### ELTAC BY-LAWS APPROVED

It is my pleasure to release the final revised Environmental Laboratory Technical Advisory Committee (ELTAC) By-Laws. The new By-Laws lay a solid foundation to build upon in collaboration with environmental laboratories, data users, and stakeholders to establish a credible and sustainable Environmental Laboratory Accreditation Program (ELAP) for California. The ELTAC plays a critical role in guiding the ELAP into the future and achieving the goal of making California a leader in laboratory accreditation for environmental and public health programs.

I look forward to many years of sustained success working alongside the environmental laboratory community to create a better ELAP.
