Tulare, CA 93275

Dear Board of Directors:

State Water Resources Control Board Notice Regarding Mandatory Consolidation

Effective June 24, 2015, Senate Bill 88 (Statutes 2015, Chapter 27) added Sections 116680 – 116684 to California Health & Safety Code, addressing consolidation of public water systems.

Our records indicate that the water delivered by the Pratt Mutual Water Company's public water system (System) contains arsenic at levels that exceed the maximum contaminant level established in state and federal regulations. Since approximately February 2010, the System has consistently failed to provide an adequate supply of safe drinking water. It is our understanding that the infrastructure has been built to facilitate delivery of water from the City of Tulare (City).

The State Water Resources Control Board (State Water Board) strongly encourages the System and the City to work out voluntary consolidation of their public water systems. If a voluntary consolidation is not timely achieved, the State Water Board intends to take action pursuant to Health & Safety Code section 116682, subdivision (a) for consolidation of the System with the City's public water system. Please note that as used in the applicable statutory authority, the City is hereby identified as the potentially receiving water system and the System is identified as the potentially subsumed water system.

This letter serves as official notification that, pursuant to Health & Safety Code section 116682, subdivision (b) (6), Pratt Mutual Water Company, the potentially subsumed water system, is directed to negotiate consolidation with the City, the potentially receiving water system. Pratt Mutual Water Company is further directed to complete such negotiations and report the outcome to the State Water Board Division of Drinking Water Tulare District Office not later than six (6) months following the date of this letter.

The State Water Board acknowledges that consolidation is a complex process and stands ready to assist you so that you are successful in delivering safe, affordable and accessible drinking water in a cost-effective manner. Pursuant to Health & Safety Code section 116682, subdivision (b) (6) (A), during the six month negotiation period, the State Water Board will provide technical assistance and work with the City and Pratt Mutual Water Company to develop an appropriate and necessary financing package. Technical assistance will be available from the State Water Board Division of Drinking Water (DDW) and Division of Financial Assistance (DFA).
