure summary to municipal and county water districts, water replenishment districts, special act districts with groundwater management authority, agencies with authority to issue building permits for land affected by the petroleum release, owners and occupants of the property impacted by the petroleum release, and the owners and occupants of all parcels adjacent to the impacted property, as applicable. This Notice will be posted on the Colorado River Basin Water Board’s Public Notice web site.
